To whom it may concern:

The Choctaw Language Department has had the opportunity to collaborate with Schoolware, Inc. We are in the infancy of creating the Choctaw Language program to meet the needs of our people. Schoolware has been most helpful in the development and implementation of the instruction material. They are both socially and culturally correct for native peoples.

As an indigenous people, we always are concerned with the development of materials that portray a Native American context and sensitivity to the native learner. Schoolware has always been an active facilitator at helping us achieve those goals.

Sincerely,
