

**ANALISA PROSES EVALUASI, PENGAWASAN, KEBIJAKAN, SUPERVISI  
DAN MONITORING KEPALA PUSKESMAS TERHADAP PENYEDIAAN  
LOGISTIK DI UPTD PUSKESMAS LAHUSA**

**Abstrak**

Manajemen logistik merupakan suatu ilmu pengetahuan dan atau seni dalam proses perencanaan dan penentuan kebutuhan, pengadaan, penyimpanan, penyaluran, pemeliharaan, penghapusan dan pengendalian alat-alat kesehatan. Penyediaan logistik di Puskesmas merupakan hal yang perlu diperhatikan penyediaannya melalui sistem manajemen yang baik dan teratur. Sistem manajemen ini dapat dilakukan melalui beberapa cara yaitu melalui pengawasan, supervisi, monitoring dan perlu dilakukan suatu evaluasi terkait pelaksanaan penyediaan logistik. Tujuan penelitian ini adalah untuk analisa proses evaluasi, pengawasan, kebijakan, supervisi dan monitoring Kepala Puskesmas terhadap penyediaan logistik di UPTD Puskesmas Lahusa. Jenis penelitian deskriptif analitik, pendekatan kuantitatif dengan desain *cross-sectional*. Sampel dalam penelitian ini adalah seluruh staf yang terlibat pelaksanaan penyediaan logistik di Puskesmas Lahusa. Teknik pengambilan sampel adalah total populasi yaitu seluruh populasi dijadikan sampel penelitian berjumlah 112 orang. Hasil penelitian ada pengaruh antara evaluasi, pengawasan, kebijakan, supervisi dan monitoring Kepala Puskesmas terhadap penyediaan logistik di UPTD Puskesmas Lahusa. Hasil penelitian ini diharapkan dapat menjadi masukan kepada pelayanan manajemen Puskesmas agar lebih memperhatikan pelaksanaan penyediaan logistik.

**ANALYSIS OF THE PROCESS OF EVALUATION, SUPERVISION, POLICY,  
SUPERVISION AND MONITORING OF PUSKESMAS HEADS OF LOGISTIC  
PROVISION AT UPTD PUSKESMAS LAHUSA**

**Abstract**

*Logistics management is a science and/or art in the process of planning and determining needs, procurement, storage, distribution, maintenance, disposal and control of medical devices. Provision of logistics at the Puskesmas is a matter that needs to be considered for its provision through a good and orderly management system. This management system can be carried out in several ways, namely through supervision, supervision, monitoring and it is necessary to carry out an evaluation related to the implementation of logistics provision. The purpose of this study was to analyze the process of evaluating, supervising, policy, supervising and monitoring the Head of the Puskesmas on the provision of logistics at the UPTD Puskesmas Lahusa. This type of research is descriptive analytic, quantitative approach with a cross-sectional design. The sample in this research is all staff involved in implementing logistics provision at the Lahusa Health Center. The sampling technique is the total population, namely the entire population is used as a research sample totaling 112 people. The results of the study show that there is an influence between evaluation, supervision, policy, supervision and monitoring of the Head of the Puskesmas on the provision of logistics at the UPTD Puskesmas Lahusa. The results of this study are expected to be an input to the health center management services so that they pay more attention to the implementation of logistics provision.*
