

# STUDENT'S STRATEGIS IN LEARNING SPEAKING SKILL AT SMP NASRANI 3MEDAN

## Abstract

This research was conducted to study the learning strategies undertaken by students speaking in developing students' skills in speaking. The reason this research was conducted is the fact that most of the students speak foreign languages is still very lacking and difficult so that students find it difficult to learn to learn English. To overcome these problems, an English learning approach can be done using the media to listen to music, read books, and watch television, while the research interview is how many students read books, the relationship between students and student achievement in school to grow students in learning English, that is with self-motivation.

## Introduction

In the era of globalization, English has become a medium in every communication, both in the local and international context, English is called an international language and also a second language from other countries. Because in Indonesia English is still considered a foreign language, so most of them are less proficient. in speaking english in the success of students in learning English can be measured from these English conversations where the grammar, vocabulary of understanding, fluency and pronunciation of students, before students speak they must say besides that, students speak what students must, what they say besides, students must can use pronunciation correctly if not, then the listener is difficult to understand in order to speak fluently and they must have enough vocabulary so that their sentences can understand the sentence that will be conveyed to someone and someone can understand what is being said they can also easier. , students tend to blame teachers, school conditions and materials because of a lack of success in speaking
