

eBooks Are Here!

Hello Stallion Families!

Sycamore Ridge School now has an eBook library (called Follett Shelf) that allows students to checkout and read books online from any workstation with internet access and a web-browser! Your student will be bringing home their personal eBooks library card showing the website address, user ID, and password. This yellow library card is attached to a "Quick Reference Guide" flyer. All students will be shown a demonstration at school of how to use our eBook library. It has a lot of fun, easy to use features such as a note taking, highlighting, a dictionary, and a read aloud option. However, I suggest that you review the "Online Help" page after logging in for the first time. It is located in the upper right hand corner of the main screen (yellow icon with a ?).

To access the Sycamore Ridge School eBooks library go to <http://wbb03848.follettshelf.com>.

Right now we only have 86 books in our eBook library so students may only check out 1 book at a time. We will be getting more before the end of the year. For most of the books, only one student may check it out at a time. There will be a few that have unlimited access meaning that these books are always available for students to check out at any time. When a student checks out a book online, it is placed on their virtual book shelf for 7 days. At the end of that time, the book is automatically returned. However, students may return the book early. We are not allowing renewals or downloads at this time.

Tips for using the Follett Shelf ebook library:

- Bookmark the website for easy access.
- Be sure you enter your password in the correct format; birthday: (M/D/YY).
- ALWAYS use the "Close Book" icon when you are done reading your book. If you just close the page, your book will be locked up and you will need to contact me to access it.

If you have any questions or problems with our Follett Shelf eBook library, please email Kathy Pechtimaldjian at kpechtimaldjian@dmusd.org. I would also love to get your feedback on this exciting new option for reading books.

Thank you and happy reading!
