

## Elements

### Command and Control Team

- Directs and deploys the overall activity of the CERFP
- Reports to the JTF-State and the incident commander

### Search and Extraction Team

- Conducts casualty search and rescues at incident sites
- Extracts victims
- Lifts and moves debris and heavy items using ropes, chains, wires or cranes (rigging)
- Uses equipment designed to support the sides of an excavation and prevent cave-ins (shoring)

### Decontamination Team

- Conducts site selection
- Establishes log-in and log-out procedures
- Conducts clothing removal
- Ambulatory and non-ambulatory decontamination

### Medical Team

- Performs medical triage and initial treatment
- Provides emergency medical treatment
- Provides medical transport
- Stages for military and civilian evacuation
- Provides medical support to patient decontamination and search and extraction

*Chemical, Biological, Radiological, Nuclear and high-yield Explosive (CRRNF) Enhanced Response Force Package (CERFP)*

**CERFP Mission:** To provide immediate response capability to the governor including: incident site search capability of damaged buildings, rescuing trapped casualties, providing decontamination, and performing medical triage and initial treatment to stabilize patients for transport to medical facilities.

**Overview:** The CERFP is comprised of four elements staffed by personnel from already established National Guard units. Elements include: *search and extraction, decontamination, medical, and command and control.* The command and control team directs the overall activities of the CERFP, and coordinates with the Joint Task Force–State (JTF-State) and the incident commander. The search and extraction element is assigned to an Army National Guard Engineering Company, the decontamination element is assigned to an Army National Guard Chemical Company, and the medical element is assigned to an Air National Guard Medical Group. Security duties for the incident site and the four CERFP elements are performed by the state National Guard Response Force.

*“Homeland Defense is mission one for the National Guard. Governors count on the National Guard to be the first military responder and call on Guard assets at their disposal within the first hours of an event.”*

*~LTG Steven Blum, Chief, National Guard Bureau*

### NG CERFP Locations

**Locations:** The initial establishment of 12 CERFPs in 2004 placed at least one in each of the 10 FEMA regions. The National Guard increased the teams in 2006. As of May 2008, there are currently 15 validated CERFPs with two additional teams preparing for validation later this spring.
