

Athletics at College Pathways

College Pathways does not offer an athletics program. CP students who wish to compete must comply with the participation requirements of the Colorado High School Activities Association (CHSAA) as well as their district of residence or their district of attendance.

The following example applies to Academy District 20, but your home district may have other standards for athletic participation by students attending charter and private schools. Please contact your district office for specific guidelines and policies.

If a student attending a high school that does not offer athletics (such as College Pathways) wishes to participate in athletics in Academy District 20 (ASD20), they must apply for athletic participation placement and complete a "Request to Participate Form" through the ASD20 central office. This must be accomplished every before registering for sports.

The following guidelines are helpful, but decisions about placement and participation rest with ASD20:

- ASD20 resident students who have never been placed on a high school team roster will participate at their neighborhood high school.
- Junior High or Middle School participation does not determine high school placement.
- ASD20 resident students will participate at their school of residence, attendance, or assignment, depending on which sports are offered at which schools.
- Students who have previously been placed on a team roster at a public high school (including The Classical Academy) will continue to participate at that school.
- Non-ASD20 resident students who have never been placed on a ASD20 high school team roster will participate at a school assigned through the ASD20 placement lottery.
- In the event that a student is assigned to a school that does not offer a particular sport, then that student will enter the ASD20 lottery and be assigned to another school for that sport.
- Once a student is assigned to a school, they will play all sports offered at that school for their high school career.

Co-curricular – Because College Pathways is not designed to be a comprehensive high school, College Pathways does not have performing arts programs such as band or choir. However, students interested in these activities *may be able to participate at their home public high school programs.*

Non-CHSAA-regulated after-school activities, such as theatre, rock climbing, tennis club, Latin, creative writing, and others are available at the TCA North Campus.
