

To all members of the 7/11 committee:

I am just a concerned Torrey Hills parent. I have tried to follow the lengthy debates regarding the placement of district offices. I cannot see how placing a district office or M and O at the school site of Torrey Hills would even be suggested. However there are also certain facts about the school site that those of us who have lived here 10 years clearly recall. The Torrey Hills school was slated to open before Sage Canyon , in 2000. The construction had to be delayed due to the soil conditions at the school. I know this was mentioned in the last open meeting, but I recall that the original plans for construction had to be completely changed. They prohibited any 2 story buildings at the site. That is why I was surprised to see this proposal in the agenda on January 8th, 2010. Have these records been thoroughly reviewed? Any way to get this proposal removed would please our school community but student safety and security are still the main concerns. Thank you for your time in this ongoing process.

Loretta Gordon
