

Nuremberg, 28 November 1945

My dear Dr. Glebb,

Thanks for your very striking analysis of the statement of the German generals.

I think with you that the statement is an indictment - not only of their ineptitude, but of their lack of ethical sense. For that reason it was worth having them commit themselves in writing. I would appreciate receiving certain of your other studies on the Wehrmacht.

Sincerely,

W.J.D.

TO: Dr. Jay V. Glebb
