Accession List I.

OFFICE OF U. S. CHIEF OF COUNSEL
APO 493, U. S. ARMY

PARTIAL LIST OF GERMAN PUBLICATIONS IN
LIBRARY, DOCUMENTATION DIVISION

28 August 1945

1. This is a tentative listing based upon a hasty and tentative screening of thousands of volumes. Publications are ordinarily listed under the principal topics to which they apply. However, due to the overlapping nature of the subject matter the choice of topic is often entirely arbitrary. For example, the divisions on "Party and State", "Law and Government", and "General Collections" contain materials bearing on almost every aspect of the case.

2. Some of the volumes listed have no value whatsoever as evidence. Most of these, however, may be useful as background material and for obtaining leads to evidence which can be qualified. Interested staff members may find equally or more pertinent publications among unlisted volumes.

3. From time to time it is planned to issue supplements to or revisions of this accession list when additional publications are obtained or upon more refined screening of publications on hand.
