MEMORANDUM FOR: Mr. Justice Jackson

Subject : Integration of Documentation Division
and London Evidence and Analysis
Section.

1. Confirming my brief conversation with you this morning concerning the joint report of Colonel Wheeler and myself, dated 14 September 1945, Colonel Wheeler had started preparation of the charts referred to in the memorandum but could not finish them on account of sickness. Hence, it was decided to deliver the two originals to you and not to undertake a reproduction until you had an opportunity to consider them. Therefore, the others on the distribution will not receive copies of the charts but only copies of the two memoranda.

2. The main question for solution is how the members of our "Projects" Branch who are working upon trial briefs, and the various staff members under the committees who are doing similar work, may be integrated. Colonel Wheeler has outlined the entire problem in his separate memorandum.

3. Other evidence briefs, similar to the one delivered to you this morning on "Einsatzstab Rosenberg", will be distributed after tomorrow.

RGS
Robert G. Storey
Chief
Documentation Division
