

2013 PRIVATE WEEKS

The Ultimate Ski Experience

If Heli-Skiing is the ultimate ski experience, Private Weeks are very likely the ultimate way to enjoy that experience. Private groups have exclusive use of a helicopter and two guides and tremendous flexibility in setting their own pace and choosing the amount of skiing they want to do.

When CMH first offered Private Weeks, we had no idea how popular they would become. But the chance to enjoy the world's greatest skiing (and snowboarding) in privacy and with maximum versatility has proven a huge winner. We accommodate private groups of four to ten skiers throughout the season at McBride, Nomads, Valemount, Monashees and Revelstoke.

PRIVATE WEEKS MCBRIDE

McBride, CMH's largest area, is located in the vast and wild northern Cariboo. Its rugged, steep terrain, huge glaciated plateaus, and mature, well-spaced forests offer a magnificent range of skiing opportunities. Impressive views of the Cariboo's spiky Premier Range and the Rockies' monarch, Mount Robson, dominate the area.

With only one private group of up to 10 skiers, McBride offers much mobility and the flexibility to find the snow and terrain best suited to the group's abilities and desires and the pace at which they want to ski.

Accommodations in McBride are at the North Country Lodge, where CMH leases a private facility complete with a private dining room, a comfortable lounge with wood-burning fireplace, a massage room, and whirlpool. All our rooms and amenities are in an enclosed structure exclusive to CMH guests. The North Country Lodge is located just off Highway #16 adjacent to the village of McBride.

Transportation to McBride is by chartered bus from Prince George to McBride. Guests are asked to fly direct to Prince George, BC via Vancouver, BC. We ask that you arrive in Prince George on the Friday evening prior to the Saturday start of your CMH trip. Upon arrival at the Prince George Airport, a shuttle driver will meet you and shuttle you to the Coast Inn in Prince George where you will overnight before being driven to McBride Lodge in the morning. Driving time from Prince George to McBride averages 2 hours and 30 minutes.

All 7-day trips include 40,000 vertical metres (131,000 vertical feet) of skiing guaranteed. Additional skiing is charged according to the number of skiers in the booked group*.

PRIVATE WEEKS NOMADS

Only CMH Heli-Skiing can offer private trips that span both the Selkirk and Monashee ranges, skis through three to six separate CMH Heli-Skiing areas and travels through seldom skied terrain. With exclusive use of the Nomads helicopter, you will experience freedom, exploration, exhilaration, fun and the original spirit of Heli-Skiing with experienced local guides from each area.

Nomads North offers unlimited flexibility in terms of trip length and skiing terrain. Your group (maximum of 4) joins the other guests at the Gothics lodge, but you head for the hills in your own private helicopter and two guides. Here's the nomad part: you roam freely through the Gothics area and beyond, to access the adjoining Monashee and Adamant terrain. This vast expanse of mountains, encompassing three of our already sizeable operating areas, provides endless choices and even the possibility of runs never skied before!

Nomads South is the same style of program, but based at Halcyon Hot Springs Resort between Revelstoke and Nakusp. From very comfortable accommodations in private lakeside chalets, and with great dining and a beautiful spa, your private group finds the best snow by roaming the spectacular runs of our Galena, Kootenay and Revelstoke areas. Nomads South operates with a Bell 212 (with up to 9 people).

Transportation for Nomads is by helicopter from Kelowna. In the event that a Bell 407 is not available for the trip, CMH will substitute a 212 at no extra charge

Additional skiing is charged according to the number of skiers in the booked group*.

PRIVATE WEEKS VALEMOUNT

Valemount is nestled in the sublime valley from which it takes its name, just outside the little town of Valemount. We designed Valemount specifically for private groups of up to 10. Its beautiful design, fine amenities, and secluded location – away from town but easily accessible by road – make it one of CMH’s most coveted places.

We ski in the vast Cariboo, enjoying the range’s wide variety of terrain, from long, steep, exhilarating tree runs to wide-open glaciers. The lodge’s private groups enjoy the use of their own helicopter and two guides, allowing for a high degree of flexibility. Since our Valemount guides are highly experienced instructors, Valemount is ideal for Heli-Skiing oldtimers and first-time deep snow skiers alike.

Weather permitting, transportation from Calgary is by private chartered plane. If the weather is poor we fly to an alternate location or use ground transportation. Valemount is located 520 kilometres northwest of Calgary and flight time averages 75 minutes.

Valemount prices are based on a **guaranteed number of flying hours**. The hours we include for each week are based on the historical averages flown for those weeks. You can ski as much as you want within these hours and you will not be charged for the amount you ski.

Additional flying hours over the weekly guarantee will be charged at \$5,305/hour. Prices are in Canadian dollars and are subject to change. Taxes are not included.

