BOARD POLICY 6011: ACADEMIC STANDARDS

BOARD POLICY 6141.2 (was BP 6020):

RECOGNITION OF RELIGIOUS BELIEFS AND CUSTOMS

The Board of Trustees recognizes that students' education would be incomplete without an understanding of the role that religion has played in society. As appropriate for a particular unit of study, teachers may objectively discuss the influences of various religions, using religious works and symbols to illustrate their relationship with culture, literature or the arts. The Board expects that such instruction will identify principles common to all religions and foster respect for the diversity of religions and customs of the world.

In order to respect each student's individual right to freedom of religious practice, religious indoctrination is clearly forbidden in the public schools. Instruction about religion shall not promote or denigrate the beliefs or customs of any particular religion or sect, nor should a preference be shown for one religious viewpoint over another. Staff members shall be highly sensitive to their obligation not to interfere with the religious development of any student in whatever tradition the student embraces.

Staff shall not endorse, encourage or solicit religious or anti-religious expression or activities among students during class time. As part of their official duties, staff shall not lead students in prayer or other religious activities. However, staff shall not prohibit or discourage any student from praying or otherwise expressing his/her religious belief as long as this does not disrupt the classroom.

Students may express their beliefs about religion in their homework, artwork and other class work if the expression is germane to the assignment. Such work shall be judged by ordinary academic standards.

While teaching about religious holidays is a permissible part of the educational program, celebrating religious holidays is not allowed in the public schools. School-sponsored programs shall not be, nor have the effect of being, religiously oriented or a religious celebration. School and classroom decorations may express seasonal themes that are not religious in nature.

Music, art, literature or drama programs having religious themes are permitted as part of the curriculum for school-sponsored activities and programs if presented in an objective manner and as a traditional part of the cultural and religious heritage.

The use of religious symbols that are part of a religious holiday is permitted as a teaching aid or resource provided that such symbols are displayed as an example of cultural and religious heritage of the holiday and are temporary in nature.

RECOGNITION OF RELIGIOUS BELIEFS AND CUSTOMS***

Staff shall make every effort to avoid scheduling examinations, school-sponsored trips, special laboratories, picture-taking days and class parties, to minimize conflicts with major religious holidays.

Programs and Exhibits

When school programs and exhibits are in any way related to instruction about religion or religious holidays, the following guidelines shall be observed:

1. The principal or designee shall ensure that school-sponsored programs are presented in an objective manner, consistent with Board policy.
2. The principal or designee shall be kept informed of the program's development and shall participate in the planning process.
3. Program planners shall take into consideration the diverse religious faiths represented in the community, student body and staff, and shall promote a balance that reflects the diversity in the community. Special school events, assemblies, concerts and programs must be designed to further the Board-approved curriculum and may not focus on any one religion or religious observance. Religious music may be included in school events, but the music must be included because of its educational value. Special school events must not promote any particular religion or become a forum for religious devotion.

The use of religious symbols is permissible as a teaching aide or resource. Religious symbols may be displayed on a temporary basis provided that the symbols that are displayed are examples of the cultural and religious heritage of the holiday. Symbols of religious holidays which have acquired secular meaning, such as Christmas trees and dreidels are permissible if these symbols are displayed on a short term basis (48 hours or less) and must further the Board-approved secular curriculum.

In designing holiday programs, staff may include religious music/drama, but the music/drama must be included only because of its secular educational value. Holiday programs must not promote or denigrate any religion, serve as a religious celebration, or become a forum for religious devotion. Students who participate in holiday concerts may not be required to wear specialized attire that suggests or advocates any religion or holiday celebration.

BOARD POLICY 6141.6: MULTICULTURAL EDUCATION

To foster intercultural understanding, communication and respect in an increasingly diverse society, curriculum and instruction at all grade levels shall reflect the perspectives and experiences of various cultural, ethnic, racial and social groups. The Governing Board desires that multicultural education be integrated across the curriculum into as many subjects as possible rather than providing isolated lessons on different cultures.

The district's comprehensive multicultural education program shall recognize the contributions of different groups of people to the history, life and culture of the local community, California, the United States and the world. It may include, but not be limited to, instruction about the languages, cultural characteristics, significant events and individuals, and social, political and economic conditions of various ethnic groups.

While recognizing the unique aspects of different cultures and peoples, multicultural education shall also emphasize commonalities and challenge the stereotypes and biases that inhibit intergroup respect and understanding. Multicultural education also shall be designed to contribute to the personal development of students through greater self-understanding, positive self-concept and pride in one's ethnic identity.

BOARD POLICY 6142.4: SERVICE LEARNING

The Governing Board recognizes that service learning can help students learn the grade level academic standards, develop skills, career awareness and promote self-esteem. Service experiences also can motivate students by letting them apply what they are studying to local needs and problems and by showing them that they can make a meaningful contribution to their school and/or community.

Integrated Service Learning

The Board values and encourages the integration of service learning activities within the curriculum so as to enhance learning in all subject areas. The Board encourages staff to collaborate with local public and nonprofit agencies in order to develop service learning activities that meet the core academic standards and also fit in with current community efforts to meet social welfare, educational, environmental or public safety needs.

BOARD POLICY 6142.5: ENVIRONMENTAL EDUCATION

The Governing Board recognizes that the schools play a crucial role in educating students on environmental issues and preparing them to be the stewards of their natural resources. The quality of life in future generations will depend upon our students' willingness and ability to solve today's environmental problems and prevent new ones from developing.

The Board desires to offer environmental education that fosters attitudes of personal responsibility toward the environment and provides students with the concepts, knowledge and skills needed to contribute meaningfully to decisions involving the environment and its resources. At all grade levels, environmental facts should be taught as they relate to each other, so that students will understand basic ecological principles and appreciate the interrelated nature of living processes, the effect of human activities on ecological relationships, and the interdependence of humanity and nature.

The Board encourages school and classroom activities that encourage students to recycle, conserve water and energy, use biodegradable materials when possible, and dispose of wastes in an environmentally sound way.

The Board encourages staff to provide students with opportunities to increase their understanding of science and the interdependence of living things through the study of endangered species in local habitats and through participation in projects related to this study.

The Governing Board recognizes that by studying visual and performing arts, students learn to develop initiative, discipline, perceptual abilities and critical and creative thinking skills that extend to all areas of life. The Board believes that a comprehensive arts education program should be an integral part of the basic education offered to all students in all grades. The Board encourages all teachers to use the arts to facilitate learning in the subjects they teach.

The district's arts education program shall include opportunities to continually improve artistic skills, create and/or perform original works, acquire an appreciation of arts from many eras and cultures and develop an intellectual basis for making aesthetic judgments.

The Board supports collaboration with community arts agencies through the Local Arts Education Partnership Program and is committed to providing the necessary time, staff and financial resources in order to fulfill the district's part in this school-community arts agency partnership.

The Board acknowledges the importance of ongoing professional development for teachers in arts education. In addition, the physical education program builds interest and proficiency in movement skills and encourages students' lifelong fitness through physical activity. BOARD POLICY 6142.91: READING/LANGUAGE ARTS INSTRUCTION

The Governing Board recognizes that reading and other language arts constitute the basic foundation for learning in other disciplines. Students should develop an appreciation for literature and for reading as a means to acquire knowledge. They also should develop oral and written language skills that enable them to effectively communicate with others.

The Board desires to offer a comprehensive, balanced reading/language arts program that ensures that all students have the skills necessary to read fluently and for meaning. The program shall integrate reading, writing, speaking and listening activities in order to build strong communication skills.

For each grade level, the Board shall adopt academic standards in reading, speaking and writing, including spelling and grammar.

Teachers are encouraged to use a variety of instructional strategies to accommodate the needs of beginning readers and the varying abilities of more advanced readers. The Superintendent or designee shall provide professional development opportunities to ensure that teachers are knowledgeable about how students develop language skills, are able to analyze students' developing literacy and are able to draw from a variety of instructional strategies and materials.

The Superintendent or designee shall ensure that the district's reading/language arts program offers sufficient access to reading materials of varying levels of difficulty, including fiction and nonfiction works, so that students are continually reading at an appropriate level. In addition, technology should be available to support all areas of literacy.

Grades K-3

The goal of the district's early literacy program shall be to ensure that students are able to read and write fluently at grade level by the end of third grade. To reach this goal, the Superintendent or designee shall design a balanced and comprehensive reading/language arts program with the following components:

1. Explicit skill development for beginning readers that includes phonemic awareness, phonics and decoding skills, and sufficient practice and repetition of these skills.
2. A strong literature, language and comprehension program that includes a balance of oral and written language.

3. Ongoing assessment of individual skills.
4. An early intervention program that provides assistance to children at risk of reading failure.

Teachers will participate in training activities designed to assist them in implementing a comprehensive K-3 reading program.

Grades 4-6

The Board recognizes that reading/language arts instruction is an integral component of the curriculum at all grade levels. Continuous progress in fluency and comprehension shall be the goal of reading/language arts instruction in grades 4-6.

