

To the 7/11 District Advisory Committee:

I urge you to take off the table any proposal to close any school. This is a school district. The children come first. School closure should be the last option to be considered.

History has shown us that demographics fluctuate. Other school districts in California, in beach communities in particular, have experienced the same fluctuations and have mistakenly closed schools, only to have regretted such a short-sighted decision when the school was needed once again as young children moved back into the neighborhoods.

I am in support of Proposal G.1. This proposal presents the least expensive way to acquire a new district office. The district already owns the land, the district can build what it needs and no children will be displaced or crowded into schools that will be at or over-capacity. Please support Proposal G.1. It is our best option.

Sincerely,
