

## Graduation Requirements

Graduation requirements are based on the number of units of credit earned in grades 9-12. A unit of credit is defined as the amount of credit given for the successful completion of a unit of work as defined in the high school course handbook. College Pathways awards one credit per semester for grades of D- and above;

A minimum of 50 units of credit is required for the College Pathways diploma, and must be completed while enrolled in grades 9 through 12.