The program in these grades shall promote reading for subject matter comprehension, developing understanding of progressively more advanced reading material, analyzing and discussing a variety of reading materials, increasing the frequency of reading, developing more complex writing skills with attention to composition and vocabulary, and developing other communications skills.

Supplementary Reading Instruction

When students at any grade level do not have fully developed reading/language arts skills, resources shall be made available to assist them in reaching a reading level sufficient to meet the demands of grade-level material. Staff at all grade levels and in every subject shall take responsibility for supporting and expanding the literacy skills of all students.

To assist those students who are experiencing difficulty learning to read and to increase the reading skills and reading enjoyment of all students, the Board may offer elementary students in grades K-6 increased instructional opportunities during or outside the regular school day.

BOARD POLICY 6142.92: MATHEMATICS INSTRUCTION

The Governing Board desires to offer a rigorous mathematics program that provides a strong foundation in basic mathematical skills and prepares students to apply mathematics in real life. The Superintendent or designee shall develop grade-level curricula that offer a balanced instructional program, including but not limited to:

1. Basic mathematical skills: quantification, basic facts, sorting and classification, and computational skills including addition, subtraction, multiplication, division, fractions, decimals, squares and square roots
2. Conceptual understanding: knowledge and application of facts and definitions, identification of principles, understanding of relationships among mathematical concepts, recognition and application of signs, symbols and terms
3. Problem solving: use of mathematical concepts, skills, tools and reasoning strategies to formulate and solve problems in a variety of situations

The mathematics program shall develop such knowledge and skills in the subject areas of numbers, measurement, geometry, functions, statistics and probability, logic, algebra and discrete mathematics. Students should know, understand and demonstrate concepts through their application to classroom and real-life situations.

The Board shall adopt the state academic standards in mathematical skills, concepts and problem-solving ability for each grade level. Students at risk of failing to meet performance standards shall receive additional assistance and intervention.

The Superintendent or designee shall ensure that certificated staff have opportunities to participate in professional development activities designed to increase their knowledge and skills in effective mathematics teaching practices and to link math instruction to the middle school mathematics program.

BOARD POLICY 6142.93: SCIENCE INSTRUCTION

The Governing Board believes that science education should focus on giving students an understanding of key scientific concepts and a capacity for scientific ways of thinking and experimentation. Students should become familiar with the natural world and the interrelation of science, mathematics and technology. As part of their science instruction, students should learn how to apply scientific knowledge and ways of thinking for individual and social purposes.

As a matter of principle, teachers are professionally bound to limit their teaching to content that meets the criteria of scientific fact, hypothesis and theory as these terms are used in natural sciences. A scientific fact is an understanding based on confirmable observations and is subject to test and rejection. A scientific hypothesis is an attempt to frame a question as a testable proposition. A scientific theory organizes and explains a range of natural phenomena on the basis of facts and hypotheses. Scientific theories are constantly subject to testing, modification and refutation as new evidence and new ideas emerge.

Philosophical and religious theories are based, at least in part, on faith, and are not subject to scientific test and refutation. Such beliefs shall not be discussed in science classes, but may be addressed in the social science and language arts curricula.

BOARD POLICY 6144: CONTROVERSIAL ISSUES

The Governing Board believes that students should have opportunities to discuss controversial issues which have political, social or economic significance and which the students are mature enough to investigate and address. The study of a controversial issue should help students learn how to gather and organize pertinent facts, discriminate between fact and fiction, draw intelligent conclusions and respect the opinions of others.

The Board expects teachers to exercise caution and discretion when deciding whether or not a particular issue is suitable for study or discussion in any particular class. Teachers should not spend class time on any topic, which they feel is not suitable for the class or related to the established curriculum.

The Board also expects teachers to ensure that all sides of a controversial issue are impartially presented, with adequate and appropriate factual information. Without promoting any partisan point of view, the teacher should help students separate fact from opinion and warn them against drawing conclusions from insufficient data. The teacher shall not suppress any student's view on the issue as long as its expression is not malicious or abusive toward others.

Teachers sponsoring guest speakers shall either ask them not to use their position or influence on students to forward their own religious, political, economic or social views or shall take active steps to neutralize whatever bias has been presented.

1. The issue is related to the adopted curriculum and provides opportunities for critical thinking, for developing tolerance, and for understanding conflicting points of view.
2. The issue has a meaningful relationship to matters of concern to the students.

BOARD POLICY 6151 (was BP 6015): CLASS SIZE

The Governing Board recognizes that the number of students in a class may affect the extent to which teachers can identify and respond to individual student needs.

In accordance with negotiated employee agreements and state law, and upon the recommendation of the Superintendent or designee, the Board shall establish upper and lower class size limits appropriate for the subject or grade level taught and conducive to the effective use of teaching staff.

The Superintendent or designee shall regularly prepare reports that will enable the Board to evaluate the effectiveness of the class size reduction program and its impact on student achievement and on the attainment of the district's goals. These reports shall also include an analysis of the impact of class size reduction on staffing and school facilities needs.

Class Size Reduction in Grades K-3

The Board believes that small class size is beneficial to students in the elementary grades as they acquire the basic skills that serve as the foundation for their subsequent learning. The Superintendent or designee shall ensure that classes in primary grades designated by the Board are reduced to 20 or fewer students per teacher in accordance with law.

Full-time mainstreamed special education students (in the regular classroom at least 50% of the day), shall be included in determining class size for purposes of the class size reduction program.

In accordance with law, the Superintendent or designee shall ensure that the teachers of classes in the class size reduction program receive training designed to help them maximize the educational advantages of class size reduction.

If it becomes necessary to consider reducing or eliminating certain grade levels or schools from participation in the class size reduction program, the Superintendent or designee shall prepare a report analyzing the potential impact of the program's elimination, including the effects on the district's budget, facilities, staffing and collective bargaining agreement, as well as the potential impact on student achievement and learning. He/she shall present recommendations to the Board in accordance with the priorities specified in law.

BOARD POLICY 6153: SCHOOL-SPONSORED TRIPS

The Governing Board recognizes that school-sponsored trips are important components of a student's development. Besides supplementing and enriching classroom learning experiences, such trips encourage new interests among students, make them more aware of community resources, and help them relate their school experiences to the outside world. The Board believes that careful planning can greatly enhance the value and safety of such trips.

If the Board allocates funds for school-sponsored trips, individual schools may be provided with budgetary allocations so that they can plan ahead. Special trip expense funds may be established when necessary for fund-raising purposes.

All trips involving out-of-state or overnight travel shall require the prior approval of the Board. Other trips may be approved by the Superintendent or designee.

Principals shall ensure that teachers develop plans, which provide for the safety of students and their proper supervision by certificated staff on all school-sponsored trips. Other school employees and parents/guardians also may participate in this supervision and may be asked to attend preparatory training sessions and/or meetings.

The ratio of adults to students on school-sponsored trips shall be at least one to 10. If the trip involves water activities, this ratio shall be revised to ensure closer supervision of elementary grade students, appropriate to their ages.

Study Trips

In advance of a study trip, teachers shall determine educational objectives, which relate directly to the grade level academic standards. Principals shall ensure that teachers develop plans, which provide for the best use of students' learning time while on the trip. Teachers also shall provide appropriate instruction before and after the trip.

BOARD POLICY 6154: HOMEWORK/MAKEUP WORK

The Governing Board recognizes that homework contributes toward building responsibility, self-discipline and life-long learning habits, and that time spent on homework directly influences students' ability to meet the district's academic standards. The Board expects students, parents/guardians and staff to view homework as a routine and important part of students' daily lives.

The Superintendent or designee shall ensure that administrators and teachers develop and implement an effective homework plan at each school site. As needed, teachers may receive training in designing relevant, challenging and meaningful homework assignments that reinforce classroom learning objectives. Teachers' expectations related to homework may be addressed in their evaluations.

Although it is the student's responsibility to do most homework assignments independently, the Board expects teachers at all grade levels to use parents/guardians as a contributing resource. When students repeatedly fail to do their homework, parents/guardians shall be notified and asked to contact the teacher.

Students who miss schoolwork because of an excused absence shall be given the opportunity to complete all assignments and tests that can be reasonably provided. As determined by the teacher, the assignments and tests shall be reasonably equivalent to, but not necessarily identical to, the assignments and tests missed during the absence. Students shall receive full credit for work satisfactorily completed within a reasonable period of time. (Education Code 48205)

Students who miss schoolwork because of unexcused absences may be given the opportunity to make up missed work for full or reduced credit. Teachers shall assign such makeup work as necessary to ensure academic progress, not as a punitive measure.

7. Whenever appropriate, the student with the disability.
8. For transition service participants:

If a representative of such other local agency has been invited but does not attend the meeting, the district shall take other steps to obtain participation of the agency in the planning of any transition services.

