ICC Solutions Team Members achieve Visa EMV Consultant Accreditation

ICC Solutions is pleased to offer accredited EMV Chip consultancy services from team members having successfully completed the Visa EMV Consultant Accreditation Program attended by Mrs Paula Turner, Technical Manager and Mr Derek Ross, Technical Sales Manager.

Successful qualification allows for inclusion in the Visa Accredited EMV Consultant Program listing posted on Visa On-line portal - helping Visa customers to be supported by consultants with suitable skills and expertise during EMV Chip migration.

The course leading up to the final examination and qualification focussed on the importance of high quality consulting support, consistent and appropriate guidance tailored to each individual Visa customer and the importance of expertise available to help customers through a seamless migration.

Further refresher sessions will be attended to ensure that ICC Solutions receives the most up to date Visa product and brand information, delivering relevant and appropriate assistance to customers.

About ICC Solutions Limited

ICC Solutions is a leading provider of EMV test tools, offering a complete set of fully qualified test suites for all formal Payment Brand certifications in addition to EMVCo type approval.

These test tools can also be used during development and internal quality assurance testing, and are used worldwide by Payment Brands, Terminal and Card Vendors, Test Laboratories, Acquiring Banks and Merchants /Retailers.
