Milwaukee Telegraph Office
Sept 1st 1858

D. J. Tillotson Esq.
Superintendent &c,

Dear Sir,

I have been delayed in making out my weekly Report in endeavoring to effect a settlement with the Editors, for reports, I charge the Wisconsin with the reports (same to Sentinel & Gazette) for Reports that came Saturday one came 3/2 or 4 P.M., the other long Report at 11 o'clock P.M.

The Wisconsin goes to press at 3 o'clock P.M. and on Monday the Wisconsin had it in but when I took in the bills for reports the Wisconsin strikes out for such Reps as came the day before, because they copied from the Sentinel, & vice versa with the Sentinel, which leaves only $1.— per day for Reporters at final footings.

Now I understand the contract to be that both papers pay each $1.— per day for reports (not exceeding 3 speeches) If we have but One Report (some days) each pays his dollar for it, if we have 2 (or 3) it is the same, so much their gain, Such being the case I made out my weekly Report & sent it in, making remarks concerning it on the margin, and will await your letter of instructions before I am too

positive
about any constructions of the agreement,
Holliday does not act as if he intended to
pay soon, but I think Davis & More will,
I will Telegraph you as soon as they do, and
shall urge Holliday to do something on his.
The Number of Reports from 15th January
to 23 August I make 126 at $50 is $63.00
King is satisfied with it, but Cramer & Curtis
thinks it is not right & I have given them until
Wednesday next to examine & look it over, and
will write you the result
Yesterday it blew quite a gale all day &
at 1 p.m. o'clock the wire broke, I took a horse at
2 o'clock & went to the halfway station or rather
fourteen miles, & finding my beat all right
I returned, RC thought it was some dispell
ing up Milwaukee River & did not go out
until this morning, I have seen Comstock
about the landing above the wires, & learn that
they have contracted for 1200 cords of bark
to be delivered there this fall & we shall have to
cut the wire from once to twice per week all
the fall,) The trees you spoke of belong
to J. D. Butler, & one learns that he has planted
in his yard, & says rather than have them cut
he would give $50, — but still I think I can persuade
him to have them trimmed a little. he is
gentlemanly about it & would like to accom=
=modate us in the matter, Very Respectfully
Your Obt. Servt

MILWAUKEE
SEP
WIS

Montreal 1 September 1848

Dear Sir

I reached Montreal about
one pm on Tuesday & found every thing
on ship shape order considerably in advance
of what I used to be, for all the cons of that
day were entered.

Business is not exceedingly
brisk but there is a considerable increase
on the average of August compared with
July. The Troy line is not doing a great
business — but trade is so depressed
here that Telegraph Lines can hardly
be expected to pay at present. Our
Directors have altered the Tariff as follows

for 10 words			& 1½ for each additional word
Under	100	1/3	
	200	1/8	2d " 4 "
	400	2/6	3
above	400	3/9	4½

It was no go the 15 words - but calculating by words does not make a great deal of difference -

The charge on coms to Lyc Fucat is not finally fixed - as the Directors of the Junction Line have not yet taken action on a proposition made to them - but the internal arrangements on our Line are fixed as above

I found all well here - & might have stayed a few days longer if I had received com sent by W -

Harry is sick today - In haste -

Mr Wood is to write us soon

N. P. G has just got a considerable increase to his Salary - & we can hardly get him kept within bounds - Torrey

as as usual I believe — but have
not had any conversation with
him since I arrived

I enclose a $2 dollar Bill
and with many thanks for your kindness
& attention, which I hope to be able
some day to reciprocate

Believe me to be
Dear Alonzo
Yours very sincerely
James Dakers

Buffalo Sept 1st 1848

My Dear Matthew-

I sent a com^n to Mr Speed this afternoon asking if I shud not better go to Cleveland as the business there is double what it is here- and Dunham is quite ill at times for the pain in his breast. and recd an answer saying yes- I shall go tomorrow morning evening- and remain in Cleveland till we work out from here to Detroit and perhaps longer- business is very brisk indeed- Erie is fine order this week- this office has averaged about 80 cons a day the last 3 weeks- yesterday there was 87 & we did not rec'd on from west of Detroit- Since Toledo office has been open we have done more business with them than with Detroit- this morning I sent 8 cons to Milan & recd six & have 2 for them now- it is a great grain depot about 700 inhabitants & I was going to say it does nearly as much business as Cleveland- Mr Hentchin son of Cayuga is in the Western in this city. Allen arrived this morning- but is not in the office today- I am very busy- for about 3 weeks I have been in the office til past 12 PM 3 nights out of 4— Cleveland & Detroit got through at 2 this morning— pretty good- business is heavy on the Erie & fast increasing- You must excuse this & I have only about 3 minutes to write- Please write me at Cleveland- Dont you think it a good plan to stop them— & all meet at home I shall do it the first thing I could

