We enquired the price of heifers in two parcels and he named 100 £ in each case. They were 2 year old heifers in calf one to which he fixed said price was water Girl by Oxford Duke. She is roan straight horns that pitch down a little a very good heifer - in calf by Oxford the roan bull that we saw at the barn.

Crops looked better on this place than we have seen else where. Estate belonged to Lady Fim - she has a son of 22 that keeps 5 hunters, and hunts himself - is fixing a cover to breed foxes.

Aug 26. 62 I called this morning at
Bolton Lodge to see Mr Knowles, the agent
of Capt Ginter, respecting a Dutchess Bull
he asked 1500 Guineas for the Bull

calf dropped in from last by Dutchess 73, and
by 7th Duke of York, and the roan heifer
calf from Dutchess 80 by 8th Duke by the
7th Duke of York,

I offered for those two calves, \$3,000
cash, and to sell him all the male
produce from them at \$1,000 each
until he had got ten bulls from
them, Knowles promised to com-
municate with the Capt and write
me further on the subject,

By the above proposition he was
to deliver the calves for shipment
next May, and I was to deliver
the male produce to him at any
time before a year old that he order-
ed, I thought the above proposition
made a favorable impression on
