

## **Abstract**

This study Attempts to characterize the speech patterns that students use the linguistic infractions that take place when students use and the violations of politeness in language that occur when students communicate with teachers through WhatsApp messages in the environments of Nur Cahaya Medan High School. this study employed interviews and documentation as data collection Methods. the study uses a Qualitative Approach and a descriptive method to describe the collected data. The following are the research conclusions: first, three of the four speech styles currently in use – direct communication devoid of civility, positive politeness, and negative politeness will be put into practice. Second, students' transgression of the six rules of manners wisdom, generosity, appreciation, modesty, sympathy, and apology are highlighted. Third, the assessment of student's language politeness is based on the level of evaluation era.
