ADVENTURE TO THE ENDS OF THE EARTH!

Experience the life of modern day explorer Eric Larsen as he shares a year-long quest into the heart of cold. In November 2009, Eric Larsen began an unprecedented journey to the top, bottom and roof of the world. During a continuous 365-day period, Larsen mounted major expeditions to the South and North Poles and the summit of Mt. Everest. This feat has never been completed in one year. The 'Save the Poles' expedition is a journey to these last frozen places in attempt to tell their amazing story.

The polar regions of the world are home to an amazing variety of life. Seemingly desolate and vacant, these areas support vital ecosystems and are integral to regulating and maintaining world climate. See the world's Polar Regions in stunning images and video. Hear Eric's first person narrative from some of the most remote places on the globe. Gain unique insights into teamwork, problem solving, perseverance, goal setting and keeping motivated even when faced with life threatening situations. Learn what you can do to reduce carbon emissions and protect our planet for future generations. Save the Poles. Save the planet. "Very engaging, good use of time, great awareness of audience, clear sense of organization, not to mention some of the best use of powerpoint I've ever seen. Eric is one of the most dynamic speakers we've had" - Dr. Meg Albrinck

Eric Larsen, Polar Explorer

Modern-day explorer, Eric Larsen's life epitomizes adventure. A polar explorer, dog musher, adventure racer and educator, he has spent the past 12 years of his life adventuring in some of the most remote and wild places left on earth. He is only the third American in history to ski to both poles. Eric is an experienced public speaker who engages audiences on many levels.
