

24 October 1945

MEMORANDUM to All Section Chiefs
FROM Commander Donovan
SUBJECT Presentation Work

1. Personnel and time limitations are such that it is imperative that we determine as soon as possible the amount of visual presentation to be used at the trial. This includes all charts, graphs, maps, models, etc.

2. In view of the recent reorganization, we ask that each Section designate one man, familiar with all aspects of the work of the Section, who will be responsible for

- (a) acquainting himself with the work already done or planned, and
- (b) determining any further visual presentation work which the particular Section believes to be necessary in the proper presentation of its case, and
- (c) arranging to work along with Presentation on any work undertaken.

Mr. David Zablodowsky (Room 141) is Chief of Presentation Branch and available for consultation on the above.

3. Coordination of Presentation Branch work is under Lt. George Demas, USNR, Executive Officer of this Division, who will present to the Board of Review the entire program planned with the Sections, for final determination of policy by the Board. Progress reports to the Board thereafter will be periodically made.
