Petition to the President was received  
on the afternoon of the 29<sup>th</sup>, for which  
I cannot feel too thankfull, Our Regt  
was then in the front and more  
mentarily expecting an attack from the  
enemy; I sent the document to a safe  
place in the rear by our Chaplain  
where it may be found should I  
live to make use of it -

The Army of the Potomac is at  
work at last, What is to be the  
result remains yet to be seen -

On the ~~morning~~ afternoon of 28<sup>th</sup> ult, our  
Corps moved, and quietly bivouacked  
for the night a short distance back  
of the River, opposite our crossing

at the Battle of the Rappahannock under Burnside - No fires were allowed to show our position or numbers - A little after dark I was summoned with the other Captains of our Regt to the Col<sup>l</sup> Quarters when and where we were informed, that our Brigade, (the 3d of the 1st Div. 8th Corps) were to cross the river under cover of darkness in Ponton Boats and if possible surprise, and drive the enemy from their rifle pits and maintain our position until a bridge could be thrown across and communication opened with the North bank - We lay down to sleep, and at 11 o'clock were roused up again and quietly and silently made our way to the river bank where the 15th Engineers assisted by Regts of Infantry had ~~providently~~ launched 50 Ponton Boats which were as speedily as possible filled with the 119<sup>th</sup> 49<sup>th</sup> & 95<sup>th</sup>

and 3d R<sup>t</sup> N.Y. Vol<sup>s</sup> - Our whole Brigade of 5 Regiments were to have been taken in the Boats at the first load but this was found impracticable and the 18<sup>th</sup> N.Y. were compelled to remain behind - The night was pitchy dark and although we could hear the noise and confusion of preparation on the opposite shore it was impossible to see what preparations were being made to receive us - It were easier to imagine than describe the feelings of the participants in this dangerous expedition, when at a given signal those 50 Pontons with their human freight, shot forward for the Northern shore - We were but a moment in crossing, yet that moment seemed an age, for none of doubted but they were effecting and ready to receive us with a volley that must inevitably send hundreds of our men home

W. C. Wykoff

May 1. 63

Not a shot was fired however until our foremost Boats had struck the shore - they then gave us a faint volley which was returned in a manner that sent back who had fired on the Bank back to their rifle pits in more than double quick, and out of these across the plain towards the hills in the rear at an increased rate of speed, if that were possible -

We were in line and commanded advancing at day break, and soon held a position as far inland as was desirable - Three bridges were thrown across and the remainder of our Brigade came to our support - They were evidently taken by surprise as our engineers have been dragging boats to and from the river at this for the last weeks and they did not attempt to cross in the manner we did - We have been effecting and preparing for an attack, without allowing them to advance on us - We have thrown up rifle pits the whole length of our line - Our Div, and our light Battery is the only force on this side of the river at this place - Our loss was very light - The 1st Corps crossed below at the same time after some fighting, and considerable loss - This is out a right Hooker with the main Army is passing around the right and is said to be meeting Lee's army - Yours affec W. C. Wykoff

In a note rec'd.

To day from Mr. Peters, he informs me that he has some talk of selling the whole of his Princeps stock to you. This information Mr. P gave me in consequence of a commission I have from Mr. Alexander of Ky. to exchange a young Duke bull 6 mos. or 18 mos. old for a Princeps. Mr. Alexander would expect a moderate amt. bonus, between the bull & cow. Or in case I could not make the exchange I was to price them & if I could get one that would suit me at a moderate price buy.

And in case you buy out Mr. A. would like to have you consider Mr. A. & if possible give him a chance, as he wishes to use one for some experiments.

Dear Sir

New York May 1<sup>st</sup> 1863

At the risk of too greatly taxing your patience by too frequent letters. I am disposed to drop you a line this evening, expressing my convictions respecting the stated affairs in our contemplated transportation project &c. A.B. will no doubt give you a better report than I can, but it will do no harm I trust if I add my say. The affair yet stands as when A.B. left Mr. Curtis left. The President of the Road Mr. Fory has gone to Shrewsbury for a few days, when he returns he calls Mr. Moore one to go to Pittsburg or wherever Chapman does the one to be found, & close up matters with them, if possible. If they do not arrange with them I believe it is contemplated to go ahead with our business the same as though Chapman were not here - or doing any business of the kind. You know the character of Mr. Curtis better than I do. I see he is very easily persuaded to other opinions or rather will very readily yield to them even if it be against his judgment. That throws the whole business upon Mr. Moore, how A.B. will probably give you his opinion of the latter gentleman He may be a very capable business man & one of the most honest & best men in the world - but I must frankly admit, that what I have seen makes me wish he was not to be in any way connected with us - & I am inclined to think Mr. Curtis's opinion is similar to mine. Robert Billings Chapman & Co think of him & Comstock, never having bounded them in reference to it. Well the object of all this & this, the are getting up contracts which are the most important part of the business & Mr. Moore assumes to himself

