

To Desire2Learn clients,

Please be aware that the IE 9 browser is not fully compatible with current releases of the Desire2Learn Learning Environment. IE9 will be fully supported in version LE 9.4.0, which is to be released at the end of August.

Potential issues (varies by version):

- Some buttons, such as the email button, may not work
- The HTML editor (WYSIWYG), such as the composition field of discussions and emails, may have some formatting issues.

Recommended workaround:

- Click the “Compatibility View” button which is found in the IE address bar of web pages which are not compatible.
- Please see Microsoft for further information regarding the Compatibility View:
<http://windows.microsoft.com/en-CA/internet-explorer/products/ie-9/features/compatibility-view>.
