Pledge to boycott BP!

"Expose BP. Expose that Drill, Baby, Drill means Spill, Baby, Spill. After all, what's at stake is nothing less than our planet. And that's the naked truth." ~ Diane Wilson, CODEPINK Co-founder and Texas Gulf shrimper

We demand:

1. There be no new permits on offshore drilling;
2. Instead, redirect that energy and financing into renewable fuels;
3. Expose the true costs of oil and the obvious disaster about to hit the coast in waves of oil, killing our fish and livelihoods;
4. Ensure that BP is held accountable for its rape, murder and profit on our backs.
