MEMORANDUM

SUBJECT: Certified OCC Translations of Decrees
from the Reichsgesetzblatt

TO: All Staff Members

The tables on the following pages show the decrees from the Reichsgesetzblatt (RGBL.) of which certified translations have been made or are in process of being made, as of 17 October 1945. Except for "PS" numbers above 2000, copies of most of these translations are now available in the Document Room (305). Most of those numbered above 2000-PS should be available by the end of next week. A card index on all certified translations of German publications of all kinds is being maintained in the Document Room (305). It should be consulted before requests for further translations of decrees or other published materials are initiated.
