

Jenner Lounge

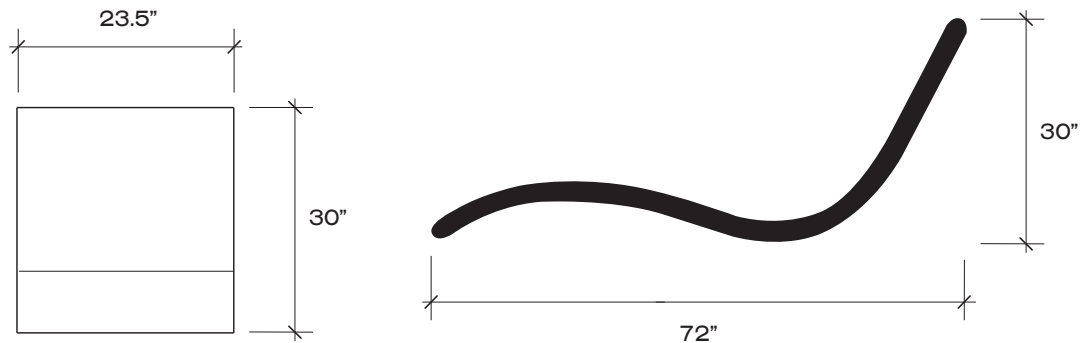

The Jenner Lounge with its gently curving concrete plane defies its mass in a graceful, eye-catching form. Drawing ergonomic support from its carefully studied proportions, the lounge offers incredible comfort in a timeless design.

Approximately 400 lbs, every steel reinforced lounge is hand-cast from specialty concrete that is resistant to staining and suitable for indoor and outdoor use year around. Available in our standard colors. Lead time 4-6 weeks. Contact us for more detailed product information and pricing.
