Independent Auditor's Report on Financial Statements

Board of Trustees
Del Mar Union School District
Del Mar, California

Members of the Board of Trustees:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Del Mar Union School District as of and for the year ended June 30, 2008, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Del Mar Union School District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Del Mar Union School District as of June 30, 2008, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 7, 2008, on our consideration of Del Mar Union School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis and the budgetary comparison information identified as Required Supplementary Information in the table of contents are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was performed for the purpose of forming opinions on the financial statements which collectively comprise the Del Mar Union School District's basic financial statements. The accompanying schedule of expenditures of federal awards required by U. S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations* and the combining financial statements and supporting schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. This information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Management Discussion and Analysis
Fiscal Year Ending June 30, 2008
(Unaudited)**

This section of the Del Mar Union School District's annual financial reports presents the management discussion and analysis of the District's financial performance during the fiscal year that ended June 30, 2008. It is intended to provide a clear and concise analysis of the activities, financial results, and financial position during the fiscal year, and is a required element of the reporting model established by the Governmental Accounting Standards Boards (GASB) in Statement Number 34. This management discussion and analysis (MD&A) should be read in conjunction with the District's financial statements, which immediately follow this section.

USING THESE FINANCIAL STATEMENTS

This report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the Del Mar Union School District as a complex financial entity. The Del Mar Union School District operates governmental, business-type, and internal service activities.

The Statement of Net Assets and Statement of Activities provide information about the activities of the whole district, presenting both an aggregate view of the district's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail.

FINANCIAL HIGHLIGHTS

Key financial highlights for 2008 are as follows:

Total net assets (including Business Type Activities) for the District are \$115,631,695.

Outstanding Capital Lease-Purchase Debt decreased from 402,717 to \$291,157 during the 2007-08 fiscal year.

The District student enrollment increased to 4,057 in 2007-08.

Property tax revenue increased by 9% on 2007-08 over the 2006-07 fiscal year.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts – Management Discussion and Analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include different kinds of statements that present both a view of the District as a whole, and individual fund statements that focus on various parts of the district's operations in more detail. The financial statements also include notes that explain some of the information presented in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements.

REPORTING THE DISTRICT AS A WHOLE FINANCIAL ENTITY

Statement of Net Assets and Statement of Activities

While this document contains several funds used by the district to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the question, "How did we do financially this year?" The Statement of Net Assets and the Statement of Activities answer this question. These statements include all assets and all liabilities using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or disbursed.

**Del Mar Union School District
Management Discussion and Analysis
Fiscal Year Ending June 30, 2008
(Unaudited)**

These two statements report the District's net assets and changes in those assets. This change is important because it tells the reader whether, for the District as a whole, the financial position of the district has improved or diminished. In addition, non-financial factors such as changes in the District's property tax base and the condition of school buildings and other facilities must be considered.

In the Statement of Net Assets and the Statement of Activities, the District's activities are divided into two categories; governmental activities and business type activities. All of the District's programs and services are reported here including instruction, support services, as well as operation and maintenance of facilities. Under the governmental activities column is where most of the District's basic services are included, such as regular and special education instruction, transportation, and administration. Property taxes and state categorical formulas finance most of these activities. Under the Business-type activities column is where the District's Childcare Programs and Children's Creative Workshop activities are included. Tuition payments finance these activities.

REPORTING THE DISTRICT'S MOST SIGNIFICANT INDIVIDUAL FUNDS

Fund Financial Statements

The fund financial statements provide more detailed information about the District's most significant funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

Some funds are required by State law and by bond covenants.

The District establishes other funds to control and manage money for particular purposes (like repaying its long-term debts) or to show that it is properly using certain revenues (like federal grants).

The District has three kinds of funds which are explained below. Later in this report a chart is provided that shows all of the district funds, balances, and fund types.

Governmental funds-Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets can readily be converted to cash flow in and out, and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs.

Because this information does not encompass the additional long-term focus of the district-wide statements, additional information is provided at the bottom of the governmental funds statements that explains the relationship (or differences) between them.

The District maintains ten individual governmental funds. Four of these funds are considered major funds: the General Fund, the Community Facilities District Funds (95-1 & 99-1), the County School Facilities Fund, and the Other Enterprise Fund. The other six governmental funds are Child Care, Cafeteria, Deferred Maintenance, Special Reserve, Developer Fees, and Special Reserve for Capital Outlay.

