

Health IT Workforce Training Program

REGIONAL HEALTH CARE
NETWORK

Administered through Central Alabama Community College & Gadsden State Community College

Health IT Workforce Training—Available Now!

Regional Health Care Network, the University of Alabama at Birmingham, Central Alabama Community College and Gadsden State Community College have teamed up to make an exciting new career path in Health Information Technology (HIT) available to Alabamians this Spring. Health Information Technology support is a rapid growth vital job sector. Our mission is to introduce well trained individuals in the HIT field in support of rural healthcare providers with hands on experience and placement assistance.

Candidates:

- * High School Students
- * Veterans
- * Current HealthCare Employees needing additional training
- * Displaced Workers

Workforce roles will include the Management of Electronic Health Records (EHR), in order to:

- Determine, assess and problem solve EHR connectivity issues
- Represent clinic support needs to EHR vendor and contract IT support
- Management of installation, maintenance, updates/enhancements to EHR system
- Manage and align efforts between IT support and EHR Vendors
- Coordinate Meaningful Use activities
- Coordinate Privacy and Security activities

At Regional Health Care Network

find out about the Network offered benefits for qualified applicants that are free of charge and are in addition to your community college training. These benefits include additional training in privacy and security, network management, hands on training in an electronic medical records brand used widely in Alabama, telehealth training, federal "Meaningful Use" training, HIT Certification exam fee reimbursement, and onsite in a medical operation experience followed by placement assistance. Qualified candidates may also be eligible to have their travel expenses for this additional training reimbursed.

Educational Opportunities include:

- Associate degree program
- Online certification program
- Certificate Programs
