Print design
Graphic Design

Drawing
Animation
Sewing
Soft Sculpture
Silkscreening

Freelance Flash designer, graphic designer and illustrator. Strong actionscript skills and interactivity experience. I've been using Illustrator and Photoshop since versions 6.0 and 3.0, respectively, and I am very competent with both. I began using Flash as a way to animate my illustrations, and fell in love with Flash and OOP (object oriented programming). I am now currently working as a professional Flash designer for WebMD.

{Employment History}

//-----Medsite/WebMD
(2006-present)

Flash Designer

Working from vector storyboards, I create dynamic interactive programs (iDetails) aimed at educating doctors and other health care providers. Also create banner ads, infosites and iTeach programs.

Skills used: Flash, Actionscript, Illustrator, Quark, Photoshop, HTML, CSS, Javascript
