### AGENDA

### DOWNTOWN DEVELOPMENT AUTHORITY

### **Board Members:**

Mayor Rosalynn Bliss • Kayem Dunn • Jermale Eddie • Dr. Wendy Falb Jane Gietzen • Brian Harris • Diana Sieger • Jim Talen • Rick Winn

Wednesday, June 14, 2017 8:00 a.m. Meeting 29 Pearl Street, NW Suite #1

1. Call to order

2.	Approve Meeting Minutes from May 10, 2017 (8:01) (enclosure)		Harris
3.	Accept May 31, 2017 Financial Statements (8:04) (enclosure)	Motion	Wallace
4.	Adopt FY18 DDA Budgets and Priority Plans (8:09) (enclosure)	Motion	Wallace / Larson
5.	Authorize Funding for Lyon Square Design Development (8:16) (enclosure)	Motion	DeClercq / Larson
6.	Consent to OPRE for 840 Ottawa Ave. (8:31) (enclosure)	Motion	Kelly
7.	Consent to Liquor License for 118 Fulton (8:41) (enclosure)	Motion	Kelly
8.	President & CEO Report (8:46)	Info Item	Larson
9.	Public Comment (8:51)		

10. Board Member Discussion (8:54)

11. Adjournment

### MEETING OF THE DOWNTOWN DEVELOPMENT AUTHORITY

### May 10, 2017

### 1. <u>Call to Order</u> – The meeting was called to order at 8:04am

2. <u>Attendance</u>

<u>Present</u>: Mayor Rosalynn Bliss, Kayem Dunn, Jermale Eddie, Dr. Wendy Falb, Jane Gietzen, Diana Sieger, Jim Talen, Rick Winn

Absent: Brian Harris

<u>Others Present</u>: Kristopher Larson (Executive Director), Murphy Ackerman (DDA Executive Assistant), Jana Wallace (DDA Treasurer), Jennie Schumacher, Tim Kelly, Andy Guy, Kim Van Driel, Annamarie Buller (DDA Staff), Melvin Eledge, Christian Gaines, Breese Stam

# <u>Approve Meeting Minutes from April 12, 2017</u> Motion: Diana Sieger, supported by Mayor Rosalynn Bliss moved approval of the minutes from the April 12, 2017 meeting as presented. Motion carried unanimously.

### 4. Accept April 30, 2017 Financial Statements

Ms. Wallace introduced the financials for April 30 and warrants for both March and April. Ms. Wallace noted that there was a high level of activity for two months of statements with the bond proceeds being the largest item on the warrant. Ms. Wallace noted that while a few items are under or slightly over budget, they are still within the appropriation authority as the end of fiscal year approaches.

Jane Gietzen, supported by Diana Sieger, moved to approve Statement D: Schedule of April 30, 2017 Expenditures as recommended. Motion carried unanimously.

5. <u>Authorize Funding for Intersection Improvements</u>

Mr. Kelly explained that the intersection improvements at Fulton and Sheldon are a precursor to larger project, and subsequent funding request, that will be back before the Board in FY18. Mr. Kelly said in recognition of the new development in this area, this project would provide pedestrian improvements to the intersection. The funding would be primarily for undergrounding utility work. Mr. Kelly said this is an opportune time to complete this work as the street is currently torn up. Mr. Talen asked if this would eliminate the on-street parking. Mr. Kelly said a few spaces would be lost, but the biggest change would be Sheldon being converted to a two-way. Mr. Stam clarified that only the parking on the edges of the island would be lost as the street is narrowed to accommodate wider sidewalks. Mayor Bliss asked if street trees would be added. Mr. Stam said yes. Mr. Kelly said this plan is a recommendation from GR Forward, and the engineering department has worked with the neighbors to ensure that this is a plan that would be amenable to all. Mr. Kelly noted that the current ask before the Board is only the intersection improvements and the removal of any parking spaces or additional improvements will require approval from this Board in the future.

Motion: Dr. Falb, supported by Jane Gietzen, moved to approve the funding in an amount not to exceed \$48,000 for pedestrian safety enhancements at the intersection of Fulton Street and Sheldon Avenue. Motion carried unanimously.

