

ACHIEVE A HIGHER RETURN ON INVESTMENT WHEN YOU CONNECT YOUR OFFICE, TEAM, AND FIELD

WITH INTEGRATED CONSTRUCTION MANAGEMENT SOFTWARE BY VIEWPOINT®

Handling complex construction jobs is made easier with the right software for your office, your project teams, and your field staff. Companies with integrated Project Management, Job Costing, Data Management, and Risk Management have the edge over the competition. These features, plus powerful reporting capabilities enable a smoother workflow, enhanced productivity and analysis, and ultimately a better bottom line.

SAVE TIME

When it comes to return on investment, Viewpoint software delivers with unparalleled time savings.

"Our sites are running with this technology because it saves them so much time and they get much better reporting from it."

—large General Contractor

MITIGATE RISKS

Viewpoint provides real-time data to help you lower risk through improved visibility—letting you address jobsite situations before they become jobsite problems.

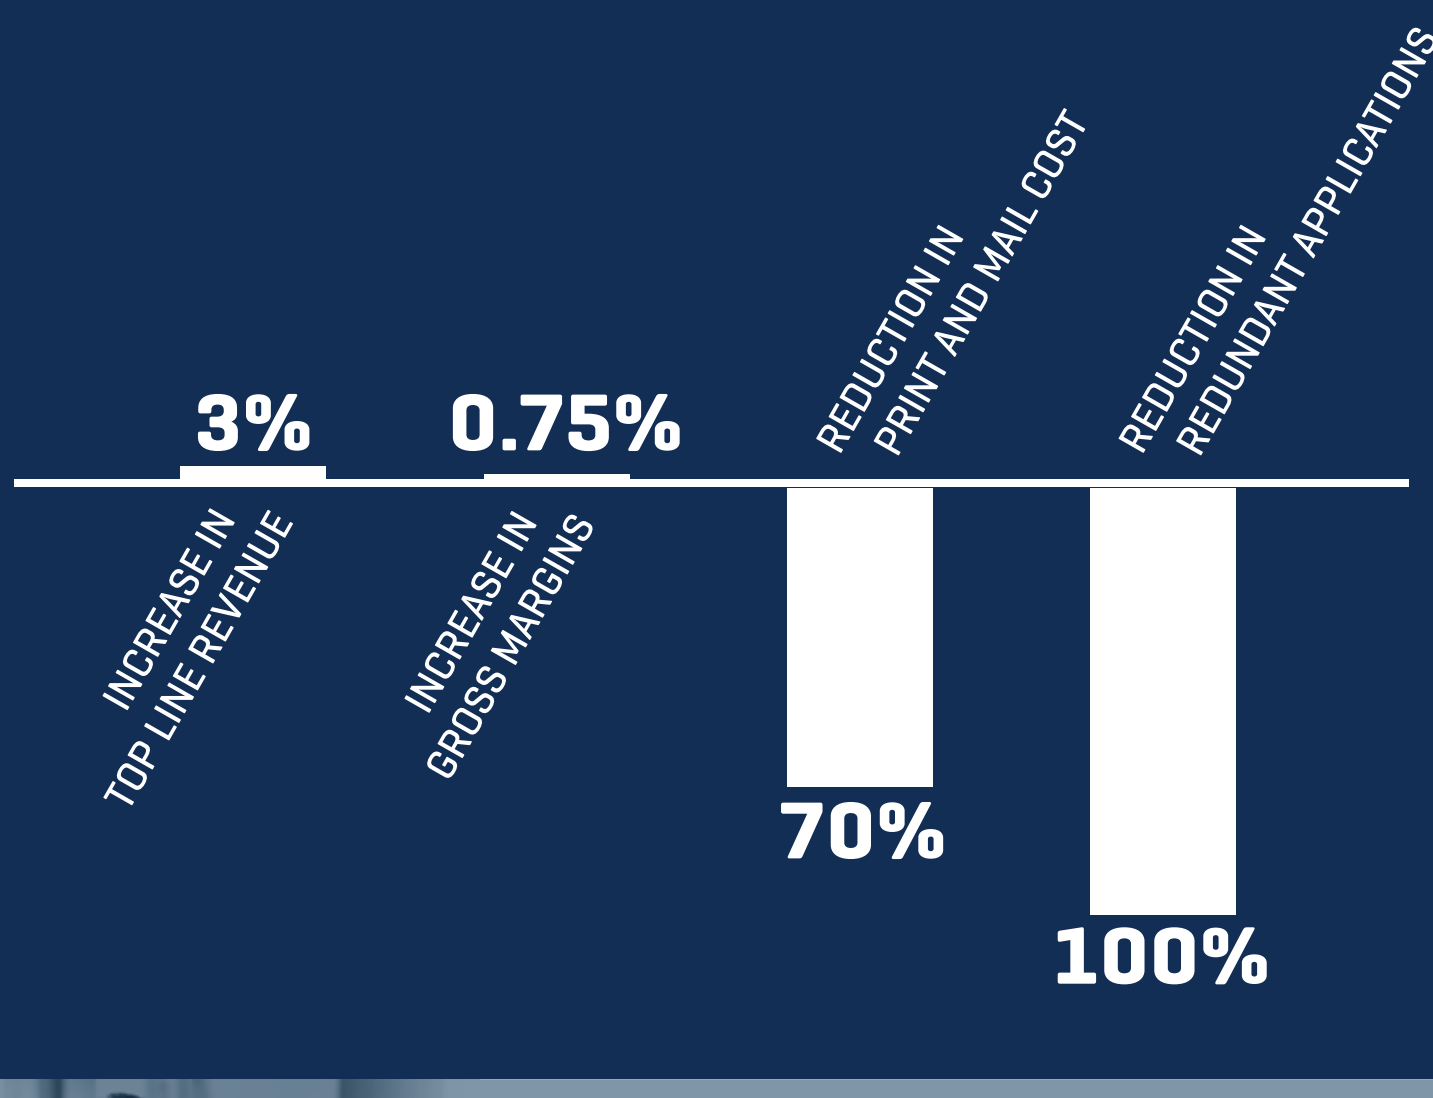

"Project Managers are billing more accurately, and the process is more efficient from a timing standpoint, which helps with cash flow."

—mid-range GC and Subcontractor

INCREASE PROFIT

Viewpoint's integrated construction management solutions provide immediate and demonstrable financial benefits.

