ABSTRACT

The purpose of this study was to determine the effect of Total Asset Turnover (TATO), EPS, Debt to Equity Ratio (DER), and Current Ratio (CR) of basic industrial and chemical manufacturing companies listed on the Indonesia Stock Exchange in 2016-2019. The population of this research is 75 companies. While the number of research samples was 31 companies. The results of this study show that partially Total Asset Turn Over, Earning Per Share, Debt to Equity Ratio, and Current Ratio have an effect on stock prices in basic industrial and chemical manufacturing companies listed on the Indonesia Stock Exchange in 2016-2019. TATO, EPS, DER and CR simultaneously affect share prices in basic industrial and chemical manufacturing companies listed in Indonesia Stock Exchange in 2016 - 2019. The results of the Adjusted R Square analysis were 0.631 or 63.1%. So it can be said that 63.1% of the stock price is the contribution of the four variables, namely Total Asset Turn Over, Earning Per Share, Debt to Equity Ratio, and Current Ratio. While the rest ($100\% - 63.1\% = 36.9$) is influenced by other variables. For example NPM, ROE, ROI, PER.
