

FLEET GPO

Enterprise Buying Power for Fleets of *Any Size*

Access *enterprise-level* pricing, preferred supplier programs, and greater control over fleet spend.

Managing fleet procurement across suppliers, locations, and purchasing categories can make it difficult to control costs and maintain visibility.

Corcentric's fleet group purchasing program gives fleets access to the collective buying power of more than 800,000 power units and 2,000 fleet members. By aggregating more than \$1 billion in member spend, Corcentric negotiates preferred pricing and terms with leading fleet suppliers — helping members purchase more strategically without having to negotiate every agreement on their own.

Through more than 165 supplier programs, fleets can access savings across critical categories including tires, parts, lubricants, maintenance products, and operating supplies.

Buy Like a Larger Fleet—Regardless of Your Size

Corcentric provides access to pre-negotiated national pricing, flexible purchasing programs, and quantity-one pricing, giving fleets the ability to benefit from enterprise-scale purchasing power even when purchasing in smaller quantities.

With no spend commitment requirements, members retain purchasing flexibility while gaining access to supplier programs designed specifically for fleet operations.

Simplify Procurement and Improve Spend Visibility

Beyond supplier pricing, Corcentric helps reduce the administrative burden associated with fleet purchasing. Our procurement capabilities include:

- Purchase order and invoice automation
- Payment consolidation and simplified payables administration
- Electronic transaction visibility and online purchase tracking
- Spend reporting and analysis
- Access to fleet procurement expertise and peer learning opportunities

With more than 25 years of fleet procurement experience, Corcentric helps customers identify savings opportunities, streamline purchasing processes, and gain greater visibility into fleet spend.

FLEET GPO

The Corcentric Fleet Procurement *Advantage*

- o **Greater purchasing power** - Leverage the collective spend of thousands of fleet members to access negotiated supplier pricing and terms.
- o **More supplier options** - Gain access to more than 165 supplier programs across key fleet purchasing categories.
- o **Less administrative work** - Simplify purchasing, invoicing, payments, and transaction management.
- o **Better spend visibility** - Use purchasing data and reporting to better understand spend and identify opportunities for improvement.

Put *the Power of the Group* Behind Your Fleet

See how Corcentric can help your organization reduce procurement costs, simplify purchasing, and gain greater control over fleet spend.