### 6. <u>Recommend FY18 DDA Budgets and Priority Plans</u>

Mr. Larson gave an overview of the FY18 budget and priority plans. Mr. Larson reminded the Board of the budget process year to year. Mr. Larson said the Alliances began narrowing their lists of projects and priorities in February and each have given their approval of their budgets. Mr. Larson noted that should the Board approve the budget, it will go before City Commission for adoption prior to the June DDA meeting. At that time, the Board will then be asked to adopt the budget. Mr. Larson said citizens participated in identifying and prioritizing 99.2% in discretionary investments and 95% of discretionary funds are directly related to GR Forward projects. Ms. Gietzen asked how the fund balance is tracked. Ms. Wallace said it was derived from FY17 estimates. Mr. Larson said for an organization of our size, we are very lean in administration costs. Mr. Larson said with the proposed realignment of the citizen engagement groups, the next year will be a bridge year moving from the Alliance model to the GR Forward model. Mr. Larson gave an overview of the Alliance for Livability projects, including: support for affordable housing, expansion of the tree canopy, bush shelters for the DASH system, outdoor fitness equipment, murals, and a pilot bike lane on Ionia. Mr. Kelly gave an overview of the Alliance of Investment projects, including: the continuation of various incentive programs, planning for Switchback Park, the design phase and possible construction documents for Lyon Square, river trail guidelines, festoon lighting on Ionia, additional amenities on Division Ave, additional pedestrian counters, possible Area 4 and 5 land disposition and piazza design, as well as many others. Ms. Sieger asked for an update on Areas 4 and 5. Mr. Larson said there is a draft development agreement and there will be more clarity either way in the next few months or the DDA can choose to terminate the agreement. Mr. Talen asked if there is any progress on the removing of the Post Office. Mayor Bliss said there are conversations to assess the opportunity for it to be moved. Ms. Van Driel gave an overview of projects identified by the Alliance for Vibrancy, including: the continuation of the Event Management Program, creation of winter time activities and events, continued support of Rosa Parks Circle ice skating, support for cultural heritage events, growing the Relax at Rosa events, more support of food truck events, downtown fitness programs, and additional urban recreation programs. Mayor Bliss asked who DGRI partners with on urban recreation programming. Ms. Van Driel said primarily the City, but has worked with other organizations as well. Mayor Bliss said the downtown YMCA is eager to work in this space and thinks it could be a good partnership. Mayor Bliss said she would also like to see more seating at Calder Plaza in the interim for those partaking in 'Truckin' Tuesdays'. Mr. Larson said staff will work to provide immediate interventions. Mr. Winn said that while Mr. Harris could not be present for today's meeting, he has expressed his support for the budget. Ms. Gietzen asked what the barriers on the bus shelters are. Mr. Larson said there is concern that this is not only a Downtown/DASH system issue, and the City is sensitive to addressing the citywide issue. Mr. Talen said he is happy to see the public restroom for Heartside included in the budget. Mr. Larson said it remains an organizational priority as we work towards a solution for the management of the facility.

Motion: Kayem Dunn, supported by Jane Gietzen, moved to recommend the FY18 Budget Summary to the Grand Rapids City commission and request fund appropriation. Motion carried unanimously.

### 7. <u>Approve 3-Year Support Agreement with ArtPrize</u>

Mr. Larson said over the years DGRI has amended its relationship with ArtPrize to reflect the evolution of the event and the changes in community priorities. Mr. Larson said this proposal will allow DGRI to help fund a stipend for minority owned artists looking to participate, fund four (4) large public art projects, and help to activate empty store fronts with welcoming messages to visitors. Mr.

Larson said this is a departure from how we normally support events, but commends ArtPrize on their ability and desire to evolve. Ms. Gietzen asked if ArtPrize has received any feedback about the lack of diversity and inclusion for the event. Mr. Gaines said it has been a response that ArtPrize has heard from the community, and they are committed to working with organizations such as DGRI to address these issues. Mr. Gaines noted one of the largest participation blocks for minorities has been the cost, and with this support, ArtPrize can offer stipends to overcome that hurdle. Ms. Dunn asked how success will be measured with this program. Mr. Gaines said the responses will be tracked year over year from artists of color as well as the number of applications for these grants. Mr. Winn asked if there is a benchmark that the organization is starting from. Mr. Gaines said there is a baseline for the demographics and will be looking to grow these numbers. Mr. Eddie said he is excited to see SiteLab using the building on Franklin, and asked if there is a possibility of having the bus stop, located across the street, used as a park and ride. Mr. Eddie noted having a park and ride in a neighborhood of color could help to encourage visiting downtown. Mr. Gaines said he is excited to bring that idea to the organization. Mr. Larson said he will also follow up with the Rapid to see the possibility.

