Experience

Executive Director, Creative Coordinator at Access Granted, Inc.

March 2003 -Present (4 years 10 months)

Owner, Executive Director, Creative Coordinator

-Created multi-tiered scalable Infrastructure implementation system that allows local, bioregional, and global connectivity to be achieved through individual tools, community resources, and coordination centers.

-Developed massive International Network of Agents. Researched many cities across NorthAmerica for facility installation. Built network of skilled administrators and potential employees.

-Developed fully functional 60 page business plan complete with graphical introduction, informational tour, budget for startup, first year, and monthly development, income projections, profit/loss graphs, component services, equipment specifications, educational administration and implementation, corporate expansion, and symbiotic relationships.

-Designed and implemented online website with integrated animations, marketplace, Agent Network, and 3D animations of a potential building design for the Access Granted facilities.

Business Development Consultant, Creative Designer & Web Developer at JBA Network

June 2005 -August 2007 (2 years 3 months)

Business Development Consultant, Creative Designer & Web Developer

-Worked intensively with the Executive Director of this International Network to envision possible routes of future development and growth. Also played significant role in design and development of the new Jukebox Alive Global Musician Network.

-Coordinated many different web design projects for different clients, created initial design formats, converted these formats to interactive web pages, added dynamic animations, and worked with several web programmers for additional backend applications.
