Dear Mr Knittle

I want you know that the confession was coerced by the Billings Police Dept. after I went to them for help. That's when all this shit about me started. I just wanted to let them know that the Federal Auth. ~~offices~~ were planning ^{to} file false accusations against me in retaliation for trying to file a civil suit claim against Federal Government in my invalid conviction under 28 U.S.C. § 2255 (loc. 10)

These Chicken shit Federal Authorities threatened to bring up my passes, including my being subpoenaed in a grand jury indictment, and my involvement in the Lee Pearson case. The only way they could ever find out this information is when the federal defenders of Montana ran that pre-sentencing investigation in 2008. I will admit I was arrested twice in this case and released twice, once 1998 & 2001 when the other suspect in this case was executed. The reason I know

It as a Confession against me. If you check
the pittsburg County Sheriff offices records
for July 2001 I was released. Not changed.

And my so called confession was coerced
by the Billings Police Dept. after I sought help for the
accusation the Federal Authorities were going bring
up.

The only person that was involved with
Leo Reasoner death is dead himself. (Since 2001).
There is no story, no confession.

Sincerely

Clifford W. Eagle