Major funds are those whose revenues, expenses, assets, or liabilities are at least 10 percent of the total for their fund category or type (governmental or enterprise) and at least 5 percent of the aggregate amount for all governmental and enterprise funds.

Proprietary funds – Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the district-wide statements. Enterprise funds or internal service funds are the two types of proprietary funds. The District does operate an enterprise fund which is where we account for the activities related to all of the Childcare programs. All of the Childcare programs were reported in this enterprise fund.

**Del Mar Union School District
Management Discussion and Analysis
Fiscal Year Ending June 30, 2008
(Unaudited)**

Enterprise funds are operated in a manner similar to private business where the determination of revenues earned, costs incurred and net income is necessary for management accountability. The District uses one enterprise fund to account for business activities of all of the Childcare programs. All of the Childcare programs were reported in this enterprise fund.

Fiduciary funds – In a fiduciary fund, the District is the trustee, or fiduciary, for assets that belong to others, such as the Foundation Trust Fund. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. All of the District's fiduciary activities are reported in a separate statement of fiduciary net assets and a statement of changes in fiduciary net assets. We exclude these activities from the district-wide financial statements because the District cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Net Assets

The District's net assets were \$ 114,352,083 as of June 30, 2008. The Statement of Net Assets (see Table A-1 below) provides a perspective of the District's net assets as a whole. All of the data is from the District's governmental activities.

Governmental Activities

Revenue in the Governmental Funds is divided into general revenue, which funds the basic on-going instructional programs and related support services, and program revenue, which funds specific program activities that support the children enrolled in Del Mar's schools. Revenues from the District's governmental activities were \$41,751,961 (see Table A-2) while expenditures were \$35,708,854 (see Table A-3).

**Table A-2
Revenue for Governmental Activities**

General Revenues	35,152,118	44,715,465
	\$39,946,404	\$50,758,572

The primary sources of general revenue are federal revenue, state revenue, and local property taxes and represent approximately 79% of general revenues. The remaining 21% of general revenues consists of interest earnings, other agency transfers and local income. The primary sources of program revenues are the State of California and the Federal Government which fund many of the programs operated by the district.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

The financial performance as a whole is reflected in the District's governmental funds. As the District completed the year, the governmental funds reported a combined fund balance of over \$28.4 million. In Table A-4 is a list of all the various District funds balances at the end of the 2006-07 and 2007-08 fiscal years. The variance between years is also listed. The fund types are described in the Fund Financial Statements section of this report.

CFD 95-1

On June 28, 2007 the Del Mar Community Facilities District (CFD) 95-1 issued \$19,955,000 Series 2007 Special Tax Bonds. Proceeds from the Bonds will be used primarily to finance the acquisition and construction of Ocean Air School and prepay the 1999 Certificates of Participation. The current outstanding principal balance on the 1999 Certificates of Participation is \$11,435,000 and will be paid as they become due prior to September 1, 2009 and prepaid in full on September 1, 2009. Interest on the Bonds is payable on September 1, 2007 and semi-annually thereafter on each September 1 and March 1.

Fiscal Year Ending June 30, 2008
(Unaudited)**

CFD 99-1

Pursuant to the formation resolution and the bond authorization resolution which was approved by the Board of Trustees on May 12, 1999, an election was held on September 28, 1999 which allowed the Community Facilities District 99-1 to finance the cost of public facilities by incurring bonded indebtedness. More than two-thirds of the votes cast were in favor of the "Series 2003 Special Tax Bonds" maturing on September 1, 2029 and September 1, 2038. In October 2003, the Del Mar Community Facilities District 99-1 issued \$10,620,000 in Special Tax Bonds. Proceeds from the sale of the bonds were used to purchase the land and construct the Pacific Highlands Ranch School #7 named Sycamore Ridge. The first interest payment on the bonds was paid on March 1, 2004 and is due semi-annually thereafter on March 1 and September 1. The interest rate varies; in 2005 it is 2% and increases to 5.875% in 2025 through 2038.

The debt service and interest payments for both the COP's and the Special Tax Bonds will be paid with revenues generated from the two CFD's. No District general operating funds will be used.

General Fund Budgetary Highlights

Information about the district's major funds, including the General Fund, is shown later in this report. The General Fund is accounted for using the modified accrual basis of accounting. The district's budget is prepared according to California law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances.

During the course of the year, interim reports are used for each major budget revision and are presented at the Governing Board for review and approval and regularly scheduled Board meetings and in accordance with deadlines established by the California Department of Education.