If a participating agency other than the district fails to provide the transition services described in the student's IEP, the team shall reconvene to identify alternative strategies to meet the transition service objectives set out for the student in the IEP. (20 USC 1414(d); Education Code 56345.1)

A meeting to develop an initial IEP shall be conducted within 30 days of a determination that a student needs special education and related services pursuant to 34 CFR 300.343. (Education Code 56344)

An IEP required as a result of an assessment of the student shall be developed within 60 days (not counting days between the student's regular school sessions, terms or days of school vacation in excess of five school days) from the date of receipt of the parent/guardian's written consent for assessment, unless the parent/guardian agrees, in writing, to an extension. (Education Code 56344)

However, an IEP required as a result of an assessment of a student shall be developed within 30 days after the commencement of the subsequent regular school year for the student for whom a referral has been made 20 days or less prior to the end of the regular school year. In the case of school vacations, the 60-day time limit shall recommence on the date that student's school days reconvene. (Education Code 56344)

When a parent/guardian requests an IEP team meeting to review the IEP, the team shall meet within 30 days of receiving the parent/guardian's written request, not counting days between the student's regular school sessions, terms, or days of school vacation in excess of five school days. If a parent/guardian makes an oral request, the district shall notify the parent/guardian of the need for a written request and the procedure for filing a written request. (Education Code 56043, 56343.5)

A regular education or special education teacher may request a review of the classroom assignment of a special education student by submitting a written request to the Superintendent or designee. The Superintendent or designee shall consider the request within 20 days of receiving it, not counting days when school is not in session or, for year-round schools, days when the school is off track. If the review indicates a need for change in the student's placement, instruction, and/or related services, the Superintendent or designee shall convene an IEP team meeting, which shall be held within 30 days of the Superintendent or designee's review, not counting days when school is not in session or days when school is off track, unless the student's parent/guardian consents in writing to an extension of time.

As a member of the IEP team, the ~~regular~~ general education teacher shall, to the extent appropriate, participate in the development, review, and revision of the student's IEP, including assisting in the determination of: (20 USC 1414(d)(3)(C); 34 CFR 300.346; Education Code 56341)

1. Appropriate positive behavioral interventions and supports and other strategies for the student
2. Supplementary aids and services, program modifications, and supports for school personnel that will be provided for the student, consistent with 20 USC 1414(d)(1)(A)(i)(IV)

A member of the IEP team shall not be required to attend an IEP team meeting, in whole or in part, if the parent/guardian consents in writing and the district agrees that the attendance of the member is not necessary because the member's area of the curriculum or related services is not being modified or discussed at the meeting. If the meeting involves a discussion of the member's area of the curriculum or related service, the IEP team member may be excused from the meeting if the parent/guardian consents in writing to the excusal and the member submits to the parent/guardian and team written input into the development of the IEP prior to the meeting. (Education Code 56341; 20 USC 1414(d)(1)(C))

To the extent possible, the district shall encourage the consolidation of reassessment meetings and other IEP team meetings for a student. (20 USC 1414(d)(3)(A))

IEP Team Meetings: Parent/Guardian Notice and Attendance

The Superintendent or designee shall take steps to ensure that one or both of the parents/guardians of the student with a disability are present at each IEP team meeting or are afforded the opportunity to participate. These steps shall include notifying the parents/guardians of the meeting and scheduling the meeting at a mutually agreed upon time and place. (34 CFR 300.345; Education Code 56341.5)

The Superintendent or designee shall send parents/guardians notices of IEP team meetings early enough to ensure that they will have an opportunity to attend. These notices shall: (34 CFR 300.345; Education Code 56341.5)

- c. Identify any other agency that will be invited to send a representative

At each IEP team meeting convened by the district, the district administrator or specialist on the team shall inform the parent/guardian and student of the federal and state procedural safeguards included in the notice of parental rights provided pursuant to Education Code 56321. (Education Code 56500.1)

If no parent/guardian can attend the meeting, the Superintendent or designee shall use other methods to ensure parent/guardian participation, including video conference, individual or conference telephone calls. (20 USC 1414(f); 34 CFR 300.345; Education Code 56341.5)

An IEP team meeting may be conducted without a parent/guardian in attendance if the district is unable to convince the parent/guardian that he/she should attend. In this case, the district shall maintain a record of its attempts to arrange a mutually agreed upon time and place for the meeting, including: (34 CFR 300.345; Education Code 56341.5)

1. Detailed records of telephone calls made or attempted and the results of those calls.
2. Copies of correspondence sent to the parent/guardian and any response received.
3. Detailed records of visits made to the parent/guardian's home or place of employment and the results of those visits.

If the district gives notice of intent to audiotape a meeting, and the parent/guardian objects or refuses to attend because the meeting would be audiotaped, the meeting shall not be audiotaped. Parents/guardians also have the right to: (Education Code 56341.1)

1. Inspect and review the audiotapes.

2. Request that the audiotapes be amended if the parents/guardians believe they contain information that is inaccurate, misleading, or in violation of the student's privacy rights or other rights.
3. Challenge, in a hearing, information that the parents/guardians believe is inaccurate, misleading, or in violation of the student's privacy rights or other rights.

The district shall take any action necessary to ensure that the parent/guardian understands the proceedings at a meeting, including arranging for an interpreter for parent/guardians with deafness or whose native language is not English. (Education Code 56345.1)

 - a. Meet the student's needs that result from his/her disability in order to enable the student to be involved in and progress in the general curriculum
 - b. Meet each of the student's other educational needs that result from the student's disability
3. A description of the manner in which the progress of the student toward meeting the annual goals described in item #2 above will be measured and when the district will provide periodic reports on the progress the student is making toward

meeting the annual goals, such as through the use of quarterly or other periodic reports, concurrent with the issuance of report cards

4. A statement of the specific special educational instruction and related services and supplementary aids and services, based on peer-reviewed research, to the extent practicable, to be provided to the student, or on behalf of the student, and a statement of the program modifications or supports for school personnel that will be provided for the student to:

 - b. Be involved and make progress in the general curriculum in accordance with item #1 above and to participate in extracurricular and other nonacademic activities

 - b. The reason that the particular alternate assessment selected is appropriate for the student
7. The projected date for the beginning of the services and modifications described in item #4 above and the anticipated frequency, location, and duration of those services and modifications

Where appropriate, the IEP shall also include: (Education Code 56345)

1. Linguistically appropriate goals, objectives, programs, and services for students whose native language is not English

2. Extended school year services when the IEP team determines, on an individual basis, that the services are necessary for the provision of a free appropriate public education
3. Provision for transition into the general education program if the student is to be transferred from a special class or center, or nonpublic, nonsectarian school, into a general education program in a public school for any part of the school day

The IEP shall include descriptions of activities intended to:

- a. Integrate the student into the general education program, including indications of the nature of each activity and the time spent on the activity each day or week
 - b. Support the transition of the student from the special education program into the general education program
4. Specialized services, materials, and equipment for students with low incidence disabilities, consistent with the guidelines pursuant to Education Code 56136

Development, Review, and Revision of the IEP

In developing the IEP, the IEP team shall consider the following: (20 USC 1414(d)(3)(A); 34 CFR 300.346; Education Code 56341.1, 56345)

7. In the case of a student who is blind or visually impaired, the need to provide for instruction in Braille and instruction in the use of Braille

However, such instruction need not be included in the IEP if the IEP team determines that instruction in Braille or the use of Braille is not appropriate for the

student. This determination shall be based upon an assessment of the student's reading and writing skills, his/her future needs for instruction in Braille or the use of Braille, and other appropriate reading and writing media.

8. The communication needs of the student, and in the case of a student who is deaf or hard of hearing, the student's language and communication needs, opportunities for direct communications with peers and professional personnel in the student's language and communication mode, academic level, and full range of needs, including opportunities for direct instruction in the student's language and communication mode

The team shall also consider the related services and program options that provide the student with an equal opportunity for communication access, including the following:

- a. The student's primary language mode and language, which may include the use of spoken language with or without visual cues and/or the use of sign language
- b. The availability of a sufficient number of age, cognitive, and language peers of similar abilities which may be met by consolidating services into a local plan area-wide program or providing placement pursuant to Education Code 56361

9. Whether the student requires assistive technology devices and services

If, in considering the special factors in items #1-9 above, the IEP team determines that a student needs a particular device or service, including an intervention, accommodation, or other program modification, in order to receive a free appropriate public education, the IEP team must include a statement to that effect in the student's IEP. (34 CFR 300.346; Education Code 56341.1)

All IEPs shall be reviewed on an annual basis for student progress, appropriateness of placement, and to include any necessary revisions. (Education Code 56380)

The IEP team shall review the IEP periodically, but at least annually, to determine whether the annual goals for the student are being achieved and to revise the IEP, as appropriate, addressing, among other matters, the following: (20 USC 1414(d)(4); Education Code 56341.1)

1. Any lack of expected progress toward the annual goals and in the general curriculum, where appropriate
2. The results of any reassessment conducted pursuant to Education Code 56381

A reassessment of the student shall be conducted at least once every three years, or more frequently if the district determines that the educational or related services needs, including the academic achievement and functional performance of the student, warrant a reassessment, if conditions warrant a reassessment, or if the student's parent/guardian or teacher requests a reassessment and a new IEP to be developed. (Education Code 56381)

