

Examples of temporary disabilities include having a broken leg, using a wheelchair as you recover from surgery, or some other illness or injury which is expected to be short-lived but may have an impact on your ability to get around campus.

In order to make your recovery period as smooth and effective as possible, we encourage you to advocate for yourself and ask for help.

1. Contact Kelley Beckwith, Director of Academic Services, in the Academic Support Center. She can help you figure out the easiest and safest route around campus. She can also alert Facilities staff to this route, so that they can make snow removal in this area a priority.

3. Contact the Wellness Center and alert the staff to your condition. This is particularly important if you need to have bandages changed, need to borrow crutches, etc. Nurses are available Mondays and Fridays from 9 am to 1 pm; Tuesdays and Thursdays from 11 am to 3 pm; and Wednesdays from 9 am to 12 pm and 1 pm to 4 pm. The Wellness Center also requests that you bring a copy of your physician's discharge summary so that your health file can be updated.

5. Make sure you know where the emergency exits are in every building. If you live in a residence hall, contact your Area Coordinator immediately to make a plan for a fire or other emergency evacuation.

6. If you eat in Huden Dining Hall, contact Sodexo staff and request assistance, if needed.