Capital Assets

At the end of the 2007-08 fiscal year, the district had \$131,309,084 invested in land, land improvements, buildings, equipment, and capital equipment. After accumulated depreciation of \$15,173,955 is applied, the value of net capital assets is \$116,135,129.

Current Financial Related Activities

Over the years, Del Mar Union School District has maintained a strong, financially responsible budget. Each year the district takes a careful look at revenue and expenditure projections on a multi-year basis and adjusts it's budget accordingly. Adjustments are necessary in order to maintain an acceptable and safe reserve balance. As the preceding information shows, assets are substantial and the amount of debt paid from general revenues is a very small percentage of the overall budget; however, the financial future is still full of challenges. Prudent planning and conservative spending must be a priority as the uncertainty of basic aid funding will continue. The reserves will help to minimize the impact of any loss of revenue and will allow sufficient planning time to secure alternative funding sources and reduce programs if necessary.

Contacting the District

The financial report is designed to provide our citizens, taxpayers, investors, and creditors with a general overview of the district's finances and to show the district's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Dena Whittington, Assistant Superintendent of Business Services, at Del Mar Union School District, 225 9th Street, Del Mar, CA 92014.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2008

Net change in fund balances - total governmental funds \$ 4,137,520

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlay: In governmental funds, the costs of capital assets are reported as expenditures in the period when the assets are acquired. In the statement of activities, costs of capital assets are allocated over their estimated useful lives as depreciation expense. The difference between capital outlay expenditures and depreciation expense for the period is:

	8,825,295	
Expenditures for capital outlay		
Depreciation expense	<u>(2,156,480)</u>	
Net		6,668,815

Debt service: In governmental funds, repayments of long-term debt are reported as expenditures. In the government-wide statements, repayments of long-term debt are reported as reductions of liabilities. Expenditures for repayment of the principal portion of long-term debt were: 251,560

Debt issue costs: In governmental funds, debt issue costs are recognized as expenditures in the period they are incurred. In the government-wide statements, issue costs are amortized over the life of the debt. The difference between debt issue costs recognized in the current period and issue costs amortized for the period is:

	211,474	
Issue costs incurred during the period		
Issue costs amortized for the period	<u>(36,304)</u>	
Net		175,170

Gain or loss from disposal of capital assets: In governmental funds, the entire proceeds from disposal of capital assets are reported as revenue. In the statement of activities, only the resulting gain or loss is reported. The difference between the the proceeds from disposal of capital assets and the resulting gain or loss is: (1,670,228)

Unmatured interest on long-term debt: In governmental funds, interest on long-term debt is recognized in the period that it becomes due. In the government-wide statement of activities, it is recognized in the period that it is incurred. Unmatured interest owing at the end of the period, less matured interest paid during the period but owing from the prior period, was: (309,632)

Compensated absences: In governmental funds, compensated absences are measured by the amounts paid during the period. In the statement of activities, compensated absences are measured by the amounts earned. The difference between compensated absences paid and compensated absences earned was: (35,120)

Amortization of debt issue premium or discount: In governmental funds, if debt is issued at a premium or at a discount, the premium or discount is recognized as an Other Financing Source or an Other Financing Use in the period it is incurred. In the government-wide statements, the premium or discount is amortized as interest over the life of the debt. Amortization of premium or discount for the period is: (211,474)

DEL MAR UNION SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2008

A. Summary of Significant Accounting Policies

Del Mar Union School District (District) accounts for its financial transactions in accordance with the policies and procedures of the Department of Education's "California School Accounting Manual". The accounting policies of the District conform to accounting principles generally accepted in the United States of America (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB) and the American Institute of Certified Public Accountants (AICPA).

1. Reporting Entity

The District's combined financial statements include the accounts of all its operations. The District evaluated whether any other entity should be included in these financial statements. The criteria for including organizations as component units within the District's reporting entity, as set forth in GASB Statement No. 14, "The Financial Reporting Entity," include whether:

- the organization is legally separate (can sue and be sued in its name)
- the District holds the corporate powers of the organization
- the District appoints a voting majority of the organization's board
- the District is able to impose its will on the organization
- the organization has the potential to impose a financial benefit/burden on the District
- there is fiscal dependency by the organization on the District

The District also evaluated each legally separate, tax-exempt organization whose resources are used principally to provide support to the District to determine if its omission from the reporting entity would result in financial statements which are misleading or incomplete. GASB Statement No. 14 requires inclusion of such an organization as a component unit when: 1) The economic resources received or held by the organization are entirely or almost entirely for the direct benefit of the District, its component units or its constituents; and 2) The District or its component units is entitled to, or has the ability to otherwise access, a majority of the economic resources received or held by the organization; and 3) Such economic resources are significant to the District.