3. Information about the student provided to or by the parents/guardians regarding review of evaluation data pursuant to Education Code 56381(b)
4. The student's anticipated needs
5. Other relevant matters

The student shall be allowed to provide confidential input to any representative of his/her IEP team. (Education Code 56341.5)

If a student with disabilities residing in a licensed children's institution or foster family home has been placed by the district in a nonpublic, nonsectarian school, the district shall conduct an annual evaluation as part of the IEP process of whether the placement is the least restrictive environment that is appropriate to meet the student's needs. (Education Code 56157)

When an IEP calls for a residential placement as a result of a review by an expanded IEP team, the IEP shall include a provision for a review, at least every six months, by the full IEP team of all of the following: (Education Code 56043)

1. The case progress
2. The continuing need for out-of-home placement

3. The extent of compliance with the IEP
4. Progress toward alleviating the need for out-of-home care

When a change is necessary to a student's IEP after the annual IEP team meeting for the school year has been held, the parent/guardian and the district may agree not to convene an IEP team meeting for the purpose of making the change and instead may develop a written document to amend or modify the student's current IEP. Upon request, the district shall provide the parent/guardian with a revised copy of the IEP with the incorporated amendments. (20 USC 1414(d)(3(D))

Transfer Students

If a student with a disability transfers to this district from a district within this district's SELPA during the school year, this district shall continue, without delay, to provide services comparable to those described in the existing IEP, unless the parent/guardian and district agree to develop, adopt, and implement a new IEP that is consistent with state and federal law. (Education Code 56325)

If a student with a disability transfers to this district from a California district outside of this district's SELPA during the school year, the district shall provide the student with a free appropriate public education, including services comparable to those described in the previous district's IEP. Within 30 days, the district shall, in consultation with the parents/guardians, adopt the other district's IEP or shall develop, adopt, and implement a new IEP that is consistent with state and federal law. (Education Code 56325)

If a student with a disability transfers to this district from a district out of state during the school year, the district shall provide the student with a free appropriate public education, including services comparable to the out of state district's IEP, in consultation with the parent/guardian, until such time as the district conducts an assessment, if the district determines such an assessment is necessary, and develops a new IEP, if appropriate. (Education Code 56325)

To facilitate the student's transition, the district shall take reasonable steps to promptly obtain the records of a student with disabilities transferring into this district, including his/her IEP and the supporting documents related to the provision of special education services. (Education Code 56325)

Due Process/Mediation

A student shall not be required to participate in all or part of any special education program unless the parent/guardian is first informed, in writing, of the facts that make participation in the program necessary or desirable and the contents of the IEP, and the parent/guardian consents, in writing, to all or part of the IEP after receiving this notice. If

the parent/guardian does not consent to all of the components of the IEP, then those components of the IEP to which the parent/guardian has consented shall be implemented so as not to delay providing instruction and services to the student. (Education Code 56346)

If the Superintendent or designee determines that a part of the proposed IEP to which the parent/guardian does not consent is necessary in order to provide a free appropriate public education to the student, he/she shall either initiate a due process hearing or a prehearing mediation conference with the state pursuant to Education Code 56500.3. While the due process hearing or prehearing mediation conference is pending, the student shall remain in his/her current placement unless the parent/guardian and the Superintendent or designee agree otherwise. (Education Code 56346)

While a due process hearing is pending, the Superintendent or designee may choose to meet informally with the parent/guardian pursuant to Education Code 56502 or may hold a mediation conference pursuant to Education Code 56503. If a due process hearing is held, the hearing decision shall be the final administrative determination and shall be binding upon the parties. (Education Code 56346)

BOARD POLICY 6161.1:

SELECTION AND EVALUATION OF INSTRUCTIONAL MATERIALS

The Governing Board desires that district instructional materials, as a whole, present a broad spectrum of knowledge and viewpoints, reflect the diversity of our society, and enhance the use of multiple teaching strategies and technologies. The Board's adoption of instructional materials shall be based on a determination that such materials are aligned with the state content standards, meet other criteria specified in law, and are an effective learning resource to help students achieve grade-level competency.

To ensure that instructional materials effectively support the district's adopted courses of study, the selection of textbooks, technology-based materials, other educational materials, and tests shall be aligned with the development and evaluation of the district's curriculum and standards.

The Superintendent or designee shall establish a process by which instructional materials shall be reviewed for recommendation to the Board. This process shall involve teachers in a substantial manner and shall also encourage the participation of parents/guardians and community members.

All recommended instructional materials shall be available for public inspection at the district office.

Individuals who participate in selecting and evaluating instructional materials shall not have a conflict of interest in the materials being reviewed, as defined in administrative regulation.

Complaints concerning instructional materials shall be handled in accordance with law, Board policy, and administrative regulation.

In accordance with the Instructional Materials Funding Realignment Program, the Board's priority in the selection of instructional materials is to ensure that all students in grades K-6 are provided with instructional materials that are aligned to state content standards in the core curriculum areas of reading/language arts, mathematics, science, and history/social science.

When the Board determines that standards-aligned textbooks and instructional materials have been provided to all students in accordance with Education Code 60422, it shall so certify. A copy of the certification shall be kept on file in the district.

The Superintendent or designee shall ensure that the district satisfies the criteria necessary to access funds under the state's Pupil Textbook and Instructional Materials Incentive Account pursuant to Education Code 60252.

The district may pilot instructional materials, using a representative sample of classrooms for a specified period of time during a school year, in order to determine how well the materials support the district's curricular goals and academic standards. Pilot materials are made available to teachers, parents, students and other staff for review. Feedback shall be made available to the Board before the materials are adopted.

Public Hearing on Sufficiency of Instructional Materials

The Board shall annually conduct one or more public hearings on the sufficiency of the district's instructional materials. At these hearings, the Board shall determine, through a resolution, whether each student in each school has sufficient textbooks and/or instructional materials that are aligned to the state content standards adopted pursuant to Education Code 60605 in each of the following subjects: (Education Code 60119)

1. Mathematics
2. Science
3. History-social science
4. English/language arts, including the English language development component of an adopted program

The hearing shall take place on or before the end of the eighth week from the first day students attend school for that year. (Education Code 60119)

The Board encourages participation by parents/guardians, teachers, interested community members, and bargaining unit leaders at the hearing. The Superintendent or designee shall post, 10 days prior to the hearing and in three public places within the district as well as at each school site, a notice containing the time, place, and purpose of the hearing. The hearing shall not take place during or immediately following school hours. (Education Code 60119)

If the Board determines that there are insufficient textbooks and/or instructional materials, the Board shall provide information to classroom teachers and to the public, setting forth for each school in which an insufficiency exists, the percentage of students who lack sufficient standards-aligned textbooks or instructional materials in each subject area, and the reasons that each student does not have sufficient textbooks and/or

instructional materials. The Board shall take any action, except an action that would require reimbursement by the Commission of State Mandates, to ensure that that each student has sufficient materials within two months of the beginning of the school year in which the determination is made. STANDARDIZED TESTING AND REPORTING PROGRAM

The Superintendent or designee shall administer mandatory student assessments within the state Standardized Testing and Reporting (STAR) program as required by law and in accordance with Board policy and administrative regulation.

The Governing Board encourages all students at the applicable grade levels to participate in the STAR assessments in order to maximize the usefulness of the data and enable the district to meet participation levels required for state and federal accountability systems. The Superintendent or designee shall notify students and parents/guardians about the importance of these assessments and shall develop strategies to encourage student participation. Students shall be exempted from participation only in accordance with law and administrative regulation.

The Board desires to use the results of the achievement tests to evaluate the performance of district students against the state's academic standards, the performance of students in other districts across the state, and national norms.

The Board shall annually examine STAR results by school, grade level, and various student populations in the Board's discussion of each school's ranking on the statewide Academic Performance Index. If the average STAR test score of the school is below the 50th percentile, or if the test scores of more than 25 percent of the school's students are below the 50th percentile, the Board may conduct an assessment by grade level of the reasons for the performance results and may adopt an improved performance plan in accordance with Education Code 52056.

STANDARDIZED TESTING AND REPORTING PROGRAM**

The district shall administer the following assessments in the Standardized Testing and Reporting (STAR) program:

1. A nationally norm-referenced achievement test in basic academic skills designated by the State Board of Education (SBE) pursuant to Education Code 60642, to each student in grades 3. (Education Code 60640)
2. A standards-based achievement tests, as designated by the SBE pursuant to Education Code 60642.5, to each student in grades 2-6. (Education Code 60640)
3. A primary language test for any limited-English-proficient student who either receives instruction in his/her primary language or has been enrolled in a California public school for less than 12 months, if such a test is available. This test shall be administered in addition to any applicable norm-referenced achievement test and standards-based achievement test. (Education Code 60640)

Following the first year of enrollment in a California public school, English language learners may continue to take, in addition to the tests in English, an achievement test in their primary language to the extent that such a test is available and the Superintendent or designee determines that such test results would provide useful information about students' performance.