Yours affectionately

Able-

Buffalo Sept 4th 1848

Mr E Cornell

Dear Sir

I did not receive any intimation from you about what had been done with my account I understood you to say, That on your return here from Detroit, you would write to me about it

Will you have the kindness to inform if it has been audited, and where and when it will be paid, Or at least, let me know who is to attend to it. I would like to have some kind of a due bill, Because I shall leave here very soon, for parts at present unknown and desire to be able to close up the matter without being to the expense of going about the earth to do so, Your son informed me that you would be here at the fair, which is the reason I did not write to you before, But I now hear you have gone to NY

I have got nearly through with the Canada Junction. So shall finish in three days, and would like to engage with you on the NY and Erie, or some other line until I can square up with the Erie & Mich, if no longer

This is my last season at Telegraphing
And I shall go to Wisconsin immediately
on its close So I hope you will oblige
me by favouring me payment before navigation
closes, And would like employment with
you until I can wind up so as to go

By answering the above at your earliest
convienience you will greatly oblige

Respectfully Yours &c

A. Dish

P.S. The business of the Erie and Mich
is increasing so fast that I have no
doubt they might readily pay me without
inconvienience, in the course of a month
If I had the documents

Dr Sir

Your favor of Sept 1st is at hand in which you ask the evidence upon which rests the opinion "that you should settle and pay Mr Bronson a/c. If you will refer to the letter to Mr Bronson dated July 13 1848 you will notice the statement is that "the Ex. Committee regard it as the duty of Mr Conolly to settle your (Bronson) a/c & pay the same" upon receipt of Mr Bronson's letter requesting payment of his a/c by Mr Lyman (to whom it was referred) I was directed to write Mr Bronson as I did. If I course should not pay the a/c unless allowed by the Committee. I think Mr Lyman stated that the opening of the office was part of your contract and that if in this case More was done by Mr B. than you ought to do, as you employed Mr Bronson, you should settle his a/c and the company would do what was right with you.

a false statement it wounded me - I am sorry and
After reading or trying to read this over - I am sleepy
tempted to consign it to John Rogers Hatt - I will go

ayled His royal blood most awfully. He considered it very disgraceful language for a laboring man like me to use before that august Assembly. He is certainly the d—dest liar there is this side of the Atlantic. Your Father made the Assn acquainted with some acts of his that they were entirely ignorant of previous to this late meeting, which has rather shot him down a peg in their estimation. He is getting on as usual, has another Assistant & Messenger. For the last week he has been exp-erimenting; trying to work without a Local Bat or Magnet - He has two large glass Bowls that will contain 3 pints each & has about a lb of Brimstone in each & what looks like soft soap abt 3/4 of a lb & the bowls filled with water - with that mess he told Tooney & I he could work a line 500 miles & he intends getting a Patent for it & will not enlighten us of what the Soft Soapstuff composed unless we will give £500. He tried his great gun Friday last & proved a decided failure - He said it was the fault of the Register. We had a great laugh at him. He is however still ass enough to think he will succeed - The receipts on the A.T. line have not yet amounted to much. I leave it for you to do after you get tired of unsnarling it - Pray excuse faults & scratches -

Erie 6 Sept 1848

Dear Sir

I understood from your Son that you would be at Buffalo this week, and if I had been certain that you would be there, I would have taken the boat to night and returned tomorrow

I have been manufacturing some Caps here, as I wrote you, out of Pasphuage, and I like them much they certainly are better than the Glass Knobs, and will last better three & four times, and I am making a tin pony cup, with the same design out of which I send to Buffalo I am confident it is better than

O'Riley Cafe, and I am not sure that it is not profitable to them despite Irony, which the boys break off so easily - You may condemn the Cafe with this in it, & to consist I, & I share any thing else; but we cannot be used ah every rainy storm as we have been, and I am determined to make this one work, rain or shine -

Fish has been running me for a settlement of his age, which I know nothing about. E Bloomer hires him, and furnishes him with funds, and must settle his account I owe Bennett to any by an Irishman who calls himself Patrick McGinn, and says he worked for E Bloomer, and never has had any pay - I wish he would, and the other accounts by all such cases, and when the suit is only a humbug, I will buy it at once -

What should we buy Kyle at the office for? He expects four hundred dollars, and buys the claim to

that and on what you said, Pop, that he could do better than to Rush school at $15 or 20 he mo. & bound & told him we could not pay over $300 and he say if that is so he must quit. Tyler is a capital fellow, and if we had some office where we could afford to give him more I would be glad to help him, but it is all nonsense for us to agree to pay more than the whole rent, of the office. Can you send me operator at $300 per year or must I manufacture them here? Will you want Tyler at Jamestown when you get the sky. It done?

It will take me all this week to finish up my cops here, and all next week to get the line connection between Cleveland & Buffalo. I have as you know been close up for funds, and will have to shin close, to buy the hands, without buying for both on the old contract; but I am used to hard dodging & being dunned, & will fight on as long there is any chance left.

Yours truly J. Thomas