Based on these criteria, the District has two component units, the Del Mar Schools Community Facilities Districts and the Del Mar Schools Education Foundation. The Del Mar Schools Community Facilities Districts are presented as a blended component unit in the District's audited financial statements. The Del Mar Schools Education Foundation, a California non-profit public benefit corporation which raises funds for the benefit of the District is presented as a discretely presented component unit in the District's audited financial statements.

Additionally, the District is not a component unit of any other reporting entity as defined by the GASB statement.

2. Basis of Presentation, Basis of Accounting

a. Basis of Presentation

Government-wide Statements: The statement of net assets and the statement of activities include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. These statements distinguish between the governmental and business-type activities of the District. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for the different business-type activities of the District and for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. The District does not allocate indirect expenses in the statement of activities. Program revenues include (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

DEL MAR UNION SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2008

Fund Financial Statements: The fund financial statements provide information about the District's funds, with separate statements presented for each fund category. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investment earnings, result from nonexchange transactions or ancillary activities.

The District reports the following major governmental funds:

General Fund. This is the District's primary operating fund. It accounts for all financial resources of the District except those required to be accounted for in another fund.

Capital Project Fund for Blended Component Unit. This fund is used to account for the transactions that are associated with the capital projects of the District's Community Facilities Districts (CFD).

Special Reserve for Capital Outlay Fund. This fund is used for the accumulation of resources to be used to acquire capital assets.

The District reports the following major enterprise funds:

Other Enterprise Fund. This fund accounts for the financial resources of the district associated with the operation of the district's child care programs.

In addition, the District reports the following fund types:

Special Revenue Funds. These funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes.

Capital Projects Funds. These funds are used to account for the proceeds of bond issuances and for the acquisition of capital assets of the district.

Private-Purpose Trust Funds. These funds are used to report trust arrangements under which principal and income benefit individuals, private organizations, or other governments not reported in other fiduciary fund types.

Fiduciary funds are reported in the fiduciary fund financial statements. However, because their assets are held in a trustee or agent capacity and are therefore not available to support District programs, these funds are not included in the government-wide statements.

b. Measurement Focus, Basis of Accounting

Government-wide, Proprietary, and Fiduciary Fund Financial Statements: These financial statements are reported using the economic resources measurement focus. The government-wide and proprietary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

DEL MAR UNION SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2008

Governmental Fund Financial Statements: Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District does not consider revenues collected after its year-end to be available in the current period. Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the susceptible-to-accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

When the District incurs an expenditure or expense for which both restricted and unrestricted resources may be used, it is the District's policy to use restricted resources first, then unrestricted resources.

Under GASB Statement No. 20, "Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting," all proprietary funds will continue to follow Financial Accounting Standards Board ("FASB") standards issued on or before November 30, 1989. However, from that date forward, proprietary funds will have the option of either 1) choosing not to apply future FASB standards (including amendments of earlier pronouncements), or 2) continuing to follow new FASB pronouncements unless they conflict with GASB guidance. The District has chosen to apply future FASB standards.

3. Encumbrances

Encumbrance accounting is used in all budgeted funds to reserve portions of applicable appropriations for which commitments have been made. Encumbrances are recorded for purchase orders, contracts, and other commitments when they are written. Encumbrances are liquidated when the commitments are paid. All encumbrances are liquidated as of June 30.

4. Assets, Liabilities, and Equity

a. Deposits and Investments

Cash balances held in banks and in revolving funds are insured to \$100,000 by the Federal Depository Insurance Corporation. All cash held by the financial institutions is fully insured or collateralized. For purposes of the statement of cash flows, highly liquid investments are considered to be cash equivalents if they have a maturity of three months or less when purchased.

In accordance with Education Code Section 41001, the District maintains substantially all its cash in the San Diego County Treasury. The county pools these funds with those of other districts in the county and invests the cash. These pooled funds are carried at cost, which approximates market value. Interest earned is deposited quarterly into participating funds, except for the Tax Override Funds, in which interest earned is credited to the general fund. Any investment losses are proportionately shared by all funds in the pool.

