

## A. Abstract

Every teaching materials need to be evaluated to determine their feasibility. This study aims to identify the constituent components of "Sahabatku Indonesia" untuk Pelajar BIPA 1 and analyse their strengths and weaknesses. The method used in this research is qualitative with a content or document analysis. The data source is the textbook "Sahabatku Indonesia" untuk Pelajar BIPA 1 published in 2019 by the Language and Book Development Agency. The instrument is an analysis of the assessment of the feasibility of textbooks based on Muslich combined with Permendikbudristek Nomor 22 Tahun 2022 pasal 13 tentang Standar Mutu Buku, Standar Proses dan Kaidah Pemerolehan Naskah, Serta Standar Proses dan Kaidah Penerbitan Buku. The results showed that this textbook was 'very good' with a feasibility percentage of 91, 25%. The shortcomings of coursebooks are caused by writing errors, the use of irrelevant illustrations, incomplete depth of material, and the use of blurry images.