4. The California Alternate Performance Assessment (CAPA) for any special education student whose individualized education program (IEP) specifically states that he/she will be assessed with the CAPA due to the student's inability to participate in any applicable norm-referenced test and standards-based achievement test, even with appropriate accommodation. (Education Code 60640; 5 CCR 850, 851)

Any special education student who is an English learner may be tested with the designated primary language test in accordance with item #3 above, unless the IEP specifically exempts him/her from such testing. (5 CCR 881)

Testing Period

The STAR assessments shall be administered to students during a testing window of 21 instructional days that includes 10 instructional days before and after completion of 85

percent of the school's, track's or program's instructional days. Testing for all students, including make-up testing, shall be completed within this 21 instructional day window unless all or part of the 21 instructional day period falls after any statutorily specified deadline. (Education Code 60640; 5 CCR 855)

The Superintendent or designee shall arrange for at least two make-up days for the testing of students who were absent during the period that any school administered the STAR assessments. All make-up testing shall occur within five instructional days of the last date that the district administered the tests, but not later than the 21 instructional day window established above. (Education Code 60640; 5 CCR 855)

BOARD POLICY 6162.54: TEST INTEGRITY/TEST PREPARATION

The Governing Board desires to protect the integrity of student assessment processes in order to obtain an accurate assessment of student achievement in the district and maintain accountability to the community and state. Students and staff are expected to maintain a high level of integrity in the completion and handling of student assessments.

Test Integrity

In the administration of standardized tests, staff shall not:

1. Provide inappropriate test preparation
2. Modify test administration procedures
3. Provide inappropriate assistance to students during test administration
4. Change or fill in answers on student answer sheets
5. Provide inaccurate data on student header sheets
6. Discourage or exclude certain students from taking the test
7. Engage in any other practice to artificially raise student scores without actually improving underlying student achievement

Preparation for State Tests

Staff may prepare students for assessments by providing instruction in the content specified in state and district academic standards and teaching general test-taking skills that are applicable to any test or test format.

The Superintendent or designee, principals and teachers shall not implement any program of specific preparation for the statewide student assessment program or a particular test used within that program. (Education Code 60611)

Practice tests provided by the publisher of the state achievement test may be used for the limited purpose of familiarizing students with the use of scanable test booklets or answer sheets and the format of test items. No alternate or parallel form of the test shall be administered or used. (5 CCR 854)

Staff shall not conduct reviews or drills that use actual test items or identical format items of state assessments, use copies of tests from previous years, or review test-specific curriculum content with students before administration of the test. In addition, test preparation materials or strategies developed for a specific test, including but not limited to published materials, materials available on the Internet, and materials developed by schools, districts, county offices of education or outside consultants, are prohibited.

Investigation and Consequences of Testing Irregularities

BOARD POLICY 6162.6: USE OF COPYRIGHTED MATERIALS

All district staff shall adhere to the provisions of the federal copyright law and maintain the highest ethical standards in using copyrighted materials. The district shall provide no legal support to any employee who violates the copyright law. Willful infringement of this law by students or staff may result in disciplinary action.

The Governing Board recognizes that computer software piracy contributes to higher costs and decreases commercial incentives for the development of quality educational computer software. In circumstances where the interpretation of the copyright law is ambiguous, the district shall determine appropriate use of computer software by referring to the license agreement and/or policy statements contained in the software packages used in the district. Computer-related instruction for students and staff shall address the ethical and practical problems caused by software piracy.

The Superintendent or designee shall be the only individual who may sign license agreements for software for district schools.

The Superintendent or designee shall maintain regulations to discourage violation of all copyright laws and prevent illegal copying activities.

**ADMINISTRATIVE REGULATION TO BOARD POLICY 6162.6:
USE OF COPYRIGHTED MATERIALS**

Each employee making a reproduction shall first determine whether the copying is permitted by law based on the guidelines below. If the copying is not permitted according to these guidelines, the principal/designee may request permission to reproduce the material from its copyright holders.

Requests for permission to use copyrighted materials shall include the following information:

1. Title, author(s), editor(s) or publisher, producer(s) or distributor.
2. Edition, copyright and/or production year.
3. Exact amount of material to be used (i.e., lines, pages, running time, etc.).
4. Nature of the use (i.e., how many times, when and with whom the material will be used).
5. Number of copies to be made.
6. How the material will be reproduced.
7. If an initial contact was made by phone, the request shall also include the name of the initial contact person.

 - e. One chart, graph, diagram, cartoon or picture per book or magazine issue.

All preceding copies must bear the copyright notice. They may be made only at the discretion of the individual teacher on occasions when a delay to request permission would preclude their most effective instructional use.

Prohibited Uses:

1. Copying more than one work or two excerpts from a single author during one eighteen week period.
2. Copying more than three works from a collective work or periodical volume during one eighteen week period.
3. More than nine sets of multiple copies for distribution to students in one eighteen week period.
4. Copying used to create, replace or substitute for anthologies or collective works.
5. Copying of "consumable" works such as workbooks, standardized tests, answer sheets, etc.
7. Copying that substitutes for the purchase of books, publishers' reprints or periodicals.

8. Repeated copying of the same item by the same teacher from year to year.

The above prohibitions do not apply to current news magazines and newspapers.

Sheet and Recorded Music

Permitted Uses:

1. Emergency copies for an imminent performance are permitted, provided they are replacing purchased copies and replacement is planned.
2. Multiple copies (one per student) of excerpts not constituting an entire performable unit or more than 10% of the total work may be made for academic purposes other than performances.
3. Purchased sheet music may be edited or simplified provided the character of the work is not distorted or lyrics added or altered.
4. A single copy of a recorded performance by students may be retained by the district or individual teacher for evaluation or rehearsal purposes.
5. A single copy of recordings of copyrighted music owned by the district or individual teacher may be made and retained for the purpose of constructing exercises or examinations.
6. A single copy of an excerpt that constitutes an entire performable unit (i.e., a movement or aria) may be made, provided it is either:
 - a. Confirmed by the copyright proprietor to be out of print, or
 - b. Unavailable except in a larger work. This may be done by or for a teacher only for scholarly research or in preparation for teaching a class.
7. A single copy of a portion of a sound recording may be made by or for a student, i.e., a song from a record, but not the entire recording. The copy may be used in the educational context in which it was made and may not be sold or performed for profit.

Prohibited Uses:

1. Copying to replace or substitute for anthologies or collections.
2. Copying from works intended to be "consumable."
3. Copying for purposes of performance except as noted in an emergency.

4. Copying to substitute for purchase of music.

3. Selected slides may be reproduced from a series if reproduction does not exceed 10% of the total or excerpt the essence of the work.
4. A slide or overhead transparency series may be created from multiple sources as long as creation does not exceed 10% of photographs in one source (book, magazine, filmstrip, etc.). This may not be done when the source forbids photographic reproduction.
5. A single overhead transparency may be created from a single page of a "consumable" workbook.
6. Sections of a film may be excerpted for a local videotape (not to be shown over cable) if they do not exceed 10% of the total or excerpt the essence of the work. Extreme care must be exercised in copying a small portion of a film or filmstrip; small portions may contain the very essence of the material in question.

Prohibited Uses:

1. Reproduction of an audiovisual work in its entirety.
2. Conversion from one media format to another, e.g., film to videotape, unless permission is secured.

3. No one is permitted to copy any portion of a film or filmstrip sent to the school for preview or rented or owned by another school or institution without the express written permission of the copyright holder. The copyright of a film governs its performance (showing) as well as the copying of it. 2. Off-air recordings may be used once by individual teachers in the course of relevant teaching activities and repeated once only when instructional reinforcement is necessary. These recordings may be shown in classrooms and similar places devoted to instruction within a single building, cluster, or campus, as well as in the homes of students receiving formalized home instruction, during the first 10 consecutive school days in the 45 calendar-day retention period.
3. Off-air recordings may be made only at the request of individual teachers, for use by those teachers. No broadcast program may be recorded off-air more than once

at the request of the same teacher, regardless of the number of times the program may be broadcast.

4. A limited number of copies may be reproduced from each off-air recording to meet the legitimate needs of teachers under these guidelines. Each such additional copy shall be subject to all provisions governing the original recording.
5. After the first 10 consecutive school days, off-air recordings may be used up to the end of the 45 calendar day retention period only for teacher evaluation purposes; i.e., to determine whether or not to include the broadcast program in the teaching curriculum; they may not be used for student exhibition or any other nonevaluation purpose without authorization.

2. The copy is used for archival or "backup" purposes. This copy may be held only as a file copy and must be destroyed when the program is no longer rightfully owned by the district unless the copyright owner authorizes its sale, lease or transfer as part of the sale, lease or transfer of the original program. (United States Code, Title 17, Section 117).

Prohibited Uses:

1. Copies of copyrighted programs may not be made for any purpose other than the two permitted above.

He/she also shall establish regulations to address the safety and security of students and student information when using electronic mail, chat rooms and other forms of direct electronic communication.

Staff shall supervise students while they are using on-line services.