The county is authorized to deposit cash and invest excess funds by California Government Code Section 53648 et seq. The funds maintained by the county are either secured by federal depository insurance or are collateralized.

Information regarding the amount of dollars invested in derivatives with San Diego County Treasury was not available.

DEL MAR UNION SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2008

b. Stores Inventories and Prepaid Expenditures

Inventories are recorded using the purchases method in that the cost is recorded as an expenditure at the time individual inventory items are purchased. Inventories are valued at average cost and consist of expendable supplies held for consumption. Reported inventories are equally offset by a fund balance reserve, which indicates that these amounts are not "available for appropriation and expenditure" even though they are a component of net current assets.

The District has the option of reporting an expenditure in governmental funds for prepaid items either when purchased or during the benefiting period. The District has chosen to report the expenditure when incurred.

c. Capital Assets

Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated fixed assets are recorded at their estimated fair value at the date of the donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. A capitalization threshold of \$5,000 is used.

Capital assets are being depreciated using the straight-line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Lives</u>
Infrastructure	30
Buildings	25-50
Building Improvements	20
Vehicles	5-15
Office Equipment	5-15
Other Equipment	5-15

d. Receivable and Payable Balances

The District believes that sufficient detail of receivable and payable balances is provided in the financial statements to avoid the obscuring of significant components by aggregation. Therefore, no disclosure is provided which disaggregates those balances.

There are no significant receivables which are not scheduled for collection within one year of year end.

e. Compensated Absences

Accumulated unpaid employee vacation benefits are recognized as liabilities of the District. The current portion of the liabilities is recognized in the general fund at year end.

Accumulated sick leave benefits are not recognized as liabilities of the District. The District's policy is to record sick leave as an operating expense in the period taken since such benefits do not vest nor is payment probable; however, unused sick leave is added to the creditable service period for calculation of retirement benefits when the employee retires.

f. Deferred Revenue

Cash received for federal and state special projects and programs is recognized as revenue to the extent that qualified expenditures have been incurred. Deferred revenue is recorded to the extent cash received on specific projects and programs exceeds qualified expenditures.

DEL MAR UNION SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2008

g. Interfund Activity

Interfund activity results from loans, services provided, reimbursements or transfers between funds. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures or expenses. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers In and Transfers Out are netted and presented as a single "Transfers" line on the government-wide statement of activities. Similarly, interfund receivables and payables are netted and presented as a single "Internal Balances" line of the government-wide statement of net assets.

h. Property Taxes

Secured property taxes attach as an enforceable lien on property as of March 1. Taxes are payable in two installments on November 15 and March 15. Unsecured property taxes are payable in one installment on or before August 31. The County of San Diego bills and collects the taxes for the District.

i. Fund Balance Reserves and Designations

Reservations of the ending fund balance indicate the portions of fund balance not appropriable for expenditure or amounts legally segregated for a specific future use. The reserve for revolving fund and reserve for stores inventory reflect the portions of fund balance represented by revolving fund cash and stores inventory, respectively. These amounts are not available for appropriation and expenditure at the balance sheet date.

Designations of the ending fund balance indicate tentative plans for financial resource utilization in a future period.

j. Use of Estimates

The preparation of financial statements in conformity with GAAP requires the use of management's estimates. Actual results could differ from those estimates.

B. Compliance and Accountability

1. Finance-Related Legal and Contractual Provisions

In accordance with GASB Statement No. 38, "Certain Financial Statement Note Disclosures," violations of finance-related legal and contractual provisions, if any, are reported below, along with actions taken to address such violations:

<u>Violation</u>	<u>Action Taken</u>
None reported	Not applicable

2. Deficit Fund Balance or Fund Net Assets of Individual Funds

Following are funds having deficit fund balances or fund net assets at year end, if any, along with remarks which address such deficits:

<u>Fund Name</u>	<u>Deficit Amount</u>	<u>Remarks</u>

C. Excess of Expenditures Over Appropriations

As of June 30, 2008 expenditures exceeded appropriations in individual funds as follows:

<u>Appropriations Category</u>	<u>Excess Expenditures</u>
General Fund:	
Debt service-principal	\$ 111,560
Debt service-interest	14,793

D. Cash and Investments

1. Cash in County Treasury:

In accordance with Education Code Section 41001, the District maintains substantially all of its cash in the San Diego County Treasury as part of the common investment pool (\$25,622,558 as of June 30, 2008). The fair value of the District's portion of this pool as of that date, as provided by the pool sponsor, was \$25,622,558. Assumptions made in determining the fair value of the pooled investment portfolios are available from the County Treasurer.

