Dear support group!

We are really appreciated all efforts you were putting in to this programme and "Gilead house" in order to build strong recovery of families and lifes (spiritually + emotionally). May God richly bless you all in work of your hands and that you would eat the fruit of it.

With best regards - Gavrilova's family.

To the support group for my family,

I wanted to thank everyone who helps my family. We appreciate everything you do for us. We have a beautiful home where we can be a family. Everything that we have right now is because of your kind and caring hearts. It means so much to me to know that there are people who want me to succeed and will do whatever they can to help me. You take time out of your lives to care about me and my family. It's rare to find someone who cares about someone else, so we are truly blessed to have you looking out for our well being. I have gained my self-esteem and self confidence while being in this program. Each one of you I have to thank because you help make this program possible. I hope God blesses each one of your lives as you have blessed ours. Thanks so much for everything.