They shall also agree to indemnify and hold harmless the district and all district personnel for any damages or costs incurred.

In order to help ensure that the district adapts to changing technologies and circumstances, the Superintendent or designee shall regularly review this policy, the accompanying administrative regulation and other procedures. He/she shall also monitor the district's filtering software to help ensure its effectiveness.

***DEL MAR UNION SCHOOL DISTRICT

BOARD POLICY 6164.6:

IDENTIFICATION AND EDUCATION UNDER SECTION 504

The District recognizes the need to identify and evaluate children with disabilities in order to provide them with a free, appropriate public education. Under Section 504 of the federal Rehabilitation Act of 1973, individuals with a physical or mental impairment that substantially limits one or more major life activities, including learning, are eligible to receive services and aids designed to meet their needs as adequately as the needs of nondisabled students are met.

The Superintendent or designee shall establish screening and evaluation procedures to be used whenever there is reason to believe that a student has a disability that limits his/her ability to attend or function at school.

To evaluate the student's eligibility under Section 504, the Superintendent or designee shall convene a school site committee of professionals knowledgeable about the student's individual needs and school history, the meaning of evaluation data, and accommodation options. The student's parent/guardian will be invited to participate on this committee.

If the student, due to a disability, is found to have a disability that requires regular or special education and related aids and services under Section 504, the school site committee shall develop a written accommodation plan for the student. Upon reviewing the nature of the disability and how it affects the student's education, the school site committee shall determine what modifications to the student's educational program and/or special services and aids are needed. The student shall be educated with nondisabled students to the maximum extent appropriate to the student's individual needs.

The school site committee shall provide the parent/guardian of each qualified disabled student with a written copy of the accommodation plan and notice of procedural safeguards guaranteed by law.

**ADMINISTRATION REGULATION TO BOARD POLICY 6164.6:
IDENTIFICATION AND EDUCATION UNDER SECTION 504**

Eligibility

A disabled student eligible for services under Section 504 is one who (a) has a physical or mental impairment that substantially limits one or more major life activities, including learning, (b) has a record of such an impairment, or (c) is regarded as having such an impairment. [34CFR 104.3 (j) and (k)]

Major life activities are functions such as caring for one's self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning and working.

Indications of a possible disability that significantly interferes with learning include, but are not limited to:

1. Medical conditions such as severe asthma, diabetes, AIDS or heart disease
2. Temporary medical condition due to illness or accident
3. Poor or failing performance over a lengthy period of time
4. Frequent referrals for behavioral problems within a short period of time.
5. Students with a short attention span and/or behavioral problems who repeatedly have a difficult time attending to course work.

Referral and Identification Procedures

1. Any student may be referred by a parent/guardian, teacher, other certificated school employee or community agency for consideration of eligibility as a disabled student under Section 504. This referral should be made to the school site principal.

2. The school site committee shall promptly consider the referral and determine whether an evaluation under this procedure is appropriate. This determination shall be based on a review of the student's school records (including academic, social and behavioral records) and the student's needs. Students requiring evaluation shall be referred to appropriate evaluation specialists.
3. If a request for evaluation is denied, the school site committee shall inform the parents/guardians of this decision and of their procedural rights as described below.

Accommodation Plan

1. When a student is identified as disabled within the meaning of Section 504, the school site committee shall determine what services are necessary to ensure that the student's individual education needs are met as adequately as the needs of nondisabled students.
2. In making this determination, the school site committee shall consider all significant factors relating to the learning process for the student including his/her adaptive behavior, and cultural and language background. The evaluation may include, but is not limited to, classroom and playground observation, performance-based testing, academic assessment information, and data offered by the parent/guardian.
3. The parent/guardians shall be invited to participate in the school site committee meeting where services for the student will be determined and shall be given an opportunity to examine all relevant records.
4. The school site committee shall develop a written plan describing the disability and specifying the services needed by the student. A copy of this plan shall be kept in the student's cumulative file. The student's teacher and any other staff who provide services to the student shall be informed of the services necessary for the student, to the extent that they need to be informed in order to provide for the student in the school setting.
5. If the school site committee determines that no services are necessary for the student, the record of the committee's meeting shall reflect the identification of the student as a disabled person under Section 504 and shall state the basis for the decision that no special services are presently needed.

6. The disabled student shall be placed in the regular educational environment unless the district demonstrates that a more restrictive placement is required in order to meet the student's needs. The disabled student shall be educated with those who are not disabled to the maximum extent appropriate to his/her individual needs.
7. The parent/guardians will be notified in writing of the final decision concerning services to be provided, if any, and of the Section 504 procedural safeguards, including the right to an impartial hearing to challenge the decision.
8. The district shall complete the identification, evaluation and placement process within a reasonable time frame.
9. The student's plan shall include a schedule for periodic review of the student's needs and indicate that this review may occur sooner at the request of the parent/guardian or school staff.

Review of the Student's Progress

1. The school site committee shall monitor the progress of the disabled student and of the effectiveness of the student's plan. The committee shall periodically determine whether the services are appropriate and necessary, and to assure that the agreed to regular or special education and related aids and services are appropriate and necessary, and whether the disabled student's needs are met as adequately as the needs of nondisabled students.
2. A reevaluation of the student's needs will be conducted before any subsequent significant change in placement.

Procedural Safeguards

Parents/guardians shall be notified in writing of all district decisions regarding the identification, evaluation or educational placement of students with disabilities or suspected disabilities. Notifications shall include a statement of their rights to: (34 CFR 104.36)

1. Examine relevant records
2. Have an impartial hearing with an opportunity for participation by the parents/guardians and their counsel

3. Have a review procedure

Notifications shall also set forth the procedures for requesting a hearing, the name, address and telephone number of the person with whom the request should be made, and the fact that reimbursement for attorney's fees is available only as authorized by law.

The Superintendent or designee shall maintain a list of impartial hearing officers who are qualified and willing to conduct Section 504 hearings. To ensure impartiality, such officers shall not be employed by or under contract with the district in any capacity other than that of hearing officer and shall not have any professional or personal involvement that would affect their impartiality or objectivity in the matter.

If a parent/guardian disagrees with the identification, evaluation or educational placement of a student with disabilities under Section 504, he/she may initiate the following procedures:

1. Within 30 days of receiving the student's accommodation plan, set forth in writing his/her disagreement and request that the school principal and school site committee review the plan in an attempt to resolve the disagreement. This review shall be held within 14 days of receiving the parent/guardian's request, and the parent/guardian shall be invited to attend the meeting at which the review is conducted.
2. If disagreement continues, request in writing that the Superintendent or designee review the plan. This review shall be held within 14 days of receiving the parent/guardian's request, and the parent/guardian shall be invited to meet with the Superintendent or designee to discuss the review.
3. If disagreement continues, request in writing a Section 504 due process hearing. The request shall include:
 - a. The specific nature of the decision with which the parent/guardian disagrees
 - b. The specific relief the parent/guardian seeks
 - c. Any other information the parent/guardian believes pertinent

Within 20 days of receiving the parent/guardian's request, the Superintendent or designee shall select an impartial hearing officer. This 20 days may be extended for good cause or by mutual agreement of the parties.

Within 45 days of the selection of the hearing officer, the Section 504 due process hearing shall be conducted and a written decision mailed to all parties. This 45 days may be extended for good cause or by mutual agreement of the parties. The Superintendent or designee shall represent the district at this hearing.

Any party to the hearing shall be afforded the right to:

1. Be accompanied and advised by counsel and by individuals with special knowledge or training related to the problems of students who are qualified as disabled under Section 504
2. Present written and oral evidence
3. Question and cross-examine witnesses
4. Receive written findings by the hearing officer

If desired, either party may seek a review of the hearing officer's decision by a federal court of competent jurisdiction.

BOARD POLICY 6171: TITLE I PROGRAMS

In order to improve the academic achievement of students from economically disadvantaged families, the district shall use federal Title I funds to provide supplementary services that reinforce the core curriculum and assist students in attaining proficiency on state academic standards and assessments.

The Superintendent or designee shall provide technical assistance and support to any school participating in the Title I program, including consultation in the development and implementation of school plans and activities. (20 USC 6312)

The district and each school receiving Title I funds shall develop a written parent involvement policy in accordance with 20 USC 6318.

Local Educational Agency Plan

The Superintendent or designee shall consult with teachers, principals, administrators, other appropriate school personnel, and parents/guardians of participating students in the development, periodic review, and, as necessary, the revision of a local educational agency (LEA) plan. The plan and any revisions shall be submitted to the Governing Board for approval. (20 USC 6312)

The plan shall address the components specified in 20 USC 6312, which describe the assessments, strategies, and services the district will use to help low-achieving students meet challenging academic standards.

The initial plan shall be submitted to the California Department of Education (CDE) and approved by the State Board of Education. Subsequent revisions of the plan shall be kept on file in the district.