2. Cash on Hand, in Banks, and in Revolving Fund

Cash balances in banks and in the revolving fund (\$20,000) are insured up to \$100,000 by the Federal Depository Insurance Corporation. All cash held by the financial institution is fully insured or collateralized.

3. Investments:

The District's investments at June 30, 2008 are shown below.

<u>Investment or Investment Type</u>	<u>Fair Value</u>
Blackrock T-Funds	\$ 721,095
Total Investments	<u>\$ 721,095</u>

4. Analysis of Specific Deposit and Investment Risks

GASB Statement No. 40 requires a determination as to whether the District was exposed to the following specific investment risks at year end and if so, the reporting of certain related disclosures:

a. Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The county is restricted by Government Code Section 53635 pursuant to Section 53601 to invest only in time deposits, U.S. government securities, state registered warrants, notes or bonds, State Treasurer's investment pool, bankers' acceptances, commercial paper, negotiable certificates of deposit, and repurchase or reverse repurchase agreements. The ratings of securities by nationally recognized rating agencies are designed to give an indication of credit risk. At year end, the District was not exposed to credit risk.

b. Custodial Credit Risk

Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the District's name.

DEL MAR UNION SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2008

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by either the counterparty or the counterparty's trust department or agent but not in the District's name. At year end, the District was not exposed to custodial credit risk.

c. Concentration of Credit Risk

This risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. At year end, the District was not exposed to concentration of credit risk.

d. Interest Rate Risk

This is the risk that changes in interest rates will adversely affect the fair value of an investment. At year end, the District was not exposed to interest rate risk.

e. Foreign Currency Risk

This is the risk that exchange rates will adversely affect the fair value of an investment. At year end, the District was not exposed to foreign currency risk.

5. Investment Accounting Policy

The District is required by GASB Statement No. 31 to disclose its policy for determining which investments, if any, are reported at amortized cost. The District's general policy is to report money market investments and short-term participating interest-earning investment contracts at amortized cost and to report nonparticipating interest-earning investment contracts using a cost-based measure. However, if the fair value of an investment is significantly affected by the impairment of the credit standing of the issuer or by other factors, it is reported at fair value. All other investments are reported at fair value unless a legal contract exists which guarantees a higher value. The term "short-term" refers to investments which have a remaining term of one year or less at time of purchase. The term "nonparticipating" means that the investment's value does not vary with market interest rate changes. Nonnegotiable certificates of deposit are examples of nonparticipating interest-earning investment contracts.

The District's investments in external investment pools are reported at an amount determined by the fair value per share of the pool's underlying portfolio, unless the pool is 2a7-like, in which case they are reported at share value. A 2a7-like pool is one which is not registered with the Securities and Exchange Commission ("SEC") as an investment company, but nevertheless has a policy that it will, and does, operate in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940.

3. Capital Leases

Commitments under capitalized lease agreements for facilities and equipment provide for minimum future lease payments as of June 30, 2008 are as follows:

Year Ending June 30:	
2009	\$ 119,840
2010	99,402
2011	88,175
Total Minimum Lease Payments	\$ 307,417
Less Amounts Representing Interest	(16,260)
Net Minimum Lease Payments	\$ 291,157

4. Unamortized Premium

Special Tax Bonds issued in the year ended June 30, 2007 were sold at a premium, meaning that the market rate of interest was lower than the stated rate of interest on the Bonds; therefore, they were sold for more than the face value. Generally Accepted Accounting Principles (GAAP) requires that this premium be amortized over the life of the debt. The carrying value reported on the government-wide balance sheet was presented in accordance with GAAP and was the face value of the debt plus the unamortized premium. The total premium for the debt as of June 30, 2008 was \$83,676 resulting in a carrying value of \$30,248,676.

i. Joint Ventures (Joint Powers Agreements)

The District participates in one joint powers agreement (JPA) entity, the San Diego County Schools Risk Management (SDCSRM). The relationship between the District and the JPA is such that the JPA is not a component unit of the District.

The JPA arranges for and provides for various types of insurance for its member districts as requested. The JPA is governed by a board consisting of a representative from each member district. The board controls the operations of the JPA, including selection of management and approval of operating budgets, independent of any influence by the member districts beyond their representation on the board. Each member district pays a premium commensurate with the level of coverage requested and shares surpluses and deficits proportionate to their participation in the JPA.

