

JOB DESCRIPTION

POSITION: **Network/Systems Administrator**

DATE: **MAY 2013**

CMH Heli-Skiing and Summer Adventures has an immediate requirement for a full-time Network/Systems Administrator to join our Information Systems Department.

Key responsibilities:

- Configure and troubleshoot firewall routers and VPN tunnels
- Deploy and manage Windows and VMWare servers
- Monitor status of servers and network performance
- Manage systems through scripts and policies
- Secure the network through controls and monitoring

The ideal candidate will possess the following attributes:

- Computer related degree or certificate
- Strong knowledge of Microsoft operating systems and applications
- Familiarity with virtualization
- Experience with Active Directory and Group Policy
- Ability to effectively prioritize and execute tasks in a fast pace environment
- Analytical and patient with strong customer service skills
- Valid driver's license
- Juniper experience is an asset
- Passion for skiing and hiking preferred

Upcoming projects include: PCI compliance, replacing all 20 routers, and deploying RODCs at each remote lodge. This is a great opportunity for a fast learner with some experience in a medium sized environment.

The job requires scheduling flexibility to accommodate on-call work and some travel.

CMH offers a very competitive pay and benefits program.

If you have the right background and are up for working hard to meet the needs of a busy, high-end, tourism operation please send your resume to:

Bob Lutz
Manager of Infrastructure