PRIVATE WEEKS MONASHEES

The Monashees is considered by many to be the most challenging skiing of any of our areas. It is suitable only for experienced CMH Heli-Skiers who normally ski in the fastest group in other CMH areas. Between 60 and 90 percent of Monashees skiing is in a mature, naturally well-spaced forest. Along with some of the best tree skiing on earth, the Monashees is also admired for its long, consistently steep-pitched runs. Private groups with a maximum of 4 skiers, their own private Bell 407 helicopter, and two guides are offered throughout the entire season at the Monashee Lodge. These groups operate independently from the regular program.

Monashee Lodge is located on the shore of Revelstoke Lake, north of Mica Creek. Featuring all the CMH amenities complete with dining room, living room, fireplace, drying room, ski shop, indoor climbing wall, rooftop whirlpool and sauna.

Transportation to the Monashees is by charter bus from Calgary. Mica Creek is 560 kilometres west of Calgary and travelling time averages 7 hours. Transportation by private chartered plane may also be arranged at an additional cost, please contact our transportation department for information.

All 7-day trips include 40,000 vertical metres (131,000 vertical feet) of skiing guaranteed. Additional skiing is charged according to the number of skiers in the booked group*.

PRIVATE WEEKS REVELSTOKE

With access to both the Monashees and the Selkirks, Revelstoke is defined by deep snow, big, open alpine and glacier terrain, and tree skiing equal to the best of any other CMH area. Its great size and quick accessibility by vans and helicopters allow us to find good skiing even in inclement weather.

Private groups with a maximum of four skiers are also accommodated throughout the season at Revelstoke. These groups operate independently from our regular program, with their own private helicopter and two guides.

Revelstoke is one of British Columbia's oldest towns, and its history and charm are well preserved. We stay at the Regent Inn, in Revelstoke's historic centre. The Regent is a family-owned and operated hotel highly regarded for its excellent cuisine, fine accommodations, and friendly staff (and, just across the street, you'll find a handy health club). You have the opportunity to dine at your leisure, with a few friends, or as part of a larger group. With a full complement of facilities, plus the attractions of a quaint town, Revelstoke offers a well-rounded Heli-Ski vacation.

Transportation to Revelstoke is by charter bus from Calgary. The Town of Revelstoke is 425 kilometres west of Calgary and travelling time averages 5 hours. Transportation by private chartered plane may also be arranged at an additional cost, please contact our transportation department for information.

All 7-day trips include 40,000 vertical metres (131,000 vertical feet) of skiing guaranteed. Additional skiing is charged according to the number of skiers in the booked group*.

DEPOSIT & CANCELLATION INFORMATION

CMH Heli-Skiing is the world's most comprehensive and spectacular wilderness skiing experience available to Heli-Skiers and Snowboarders worldwide.

1. The deposit for McBride, Nomads South (9 guests) and Valemount is \$50,000.00 and for Monashees, Nomads North, Nomads South (4 guests) and Revelstoke is \$15,000.00. All deposits are fully non-refundable without exception.
2. Deposits are transferable to another private week, if available, within the same season only. They cannot be transferred to another season, bookings in other areas for non-private weeks or to another private group booking as a credit to the final payment.
3. Final payments are non-refundable and are due 10 weeks prior to the trip. The deposit and cancellation policy for private group weeks is different from other CMH areas due to the following:
 - We must make significant commitments to our suppliers in order to operate a trip and we have a very limited number of weeks available for private groups.
 - We must ask for a significant commitment from those wishing to book a private week since we will have turned away others wanting the same week.

McBride, Nomads, Monashee and Revelstoke refund policy

Each 7 day private group is guaranteed 40,000 vertical metres (131,000 vertical feet) of skiing. With two or more groups the guarantee is 30,500 vertical metres (100,000 vertical feet). For shorter trips the guarantee is pro-rated by the number of days.

If the group skis less than the guaranteed metres because of poor weather or mechanical breakdown, refunds will be given to each individual in the group on the basis of \$120 per 1,000 vertical metres of skiing when using a Bell 212 and \$160 per 1,000 vertical metres when using a Bell 407. If for reasons of poor weather or mechanical breakdown, the group cannot fly and does not reach 30,000 vertical metres (22,000 metres with two or more groups) a further credit of \$1,000.00 will be given to each person in the group. The credit has no cash value but may be used for any booking with CMH during the next two seasons.

There is no refund if the guarantee is not reached because a skier chooses not to ski or is physically unable due to lack of fitness or ability.

Valemount refund policy

Valemount Lodge's guarantee is based on flying hours (see the Valemount page in the booklet). If the group flies less than the guaranteed hours because of poor weather or mechanical breakdown, refunds will be given to the group on the basis of \$5,520 per flying hour.

There is no refund if the guarantee is not reached because a skier chooses not to ski or is physically unable due to lack of fitness or ability.