J. Employee Retirement Systems

Qualified employees are covered under multiple-employer defined benefit pension plans maintained by agencies of the State of California. Certificated employees are members of the State Teachers' Retirement System (STRS), and classified employees are members of the Public Employees' Retirement System (PERS).

PERS:

Plan Description

The District contributes to the School Employer Pool under the California Public Employees' Retirement System (CalPERS), a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. The plan provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by state statutes, as legislatively amended, within the Public Employees' Retirement Law. CalPERS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the CalPERS annual financial report may be obtained from the CalPERS Executive Office, 400 P Street, Sacramento, California 95814.

Funding Policy

Active plan members are required to contribute 7% of their salary and the District is required to contribute an actuarially determined rate. The actuarial methods and assumptions used for determining the rate are those adopted by the CalPERS Board of Administration. The required employer contribution rate for fiscal year 2007-08 was 9.32% of annual payroll. The contribution requirements of the plan members are established by state statute. The District's contributions to CalPERS for the fiscal year ending June 30, 2008, 2007 and 2006 were \$554,198, \$470,034 and \$413,331, respectively, and equal 100% of the required contributions for each year. The amount contributed by the State on behalf of the District was \$0.

STRS:

Plan Description

The District contributes to the State Teachers' Retirement System (STRS), a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by STRS. The plan provides retirement, disability, and survivor benefits to beneficiaries. Benefit provisions are established by state statutes, as legislatively amended, within the State Teachers' Retirement Law. STRS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the STRS annual financial report may be obtained from the STRS, 7667 Folsom Boulevard, Sacramento, California 95826.

DEL MAR UNION SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED JUNE 30, 2008

Funding Policy

Active plan members are required to contribute 8% of their salary and the District is required to contribute an actuarially determined rate. The actuarial methods and assumptions used for determining the rate are those adopted by the STRS Teachers' Retirement Board. The required employer contribution rate for fiscal year 2007-08 was 8.25% of annual payroll. The contribution requirements of the plan members are established by state statute. The District's contributions to STRS for the fiscal year ending June 30, 2008, 2007 and 2006 were \$1,636,650, \$1,486,577 and \$1,388,824, respectively, and equal 100% of the required contributions for each year. The amount contributed by the State on behalf of the District was \$1,198,523.

K. Alternative Pension Plan

The District participates in one alternative pension plan through the Fringe Benefit Consortium (FBC). The FBC was formed in October 1982 as part of a Joint Powers Agreement (JPA) of the San Diego County Office of Education. The FBC provides 401(a), 457(b), and 403(b) investment programs. Under these plans, eligible employees will contribute up to \$14,000 per year of their salary before taxes. The plan earns interest and is paid out upon termination of service, death, or in-service withdrawal.

L. Postemployment Benefits Other Than Pension Benefits

The District provides postretirement health care benefits, as established by board policy, to all employees who retire from the District on or after attaining age 55 with at least 10 years of service. On June 30, 2008, 23 retirees met these eligibility requirements.

The District pays health insurance premiums on behalf of qualified pre-Medicare retirees at a rate ranging from 50% to 100% of the cost, depending on length of service and other factors. During the year ended June 30 2008, expenditures of \$114,657 were recognized for postretirement health care. These costs were funded on a pay-as-you-go basis. The District does not recognize a liability for future postemployment health care benefits because the amount cannot be reasonably determined.

M. Commitments and Contingencies

State and Federal Allowances, Awards, and Grants

The District has received state and federal funds for specific purposes that are subject to view and audit by the grantor agencies. Although such audits could generate expenditure disallowances under terms of the grants, it is believed that any required reimbursement will not be material.

N. Subsequent Events

The district issued \$3,800,000 of Tax Revenue Anticipation Notes (TRANS) with an interest rate of 3.50% dated July 1, 2008. The TRANS was sold to supplement the district's cash flow and matures on June 30, 2009.

O. GASB Statement No. 45

In June 2004, the Governmental Accounting Standards Board (GASB) issued Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions. The pronouncement will require employers providing postemployment benefits, commonly referred to as other postemployment benefits, or OPEB, to recognize and account for the costs of providing these benefits on an accrual basis and provide footnote disclosure on the progress toward funding the benefits. The implementation date for this pronouncement will be phased in over three years based upon the entity's revenues. GASB Statement No. 45 will be effective for the Del Mar Union School District beginning in the 2008-09 fiscal year. The effect of this pronouncement on the financial condition of the District has not been determined.