These enter into dictation, He dictates to Mr Chester even to  
his dissatisfaction, Mr Chester told me today he was ashamed of  
one that had already gone out, but David Moore would not  
let him alter it. <sup>The signature of the instrument is not much affected by his alteration</sup> Mr Moore made him alter the Cofpartnership  
agreement today against Mr Chester's opinion (I told  
Mr Chester to make it out as he thought best without reference to  
Mr Moore - This sort of stubborn dictation English  
style is ~~what~~ of the things I dislike in him, (I wish he was  
out of it. I can find a thousand times better men who has his wood,  
to pull with it.) Well. You as I understand have an interest in it  
as I stand now for ought I know I do not feel at liberty  
to say a word or do a thing, my name nowhere appears, nor  
even in the Cofpartnership. Nor do I know that it will do you  
any & have not the shade of a shadow of a privilege to say a  
word or make a suggestion. The whole business is left entirely  
with Moore - I do not consider him competent to write a  
Contract correctly judging <sup>from the</sup> effort he has already made  
therefore I think you better come & look to it as soon as you  
can. I hear you are intending to come in a few days. They are  
expected to know & all be here, the last of this week. When you  
come, make your arrangements to come directly to my house  
at Vanderbilt Landing Staten Island & stop with us while  
you are here - we will do the best we can with you  
& happy to do so, & shall be disappointed if you don't

Mr Chester thinks & I am of the same opinion,  
that we better form an association at once - for  
several reasons - & there seems to be no real obstacle  
in the way of doing so - Your liability objection can  
easily be arranged satisfactorily I think

Yrs W.H.P.

Mr Chester's objection to the contract is more on  
a/c of the wording ~~more~~ than the substance  
that although there were alterations he  
managed to get ~~in~~ the substance

Hon. E. Cornell,

My Dear Sir,

I have just rec'd yours  
(of yesterday I believe - the Col. now having it.)  
& thank you for your prompt kindness.  
It will be a great relief to George as well  
as to myself. I hope he will do a good  
business. He is assistant assessor & that  
will give him about \$1000 a year, & till  
his oil. business gives him full employ-  
ment. He has just been in & is sorrow-  
ful having just heard of the death of  
Gen'l Burn, who was his Regarder &  
good friend. As he has left the service  
with honor, not declining the service of  
his country, but remaining as long as  
required, I am gratified that he is at it &  
preparing to make a living in some

permanent business. His partner was one of his captives who had started the business & is very much devoted to him.

We have good news now from the war in every quarter.

I give you a statement as regards which I believe correct - (if not you will correct it) of our money & land matters.

Kennedy - (Interrupted & really don't know what I was going to say about him.)

As to our matters with the R.R. Co. I think you will recollect that it was your idea to not pursue the Rec's for the cent but to wait till the new ~~same~~ Co. had committed themselves by taking our line.

In this I am inclined to think you were right, for on looking at the Act of 1861 § 5 (L. 215,) I find the Co. is made liable for all acts & omissions of the Rec's.

I had forgotten this fact when I wrote you.

Eaton has since admitted that if the Rec's was liable, the R.R. Co. now is. But he claims

that neither the River or Rail way Co. ever took  
possession of the port from N. Y. to Newburgh  
& so is not liable for that port. This you &  
I will have to consider when we meet.  
In connection with this it is necessary to  
know what the contract of the old Co was  
with the N. Y. Albany & Buff. Tel. Co.  
I believe you are familiar with this.  
Curtis tells me that Stockholders have  
a right to examine the books of this  
Tel. Co. & if necessary for that purpose  
he will transfer some of his stock  
to me to give me that right.