Comparability of Services

State and local funds used in schools receiving Title I funds shall provide services that, taken as a whole, are at least comparable to services in schools that are not receiving Title I funds or, if all district schools are receiving Title I funds, that are substantially comparable in each school. Comparability may be determined on a school-by-school basis or by grade span. (20 USC 6321)

To demonstrate comparability of services among district schools:

1. The Board shall adopt and implement a district-wide salary schedule.
2. The ratio of students to teachers, administrators, and other staff at each Title I school shall not exceed 110 percent of the average ratio across non-Title I schools.
3. Salary expenditures at each Title I school shall be no less than 90 percent of the average salary expenditure across non-Title I schools.

4. All district schools shall be provided with the same level of base funding per student for curriculum and instructional materials.
5. The Superintendent or designee shall maintain records of the quantity and quality of instructional materials and equipment at each school.

In determining comparability, the district shall not include staff salary differentials for years of employment. The district also may exclude unpredictable changes in student enrollment or personnel assignments that occur after the beginning of the school year, state and local funds expended for language instruction educational programs, state and local funds expended for the excess costs of providing services to disabled students, and supplemental state or local funds expended in any school attendance area or school for programs that specifically meet the intent and purposes of Title I. (20 USC 6321)

At the beginning of each school year, the Superintendent or designee shall measure comparability in accordance with the above criteria and maintain records documenting the district's compliance. If any instances of noncomparability are identified, the Superintendent or designee shall promptly implement adjustments as needed to ensure comparability.

Program Evaluation

The Board shall use state assessment results and other available measures or indicators to annually determine whether each participating school is making adequate yearly progress toward ensuring that all students meet the state's proficient level of achievement on state assessments. (20 USC 6316)

TITLE I PROGRAMS**

Schoolwide Programs

A school may operate a Title I schoolwide program in order to upgrade the entire educational program of the school when at least 40 percent of the students in the school attendance area, or at least 40 percent of the students enrolled in the school, are from low-income families. The Superintendent or designee shall inform any such eligible school and the school's parents/guardians of the school's eligibility and its ability to consolidate funds from federal, state, and local sources for program purposes. (20 USC 6312, 6314)

Any participating school shall develop, annually review, and update a single plan for student achievement which incorporates the plan required by 20 USC 6314 for reforming the school's total instructional program and plans required by other categorical programs included in the state's consolidated application. (Education Code 64001; 20 USC 6314)

A schoolwide program shall include:

1. A comprehensive needs assessment of the entire school, including the needs of migrant students, which includes the achievement of students in relation to state academic content and achievement standards.
2. Schoolwide reform strategies that:
 - a. Provide opportunities for all students to meet the state's proficient and advanced levels of achievement.
 - b. Use effective methods and instructional strategies, based on scientifically based research, that strengthen the school's core academic program, increase the amount and quality of learning time, help provide an enriched and accelerated curriculum, and include strategies for meeting the educational needs of historically underserved populations.
 - c. Include strategies to address the needs of all students in the school, but particularly the needs of low-achieving students and those at risk of not meeting state achievement standards who are members of the target population of any program that is part of the schoolwide program.

Such strategies may include counseling, student services, mentoring services, college and career awareness and preparation, and the integration of vocational and technical education programs.

1. Has been removed from his/her home pursuant to Welfare and Institutions Code 309 (investigation and release of child)
2. Is the subject of a petition filed under Welfare and Institutions Code 300 (jurisdiction of juvenile court) or 602 (minors ward of court, violating law)

Person holding the right to make educational decisions means a responsible adult appointed by a court pursuant to Welfare and Institutions Code 361 or 727.

School of origin means the school that the foster youth attended when permanently housed or the school in which the student was last enrolled. If the school the foster youth attended when permanently housed is different from the school in which he/she was last enrolled, or if there is some other school that the foster youth attended within the preceding 15 months and with which the youth is connected, the district liaison shall, in consultation with and with the agreement of the foster youth and the person holding the right to make educational decisions for the youth, determine, in the best interest of the foster youth, the school of origin. (Education Code 48853.5)

Best interest means a placement that ensures that the youth is placed in the least restrictive educational program and has access to academic resources, services, and extracurricular and enrichment activities that are available to district students. (Education Code 48853)

District Liaison

The Superintendent or designee designates the following position as the district liaison for foster youth: (Education Code 48853.5)

Director of Pupil Services
Del Mar Union School District
225 9th Street
Del Mar, California 92014
(858) 523-6194

The district's liaison for foster youth shall: (Education Code 48645.5, 48853.5)

1. Ensure and facilitate the proper educational placement, enrollment in school, and checkout from school of students in foster care
2. Assist foster youth when transferring from one school to another or from one district to another in ensuring proper transfer of credits, records, and grades, including ensuring that records reflect full or partial credit for courses taken

Enrollment

A foster youth placed in a licensed children's institution or foster family home shall attend programs operated by the district unless one of the following circumstances applies: (Education Code 48853)

1. The student has an individualized education program requiring placement in a nonpublic, nonsectarian school or agency or in another local educational agency.
2. The parent/guardian or other person holding the right to make educational decisions for the student determines that it is in the best interest of the student to be placed in another educational program.
3. The student is entitled to remain in his/her school of origin as defined above.

At the initial detention or placement, or any subsequent change in placement of a foster youth, the district shall allow the student to continue his/her education in the school of origin for the duration of the academic school year. However, the district liaison may, in consultation with and with the agreement of the foster youth and the person holding the right to make educational decisions for the youth, recommend that the youth's right to attend the school of origin be waived and he/she be enrolled in any school that students living in the attendance area in which the foster youth resides are eligible to attend. All decisions shall be made in accordance with the foster youth's best interest. (Education Code 48853.5)

Prior to making any recommendation to move a foster youth from his/her school of origin, the liaison shall provide the youth and the person holding the right to make educational decisions for the youth with a written explanation of the basis for the recommendation and how this recommendation serves the youth's best interests. (Education Code 48853.5)

The role of the liaison shall be advisory with respect to placement decisions and determination of the school of origin. (Education Code 48853.5)

If the liaison, in consultation with the foster youth and the person holding the right to make educational decisions for the foster youth, agree that the best interests of the youth would be served by his/her transfer to a school other than the school of origin, the principal or designee of the new school shall immediately enroll the foster youth. The youth shall be immediately enrolled even if he/she has outstanding fees, fines, textbooks, or other items or monies due to the school last attended or is unable to produce records, such as academic, medical, or proof of residency, or clothing normally required for enrollment. (Education Code 48853.5)

Within two business days of enrollment, the liaison shall contact the school last attended by the student to obtain all academic and other records. Upon receiving a request from a new school, the liaison for the school last attended shall provide all records within two business days of receiving the request. (Education Code 48853.5)

If a parent/guardian or foster youth disagrees with the liaison's enrollment decision, he/she may appeal the decision to the Superintendent. The Superintendent shall make a determination within 30 days of receipt of the appeal. Within 30 days of receipt of the Superintendent's decision, the parent/guardian or foster youth may appeal that decision to the Governing Board. The Board shall consider the issue at its next regularly-scheduled meeting. The Board's decision shall be final.

If any dispute arises regarding the request of a foster youth to remain in the school of origin, the youth has the right to remain in the school of origin pending resolution of the dispute. (Education Code 48853.5)

2. The level of English proficiency
3. A description of the program for English language development instruction, including a description of all of the following:
 - a. The manner in which the program will meet the educational strengths and needs of the student
 - b. The manner in which the program will help the student develop his/her English proficiency and meet age-appropriate academic standards
 - c. Where the student has been identified for special education, the manner in which the program meets the requirements of the student's IEP
4. Information regarding a parent/guardian's option to decline to allow the student to become enrolled in the program or to choose to allow the student to become enrolled in an alternative program

Parent/guardians also shall be notified of the results of any reassessments. (Education Code 52164.3)

Parental Exception Waivers

Parents/guardians shall be informed of the support services provided for placement of their children in an English mainstream classroom and shall be notified of an opportunity to apply for a parental exception waiver. (Education Code 310; 5 CCR 11309)

Upon request for a waiver, the Superintendent or designee shall provide to the parents/guardians: (Education Code 310, 311; 5 CCR 11309)

1. A full written description, and a spoken description upon request, of the intent of all educational opportunities offered by the district and available to the student and the educational materials
2. For a request for waiver pursuant to Education Code 311(c) for students with special needs, notification that the student must be placed for a period of not less than 30 calendar days in an English language classroom and that the Superintendent must approve the waiver pursuant to Governing Board guidelines

Parental exception waivers pursuant to Education Code 311(c) for students with special needs shall be granted if it is the informed belief of the principal and educational staff that, due to the student's special physical, emotional, psychological or educational needs, an alternate course of educational study would be better suited to the student's overall educational development. (Education Code 311)

Each waiver shall be considered on its individual merits with great deference given to parental preference for student placement.