This schedule discloses the district's financial trends by displaying past years' data along with current year budget information. These financial trend disclosures are used to evaluate the district's ability to continue as a going concern for a reasonable period of time.

The district's general fund balance has increased by \$5,842,731 over the past three years. The fiscal year 2008-09 budget projects a decrease of \$1,230,183. For a district this size, the state recommends available reserves of at least 3% of total general fund expenditures, other uses and transfers out.

Long-term debt has increased by \$7,321,487 over the past three years.

Average daily attendance (ADA) has increased by 161 over the past three years.

Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

Board of Trustees
Del Mar Union School District
Del Mar, California

Members of the Board of Trustees:

We have audited the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Del Mar Union School District as of and for the year ended June 30, 2008, which collectively comprise the Del Mar Union School District's basic financial statements and have issued our report thereon dated November 7, 2008. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Del Mar Union School District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the Del Mar Union School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Del Mar Union School District's internal control over financial reporting. A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the Del Mar Union School District's ability to initiate, authorize, record, process or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the Del Mar Union School District's financial statements that is more than inconsequential will not be prevented by the Del Mar Union School District's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the Del Mar Union School District's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we considered to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Del Mar Union School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, others within the entity, the Board of Trustees, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Report on Compliance with Requirements Applicable
To each Major Program and on Internal Control over Compliance
In Accordance With OMB Circular A-133

Board of Trustees
Del Mar Union School District
Del Mar, California

Members of the Board of Trustees:

Compliance

We have audited the compliance of Del Mar Union School District with the types of compliance requirements described in the *U. S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2008. Del Mar Union School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of Del Mar Union School District's management. Our responsibility is to express an opinion on Del Mar Union School District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Del Mar Union School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Del Mar Union School District's compliance with those requirements.

In our opinion, Del Mar Union School District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2008.

Internal Control Over Compliance

The management of Del Mar Union School District is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered Del Mar Union School District's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Del Mar Union School District's internal control over compliance.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we considered to be material weaknesses.

This report is intended solely for the information and use of management, others within the entity, the Board of Trustees, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Auditor's Report on State Compliance

Board of Trustees
Del Mar Union School District
Del Mar, California

Members of the Board of Trustees:

We have audited the basic financial statements of the Del Mar Union School District ("District") as of and for the year ended June 30, 2008, and have issued our report thereon dated November 7, 2008. Our audit was made in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the State's audit guide, *Standards and Procedures for Audits of California K-12 Local Education Agencies 2007-08*, published by the Education Audit Appeals Panel. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The District's management is responsible for the District's compliance with laws and regulations. In connection with the audit referred to above, we selected and tested transactions and records to determine the District's compliance with the state laws and regulations applicable to the following items:

The term "Not Applicable" is used above to mean either that the District did not offer the program during the current fiscal year or that the program applies only to a different type of local education agency.

Based on our audit, we found that, for the items tested, Del Mar Union School District complied with the state laws and regulations referred to above, except as described in the Findings and Recommendations section of this report. Further, based on our examination, for items not tested, nothing came to our attention to indicate that the Del Mar Union School District had not complied with the state laws and regulations.

This report is intended solely for the information and use of the Board of Trustees, management, State Controller's Office, Department of Finance, Department of Education, and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

 Attendance

Criteria or Specific Requirement

Determine that the Second Period and Annual reports of attendance submitted to the California Department of Education reconcile to the supporting documents and summaries maintained by the District.

Condition

In review of the P2 Second Period attendance report, the attendance for extended year special education calculated on the District recap summary was not included. The extended year special education attendance was included on the P1 First Period and Annual reports; however, the average daily attendance was inadvertently not disclosed and reported on the P2 Second Period report.

Questioned Costs

Understated 6.04 ADA at P2. No amount due-Basic Aid District.

Recommendation

Amend the P2 Second Period report to reflect the additional attendance for extended year special education. In future periods, include all components of attendance on the reports submitted to the California Department of Education and reconcile all amounts reported to supporting documents and summaries prepared by the District prior to submission.

LEA's Response

The District has amended the P2 Second Period report to reflect the additional attendance for extended year special education. In future periods, the District will implement an additional review process to ensure all submitted components of attendance on the reports submitted to the California Department of Education are included.
