Material is ready for dispatch. We will arrange it to be sent immediately. Negotiations are still pending export permit chrome.

Mail Intercepts

From: Fritz Schreiber
Thalwil, Switzerland
11/6/45

To: Dir. Herbert Gruenfeld
c/o London & Schandinavian
Metallurgical Co., Ltd.

Writer states that he has just returned from Porto where he was introduced to Engineer August Hauser. Hauser explained to writer that he was anxious to see Portuguese Wolfram mines taken over again by their former owners and requested him to get in touch with addressee and Dr. Nilson in Stockholm. Write having meanwhile found out that Nilson had retired and was not interested now invites addressee, as one likely to be interested, to communicate directly with Hauser. By way of explanation writer adds that Hauser is a Swiss citizen, but born in Germany and that his father still lives there.

Note: Nilson was formerly director of A. B. Ferrolegeringer, Stockholm.

From: Dr. Hans Grelling
Schlossam Mythenquai
Zurich, 11/6/45

To: Herbert Gruenfeld
c/o London & Scandinavian
Metallurgical Co., Ltd.,
5 Lauriston Road, London

Today I received the visit of Mr. Fritz Schreiber, dipl. ing. Thalwil a. Landstrasse 141, so far unknown to me, who just arrived from Porto where he attended the sample fair. By a very old friend of his, Mr. Brummer, of Swiss citizenship, he had been introduced to Mr. August Hauser who has a leading position at the Emisa Co. Porto. Hauser is also a Swiss citizen, who has been educated and lived most of the time in Germany, where his father apparently was manager of a company.

SECRET

- 10 -

The Emisa Co. seems to be an emanation of Gesellschaft fuer Elektrometallurgie, Berlin, for which they apparently hold large assets amounting to about 30,000,000 Rmk. Hauser knowing (as far as I could guess rather in a vague sort) that the German company had been robbed from the rightful owners had tried already to get in touch with Mr. Nilson in Stockholm however without success. Knowing Krakenberger's and my name and address he has asked Mr. Schreiber to get in touch with us. Hauser according to what Schreiber explained to me, seems to be willing to cooperate loyally with the rightful owners for the restitution of the robbed. I told Schreiber that we have nothing to do with the proceedings in this matter which is attended to by your good selves. I gave Schreiber your address so that he may inform Mr. Hauser accordingly. The address of Mr. Hauser is: Loz do Douro, Near Porto, Avenida Marechal Gomez da Costa 155.
