

At Regional Health Care Network

find out about the Network offered benefits for qualified applicants that are free of charge and are in addition to your community college training. These benefits include additional training in privacy and security, network management, hands on training in an electronic medical records brand used widely in Alabama, telehealth training, federal “Meaningful Use” training, HIT Certification exam fee reimbursement, and onsite in a medical operation experience followed by placement assistance. Qualified candidates may also be eligible to have their travel expenses for this additional training reimbursed.
