CUSTOMIZE YOUR ER LACERATION TRAYS OR SUTURE REMOVAL KITS.

Include any of our new premium quality, single-use instruments.

The traditional "box-lock" hinge design.

This is just a sampling of our new premium quality, single-use instruments.

Unlike the basic "box-lock" hinge, the uniquely designed SUTURE-GLIDE™ hinge features smooth beveled edges that allow the looped suture to gently and smoothly slide over the instrument jaws without snagging or tearing.

Exceptional design.
Remarkable value.

- Uniform smooth edges and bevels highlight the symmetrical design.
- Larger finger loops.
- Satin finish.

Busse offers a full line of premium quality, single-use instruments such as:

- Needle Holders
- Scissors
- Forceps
- Hemostats