The principal or designee shall act upon all parental exception waivers within 20 instructional days of submission to the principal. However, parental waiver requests pursuant to Education Code 311(c) for students with special needs shall not be acted upon during the 30-day placement in an English language classroom. These waivers shall be acted upon no later than 10 calendar days after the expiration of that 30-day English language classroom placement or within 20 instructional days of submission of the waiver to the principal, whichever is later. (5 CCR 11309)

All parental exception waivers shall be granted unless the principal and educational staff have determined that an alternative program offered at the school would not be better suited for the overall educational development of the student. (5 CCR 11309)

Individual schools in which 20 students or more of a given grade level receive a waiver shall be required to offer such a class; otherwise they must allow the students to transfer to a public school in which such a class is offered. (Education Code 310)

Students wishing to transfer shall be subject to the district's intradistrict and interdistrict attendance policies and administrative regulations. Students wishing to transfer to another district shall also be subject to the receiving district's interdistrict attendance policies and administrative regulations.

In cases where a parental exception waiver pursuant to Education Code 311(b) or (c) is denied, the parent/guardian shall be informed in writing of the reason(s) for the denial and advised that he/she may appeal the decision to the Board if the Board authorizes such an appeal, or to the court. (5 CCR 11309)

Waiver requests shall be renewed annually by the parent/guardian. (Education Code 310)

Reclassification/Redesignation

The District shall continue to provide additional and appropriate educational services to English language learners for the purposes of overcoming language barriers until the English language learners have: (5 CCR 11302)

1. Demonstrated English language proficiency comparable to that of the District's average native English language speakers
2. Recouped any academic deficits which may have been incurred in other areas of the core curriculum as a result of language barriers

English language learners shall be redesignated as fluent English proficient when they are able to comprehend, speak, read and write English well enough to receive instruction in the regular program and make academic progress at a level substantially equivalent to that of students of the same age or grade whose primary language is English and who are in the regular course of study. (Education Code 52164.6) The reclassification process shall not commence until the spring of the second grade year.

The following measures shall be considered to determine whether an English language learner shall be reclassified as fluent English proficient: (5 CCR 11303)

1. Assessment of English language proficiency utilizing the CELDT as the primary criterion, and objective assessment of the student's English reading, writing, listening and speaking skills.
2. Recommendations of the student's classroom teacher and any other certificated staff with direct responsibility for teaching or placement decisions
3. Parent/guardian participation and consultation during a redesignation conference.

Parents/guardians shall receive notice and a description of the redesignation process, including notice of their right to participate in the process. Parent/guardian participation in the process shall be encouraged.

Board Policy/Administrative Regulation 6174 (was BP 6021 Approved by the Board of Trustees March 22, 2001): Approved by the Board of Trustees: January 23, 2008

4. Proficient performance on the California Standards Test in English-Language Arts.
5. Objective data on the student's overall academic performance in English

The Superintendent or designee shall provide subsequent monitoring and support for redesignated students, including but not limited to monitoring for two years the performance of redesignated students in the core curriculum in comparison with their native-English speaking peers, monitoring the rate of redesignation, and ensuring correct classification and placement.

The Superintendent or designee shall develop a process to monitor the effectiveness of the District's program for English language learners. The District's program shall be modified as needed to help ensure language and academic success for each English language learner.

Advisory Committees

At the District level when there are more than 50 English language learners in the District and at each school with more than 20 English language learners, parent/guardian advisory committees shall be maintained to serve the advisory functions specified in law. (5 CCR 11308)

Parents/guardians of English language learners shall constitute committee membership in at least the same percentage as their children represent of the total number of students in the school. (Education Code 52176)

The District's English language advisory committee shall annually advise the Board on at least the following tasks: (5 CCR 11308)

1. The development of a District description of program goals, objectives and services for English learners, taking into consideration the school site needs for English learners
2. The district-wide needs assessment on a school-by-school basis
3. Review of teacher certification compliance
4. Development of a plan to ensure compliance with applicable teacher or aide requirements
5. Administration of the annual language census

6. Review of and comment on the District's reclassification procedures
7. Review of and comments on the written notification required to be sent to parents/guardians pursuant to 5 CCR 11300-11316

In order to assist advisory members in carrying out their responsibilities, the Superintendent or designee shall ensure that committee members receive appropriate training and materials. This training shall be planned in full consultation with the members. (5 CCR 11308)

BOARD POLICY 6177: SUMMER SCHOOL

The Governing Board recognizes that summer school provides extended learning opportunities for students to improve their skills and make academic progress. When the need is demonstrated and funds are available, the Superintendent or designee, with Board approval, may establish summer school for purposes of remediation.

The district's summer school program may be used to provide supplemental instruction for students failing to meet academic requirements. (Education Code 37252, 37252.2, 37252.8, 37253, 53029, 53093; 5 CCR 11472)

Students with disabilities may be eligible for Extended School Year. Each student's Individual Education Program Team decides whether or not an individual student will regress during the summer to such an extent that the student will not be able to recoup lost instruction in a reasonable amount of time.

Attendance

Because summer classes cover extensive instructional content in a relatively short time period, consistent class attendance is crucial.

Students who have more than three excused absences or one unexcused absence may be dropped from the summer session class:

Rotation of School Sites

Sites for summer school programs may be rotated in an effort to make summer school programs more accessible to all students, regardless of residence or regular attendance area, and to equalize long-term facility and maintenance needs.

HOME AND HOSPITAL INSTRUCTION***

A student with a temporary disability, which makes school attendance impossible or inadvisable, shall receive individual instruction in the student's home or in a hospital or other residential health facility, excluding state hospitals. This instruction applies to students incurring a physical, mental or emotional disability after which they can reasonably be expected to return to regular day classes or an alternative education program without special intervention. It does not apply to students identified as individuals with exceptional needs pursuant to Education Code 56026. (Education Code 48206.3)

Home or hospital instruction shall be provided only by teachers with valid California teaching credentials who consent to the assignment. (Education Code 44865)

The district shall offer at least one hour of instruction for every day of instruction offered by the district in the regular education program. No student shall be credited with more than five days of attendance per calendar week or credited with more than the total number of calendar days that regular classes are offered by the district in any fiscal year. (Education Code 48200, 48206.3)

Insofar as possible, the teacher providing home or hospital instruction shall consult with the student's current classroom teacher(s) so as to provide a continuity of instruction that enables the student to stay abreast with the regular school program.

The Superintendent or designee may require verification through any reasonable means that the student requires home instruction. In addition, this verification shall also state that the disabling condition will not expose the teacher to a contagious disease that can be transmitted through casual contact. Home or hospital instruction shall not be denied to students with Hepatitis B, herpes or HIV/AIDS, as long as the home or hospital practices current preventive protocol as determined by the U.S. Centers for Disease Control.

Home/Hospital Instructor Procedure

1. Classroom teacher receives notice that a student will be absent from school for an extended time due to accident or illness. Parent may also request home/hospital instruction by calling the teacher.

2. The applicant obtains a medical doctor's statement on physical handicap or a psychologist/psychiatrist statement indicating the necessity for absence from school for a period of no less than 15 days, documenting any restrictions required.
3. The applicant returns the application and medical statement to the school nurse's office at the student's school of attendance.
4. School nurse, administrator or teacher designee, visits the applicant at home, completes nurse's report on application form for home instruction and sends application, medical statement and nurse's report to the Director of Pupil Services at the District office.
5. The Superintendent or a designee will secure a teacher for the student, notify the site principal and appropriate staff at the district office.
6. The assigned home teacher will contact the classroom teacher to obtain assignments and books.
7. Home instruction begins. Home instruction will be five hours per week.
8. Grades are assigned by the home teacher or the classroom teacher following a conference between the two. All books are returned to the classroom teacher at the end of the home instruction period.
9. The assigned home teacher shall complete a time sheet and shall turn it in to the Director of Pupil Services by the 14th of each month.
10. When home teaching ends the applicant must obtain a medical release for the student to return to school.
11. The student shall reports to the school nurse's office with the medical release before reporting to the classroom on the first day back to school.

Nondistrict Students

A student of another district who is temporarily disabled and confined to a hospital or health facility within this district shall be eligible to receive individual instruction in this district. (Education Code 48207)

In such circumstances, it is the responsibility of the parent/guardian to notify the district of the student's presence in a qualifying hospital. (Education Code 48208)

Upon receiving such notification, the Superintendent or designee shall: (Education Code 48208)

1. Within five working days of the notification, determine whether the student is able to receive individualized instruction and, if so, when it shall begin. Instruction shall begin no later than five working days after the Superintendent or designee has determined that the student is able to receive individualized instruction.
2. Within five working days of the beginning of the individualized instruction, the Superintendent or designee shall provide written notification to the district in which the student was previously enrolled stating that the student shall not be counted by that district for purposes of computing average daily attendance, effective the date on which individualized instruction began.

Alternatively, the Superintendent or designee may enter into an agreement with the district in which the student was previously enrolled to have that district provide the individualized instruction. (Education Code 48208)

Parental Notifications

At the beginning of the school year, the Superintendent or designee shall notify parents/guardians that: (Education Code 48208, 48980)

1. Individual instruction is available for temporarily disabled students as prescribed by Education Code 48206.3.
2. If a student becomes temporarily disabled, it is the parent/guardian's responsibility to notify the receiving district of the student's presence in a qualifying hospital.