In relation to the business here  
as to the Hans. Co. I don't know how  
well the parties are going to harmonize.  
I tell each one that he mustn't  
ask me to take sides between the par-  
ties for my influence with all may  
at some time be necessary to act - that  
I can't make the contracts for the par-  
ties but only put in shape what they  
agree on. I make an exception however

as to yourself, & insist that as you are  
not present & expect me to guard your  
interests I must have my own way  
so far as your interests are concerned.  
I am quite satisfied myself with the  
content for your petition - don't know  
how I could have made your money  
more secure. The agreement with  
the Rail Road companies I should  
have been glad to put in better shape,  
but tho' awkward I think the substance  
of what I would advise is in them.  
Leutis will have by the number of  
shares or interest which he holds for  
himself & others the absolute control  
of the firm & its business. I was a little  
timorous in getting the articles into  
this shape. As soon as finished &  
copies can be made I will forward  
them to you.

I congratulate you on your release  
from the labors of Albany, & <sup>expressing</sup> all the  
good things I hear of you.

Yours truly

Dear Ezra

You no doubt are looking for the promised report of the land in Ill. but I have been held here day after day by the sick boy and he does not seem any better yet. On Saturday morning last we all thought he would die in a few hours but he got quiet & went to sleep by noon.

His grandmother Robinson is here & he has the best of care, and it seems to occupy all my time in chores & running of errands.

I have my passes over the R.R. & have been ready to go ever since I wrote

you, but our folks did  
not want me to leave  
while the boy was so sick.

I suppose you are anxious  
to get this trade consummated  
before you leave for Europe  
and I wish to render all the  
assistance I can, and I wish  
you would write and let  
me know whether there is  
time to accomplish the  
business before you leave.

If you wish me to go immed-  
ately I will start on the  
receipt of your letter.

The weather is cold and  
stormy. Rain & snow in  
alternate layers come on  
thick & fast, but the fruit  
is not in blossom yet &  
will not be injured by the

cold, blasting, north east  
winds which prevail.

All our friends are well  
as far as I know.

We have letters every week  
from Robinson who is very  
anxious to know the fate of  
his boy. He is in the front  
of Rosecrans army beyond  
Murfreesboro and has rec'd  
his commission of first Lieut.  
of Co. H. 21<sup>st</sup> Reg. but as the  
Reg. is short of officers, he has  
been transferred to the command  
of Co. C. whose Capt was killed  
in the battle of stone River  
He will undoubtedly have a  
Capt. commission shortly  
if he survives the next battle  
which they hourly expect

Please step in to the

shop of Goodrich & Beers  
and see what progress  
they are making with  
the tombstones. They were  
to forward here for our  
family. I have the granite  
base in the yard already  
for the marble to be placed  
on it and would like  
to have them forward them  
along as soon as convenient.  
I have been to Marshall  
to take judgment of \$2000.  
on the Mumbrue Mortgage  
and shall advertise to sell  
in September. Wheat & grass  
never looked better at this  
season of year than it does  
here now. Trade is quite  
brisk & plenty of money.

## To the People of the State of New-York:

The undersigned, a Committee of members of the Loyal League, appointed at a mass meeting of the loyal people of the City of New-York, held at Madison Square, in said city, on the 20th day of April, 1863, do hereby, in pursuance of authority then vested in them, call a MASS ASSEMBLAGE of the loyal citizens of the State of New-York, to be held at Utica, in the county of Oneida, on the 27th day of May instant, at 10 o'clock in the forenoon.

They invite all the Loyal Leagues organized in any part of the State, to send to said assemblage delegates as many in number as they may find convenient; and they also invite all loyal citizens, without regard to past political divisions, or to present differences of opinion upon party questions, to attend this assemblage of the People of the State, for the purpose of manifesting to our country and the world, their fixed determination to sustain the Government in prosecuting the war which it is compelled to wage in its own defence, against a groundless and wicked rebellion, and to put forth any efforts, and submit to any sacrifices, which may be necessary to destroy the military power arrayed against the Government of the United States, to release the people of the South from the armed tyranny under which they are held, and to preserve the territorial integrity of the American Union, the full authority of the Constitution, and the unquestioned supremacy of the National Flag.

The undersigned will announce hereafter the names of distinguished speakers whose attendance they may be able to secure, and such other arrangements as may be made for the complete attainment of the patriotic objects for which this assemblage is to be held.

Elonell my

Spw.

