To Whom It May Concern:

The Choctaw Nation of Oklahoma supports the recent collaboration between Schoolware, Inc. and Oklahoma State University. Pooling the talent and resources of these two entities will ensure the development of a quality product.

We in the Choctaw Nation Education Department are very familiar with the high standards and quality of Schoolware products. We have worked personally with Kathy Robinson, CEO of Schoolware, to match products to specific needs within our department.

Most recently, the Choctaw Nation purchased '*A Matter of Facts*' math program for Jones Academy (a Choctaw Nation operated residential school) and look forward to seeing the benefits our students will receive from using it.

Schoolware also developed a curriculum for an early childhood language preservation program which is still used by the Choctaw Nation. This curriculum has been used for the past three years by our Head Start students.

We agree to participate in the feasibility study conducted by Schoolware, Inc. and Oklahoma State University's research and development team.

Sincerely,

A handwritten signature in cursive script that reads "Joy Culbreath".

Joy Culbreath  
Executive Education Director
