

INTRODUCING OUR **2016 SOFTWARE**

FLIP OVER FOR
INSTALLATION INSTRUCTIONS

INSTALLING YOUR SOFTWARE

- 1 If you received a Vectorworks 2016 download link, double-click the .zip file to extract files. Otherwise, insert the installation DVD.
- 2 Double-click the Vectorworks 2016 installer icon.
- 3 Click "**Next**" to begin the installation process.
- 4 Enter your serial number, name, company name, and click "**Next**."
- 5 Select "I accept the agreement" and click "**Next**."
- 6 Review the ReadMe and click "**Next**."
- 7 Select a directory for installation, and click "**Next**."
- 8 Click "**Next**" to begin the installation.
- 9 When the installation completes, choose whether to download and install content libraries and/or register your copy of Vectorworks Software after installation.*
- 10 Click "**Finish**" to exit the installer.
- 11 If you selected to register your software, complete the registration form that opens in your browser.
- 12 If you selected to download and install content libraries, the Vectorworks Package Manager opens for you to select the desired libraries. Installing all libraries in all product packages simultaneously may take a substantial amount of time.
- 13 If you have a dongle, insert it into your USB port before launching Vectorworks software. If you do not have a dongle, the first time you launch the application, you will be prompted to activate the software by clicking "**Activate**."

* An Internet connection is required to register Vectorworks 2016, install content libraries, and activate your software.