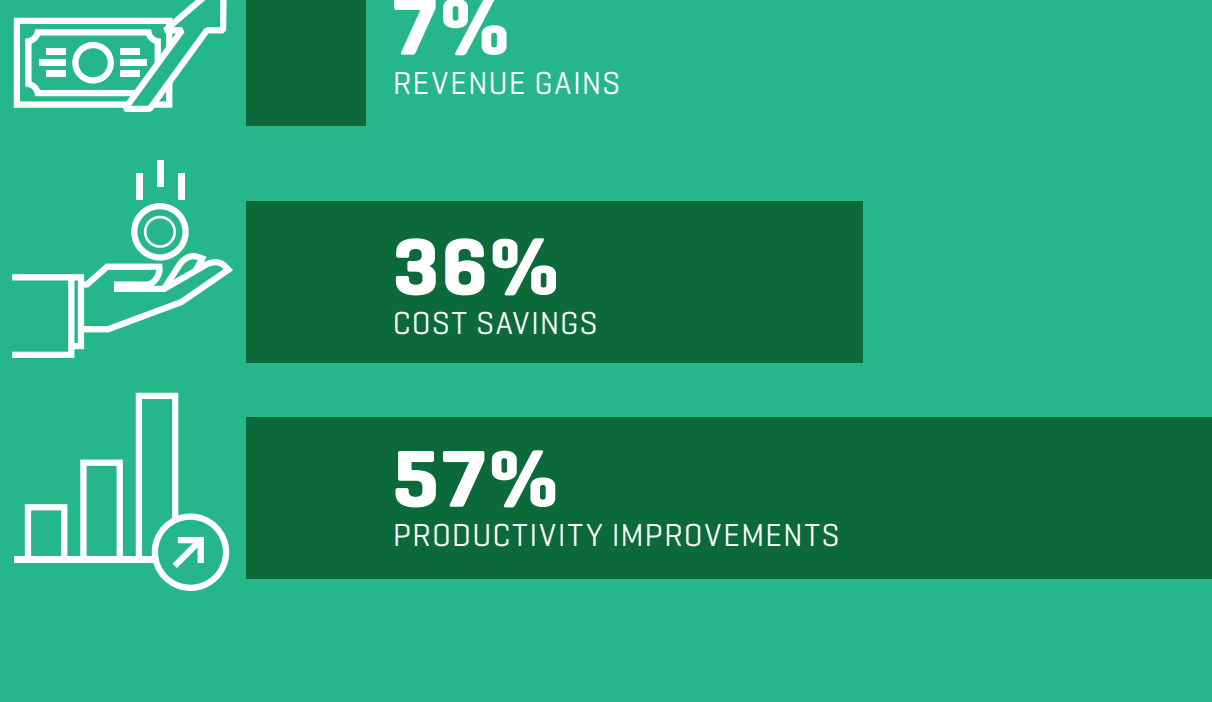

"Vista eliminated 3-4 additional applications which were necessary with our previous ERP."

—large Heavy/Civil Contractor

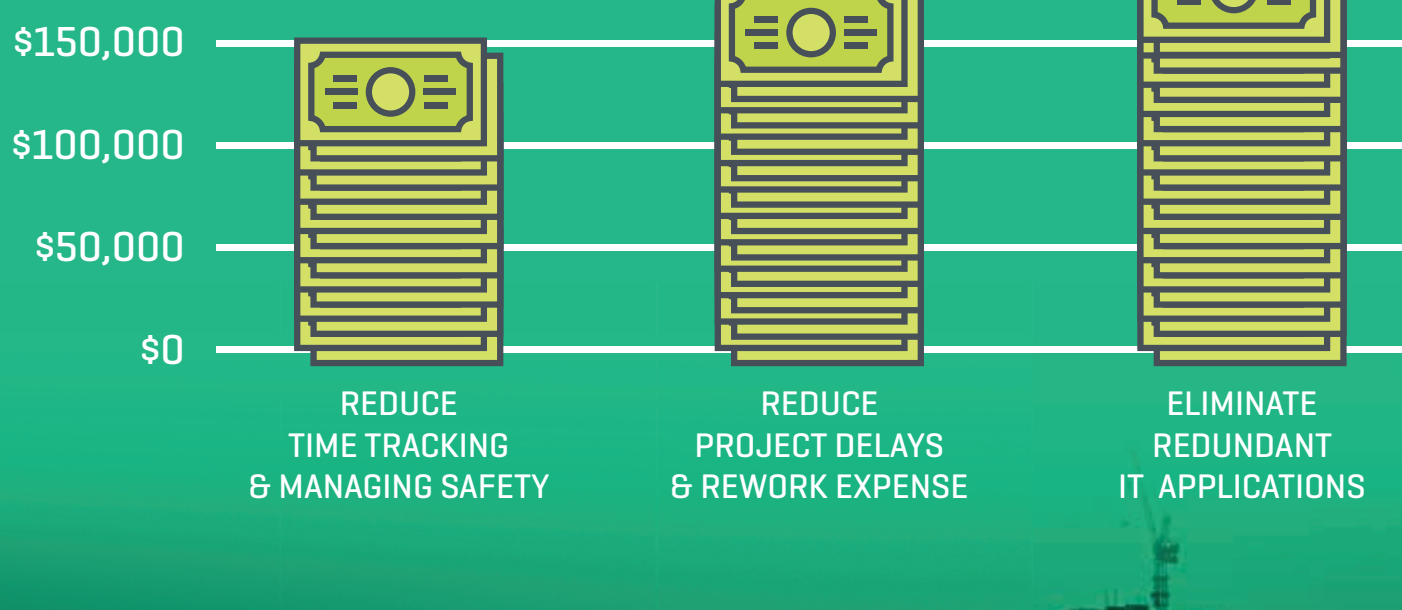

KEY ROI FINDINGS

Viewpoint's integrated construction management solutions provide immediate and demonstrable bottom line benefits. A typical organization with \$10 million in annual revenue and a 5% gross margin who completes 20 projects annually can achieve annual benefits exceeding \$1.3 million per year.

Benefits by Type

Of the more than 20 discreet benefits identified, here is a sample of potential annual value to an organization with \$10M in annual revenue who completes 20 projects annually:
