

Love's Creative SPARKS!

USE YOUR IMAGINATION TO
CREATE AND INNOVATE!

The Love's Creative SPARKS! awards recognize the creativity of Oklahoma students with ideas about how to improve their schools, communities or world. Oklahoma is the State of Creativity and this year Oklahoma students were asked to challenge their perceptions of creativity and innovation by developing a 3-5 minute video featuring their ideas about how to improve their learning community.

CREATIVITY IS:

- A skill that everyone has
- Used every day
- Essential to have in the 21st century
- The process of having an original thought or idea that can be put into action

CREATIVITY IS NOT:

- Something only a few people have
- Just for the "arts" such as drawing, writing or singing

CONGRATULATIONS TO THE 2012 LOVE'S CREATIVE SPARKS! WINNERS

Elementary School - Angie Debo Elementary School (Oklahoma City)

"Recycled Art" by