Enclosed find 2 shares of the  
O & I stock which I purchased for you  
at \$5 per share. If you come to the Convention  
in June we can settle the matter if not let it  
go until convenient season offers. Don't fail to  
come. If you do come let me know a  
week before so I can obtain rooms for you.

Yours truly  
Almon Cobb

P.S.

Please have alongo send me a copy of the  
letter he received from Mr Elwood about the  
time I was Albany which gives the amount of  
stock dividends etc there was due on his stock  
that he had of coming. The share you are getting  
reissued for me calls for the same amount  
exactly as Mr Elwood told me so. Weather  
is fine. Farmers are getting their crops in finely.  
Telegraphing is good.

E. Cornell &  
Deafis,

We have your  
letter of the 12<sup>th</sup> instant in relation to  
Owarzco lands at Port Huron - The  
Censal Commissioners have appropriated  
the Water temporarily because they  
are without authority to do more at  
present, but they inform us they  
expect to make the appropriation  
permanent hereafter - We therefore  
do not think it would be good faith  
on our Part to sell the premises to  
another Party -

Respectfully Yours

Hon Ezra Cornell  
Dear Sir

I write you in relation  
a bill that I oppose  
to become law last  
winter, before your  
Honorable Committee,  
whether this bill has  
passed Both houses or  
not, and I am  
anxious to know because  
we have making preparation  
to hold fair at our place  
in next fall, and  
I hope you give me  
all particular facts  
if it was amended  
a bill, your letter

To Ezra Cornell

My Dear Sir

I delivered the blanks for taking the agricultural statistics of Clinton personally as far as practicable to gentlemen who I thought would take an interest in the Matter and in other cases I sent them requesting that they be filled out and returned without delay. I think it was an oversight that some other person was not selected to attend to this Matter as I am not a farmer having less than fifty Acres of land and engaged the most of the time mechanical business. But anything that I do towards securing the returns from the delinquent districts will be chearfully performed.

Yours with respect

Dear Sir

A report and other matter furnished by Kivas Tully Engineer of Toronto who has surveyed the route for canal between this and Lake Huron, is now in the hands of the Govt and will soon be printed. Mr Tully promises to procure me an early copy which I will forward to you. Mr Tully says that you will be able to get a good deal of information in Chicago from Mr Gross of the Chicago Tribune who Mr Tully thinks has some old documents in relation to the matter.

Enclose pass from Buoy & Docks and return the return pass I have not dated for fear it might be out of date before you would require it.

With best respects

I am truly

Yours of the 15th  
is at hand, and I must  
acknowledge I have been  
rather negligent in not informing  
you of the receipt of the Draft,  
but I was doing some work  
at the time and was thinking  
of sending back part of it  
so that I did not write, <sup>Thirty</sup>  
Enclosed you will find ~~the~~  
three dollars and 63 cents, for  
which please give me credit,  
I am not certain but I think  
it will reduce it to \$109.  
I have forgot how much the  
~~time~~ interest on the \$50.00 was,  
I will endeavor to pay it  
up as fast as I can,

we are alone now, Sophie  
returned to Madison last  
week, business promises to  
be good this summer,

Very desparately

order

We shipped  
you today 1 Subsoil plow  
which we hope will  
give entire satisfaction.  
It is from a Troy pattern.  
Also 1 Sod Hill & level  
land plow which we  
wish you to have tried  
on either Sod Hill or  
flat land. They give  
the best satisfaction  
here of any tool we  
ever offered.

We send extra castings  
to fit either plow, & hope  
for further orders.

Yours truly

Hon E. Cornell

Dear Sir

Your favor of the 15<sup>th</sup> inst inclosing  
your Photograph I have  
received for which I  
concernedly thank you and  
I return you mine herewith  
as requested

There was many things  
that were gratifying and  
some to regret of the last  
Session -

On most things I believe  
you and I thought and  
acted alike, and in all  
those things I feel entirely  
sure that my action was  
right. I could not vote  
with you against the

leology bill. because first  
I differed with you in  
opinion as to the propriety  
and justice of the bill and  
secondly, the people  
of my District I believe to  
be entirely unanimous  
in favor of the bill

I never however  
felt any personal interest  
in it - And while I do  
not desire the Governor  
to Veto it I am quite  
willing he should as I  
fully believe he will

Should he do it I am  
of opinion you will  
find the next Legislature  
~~making the same~~  
desposition of the Law  
that we made of it

I am very truly yours
