Figure 1 presents the most common educational attainment level for immigrants 25 years of age and older living in the state of Missouri. Overall, across the state of Missouri, 23 percent of immigrants do not have a high school diploma, 21 percent of immigrants have a high school diploma, 18 percent of immigrants have some college or Associate's degree, and 38 percent of immigrants have a bachelor's degree or higher. Immigrants living in and around the counties of St. Charles, Boone, Scott, Miller, and Washington reported higher rates of individuals with a bachelor's degree or higher. However, immigrants without a high school diploma predominately reside south and west of the city of St. Louis and in the northwestern, southeastern, and southwestern part of the state.

Figure 2 shows the year of immigration for immigrants living the state of Missouri and select counties. A majority of immigrants living in Missouri immigrated to the U.S. between 1990 to 2009. Additionally, immigrants living in Franklin county reported the earliest median year of immigration (1991) compared to immigrants living in Jefferson County (1996), St. Louis County (1999), St. Louis City (2001), and St. Charles County (2001).

Figure 3 shows the top five countries of birth among immigrants living in Missouri and select counties throughout the state. There are greater proportions of immigrants in the state of Missouri from Mexico (18 percent) compared to the individual selected counties. Additionally, immigrants from Southeast Asia (e.g. Vietnam, Philippines), East Asia (e.g. China), and South Asia (e.g. India) comprise approximately one-quarter (22 percent) of immigrants living in the state of Missouri.

Institute for Immigration Research analyses based on source data from the U.S. Census Bureau American Community Survey, 2011-2015 distributed through IPUMS-USA, University of Minnesota, www.ipums.org.

Foreign-born refers to individuals who are not a U.S. citizen at birth or who were born outside the U.S., Puerto Rico or other US territories and whose parents are not U.S. citizens. The foreign-born may include naturalized U.S. citizens, Legal Permanent Residents, temporary residents, refugees and asylees, and others. Additionally, native-born includes those who are U.S. citizens at birth, those born in the United States, Puerto Rico, or other U.S. territories, and those born abroad to a parent who is a U.S. citizen. Please note that the terms "foreign-born" and "immigrant" are used interchangeably throughout this fact sheet.

Immigrants in Missouri 2015

Figure 4. Poverty Status among Immigrants Living in Missouri

Approximately 236,450 individuals in the state of Missouri are foreign-born, roughly 4 percent of the population*

Figure 4 illustrates the proportion of immigrants living at or above the poverty line in the state of Missouri. Across the state of Missouri approximately, 79 percent of immigrants live at or above the poverty line. Additionally, immigrants living in Jefferson County (90 percent), St. Charles County (89 percent), St. Louis County (87 percent), and Franklin County (82 percent) were more likely to be living at or above the poverty line compared to immigrants living in St. Louis City (68 percent). As shown on the map, immigrants living in the western part of the state near Clay, Jackson, Cass, and Bates County and in the eastern part of the state near St. Charles, Jefferson, Washington, and Perry County reported higher proportions of immigrants living at or above the poverty line. However, immigrants living in the southeastern part of the state near Dunklin, Stoddard, and Pemiscot County and in and around the counties of Shannon, Douglas, Dade, and Lincoln reported lower rates of individuals living at or above the poverty line.

Figure 5 shows race and ethnicity among immigrants living in the state of Missouri and select counties. The largest groups of immigrants living in the state of Missouri and across the selected counties identify as Asian (non-Hispanic) and White (non-Hispanic).

ABOUT THE INSTITUTE FOR IMMIGRATION RESEARCH

The IIR works to refocus the immigration conversation among academics, policy-makers and the public, including the business community and media, by producing and disseminating unbiased and objective, interdisciplinary academic research related to immigrants and immigration to the United States. The Institute for Immigration Research is a joint venture between George Mason University and the Immigrant Learning Center, Inc. (ILC) of Massachusetts. To learn more about the Institute for Immigration Research call (703) 993-5833, email iir@gmu.edu, or visit us online at iir.gmu.edu.

IMMIGRATION DATA ON DEMAND (iDod)

The iDod service is offered free of charge to help individuals and institutions examine the immigrant populations of their particular geography. Recipients of this data will see how immigrants provide vital contributions to the economy and society of the U.S. Ultimately, the goal of the iDod project is to create collaborations and connect people with data of interest on immigrant populations from their particular geographic region or economic sector.