Motion: Mayor Bliss, supported by Kayem Dunn, moved to approve Major Event Sponsorship to ArtPrize 9-11 in the amount of \$50,000 per year over 3 years, and authorize the Executive Director to enter into an agreement consistent with the attached proposal and approved in form by legal counsel. Motion carried unanimously.

### 8. <u>President & CEO Report</u>

### <u>DDA 4/12/17</u>

- Approved \$180,000 for pedestrian improvements and lighting enhancements for Michigan St.
- Approved \$20,000 to support mural project

### <u>DID 5/15/17</u>

- Will consider FY18 Budget
- Will receive update on spring plantings

### MNTIFA (5/10/17)

- Will receive audit presentation
- Will consider FY18 Budget

### DGRI (4/18/17)

- Approved updated inter-organizational term sheet with City
- Receive presentation from VoiceGR Survey
- Reviewed DGRI Performance Indicator Methodology
- Approved Alliance 2.1 model

### <u>Alliances:</u> INVESTMENT (5/9)

- Chair: Nikos Monoyios, Long Range Planner @ The Rapid
- Will consider pedestrian crossing improvement at Wealthy / Cass Sts.

VIBRANCY (3/14)

- Chair Brandy Moeller, City of Grand Rapids
- Planning for Food Truck Rally event in May, 2017
- 2<sup>nd</sup> look at Alliance 2.0 engagement model

### LIVABILITY (3/27)

- Chair: Lynee Wells, Principal @ Williams & Works Working Group Discussions
- Reviewed FY18 budget recommendations
- Approved proposed Alliance 2.0 engagement model

### DGRI Staff Highlights

### Events / Marketing / Communications / Engagement

- Held Women in City Building Event Mar 30<sup>th</sup> packed room ~600 online streams of video
- Completed first GR Forward update video 25,886 views March 8 April 18
- Downtown Residents Network Mix, Mingle, and Share April 26<sup>th</sup> @ EVE at the BOB
- Held first Relax at Rosa May 4, 2017 19 to go!
- DGRI Hosting Latino Community Coalition May 11, 2017 @ LINC
- MITP 2017 series launch Week of May 15, 2017
- Planning for Rollin'Out Food Truck event May 21, 2017
- SAVE THE DATE: State of the Downtown July 13th at 5:30 PM!

### <u>Planning / Development</u>

- Partnered with GR Chamber and Mobile GR on Parking-Cash out training program for employers held 4/19 @ 11 AM at Start Garden. 30 RSVPs received.
- Participating with City of Grand Rapids in 201 Market RFQ reviews
- Daniel Rose Fellowship:
  - Hosted Grand Rapids Study Visit Mar 20-23 for Daniel Rose Fellowship.
  - Project page available on the website. Follow-up engagement opportunity currently underway.
  - o KL attended Anchorage Study Visit Apr 3-7
  - o Fellowship Team presented a mid-year fellowship in Seattle Tuesday, May 2nd
- IDA Value of Downtowns Planning to incorporate findings in State of Downtown program
- Transformational Brownfield (MIThrive) approved in House to the Senate this week for concurrence then to the Governor's office.
- 9. <u>Public Comment</u> None
- 10. <u>Board Member Discussion</u> None

### 11.

<u>Adjournment</u> The meeting adjourned at 9:42am

Agenda Item 3. June 14, 2017 DDA Meeting

DATE: June 8, 2017

TO: Brian Harris Chairman

FROM: Jana M. Wallace Downtown Development Authority Treasurer

### SUBJECT: FY2017 Interim Financial Statements as of May 31, 2017

Attached are the DDA's interim financial statements for the first eleven months of the fiscal year ending June 30, 2017. The attached statements include:

Statement A: Balance Sheet
Statement B: Comparison of FY2017 Budget vs Actual Results
Statement C: Statement of Project Expenditures
Statement D: Schedule of May, 2017 Expenditures
Statement E: DDA Series 2017 Bond "New Money" Proceeds Statements

On Statement A, the "Pooled Cash and Investments," ("Cash") in the Debt Increment Fund column has a negative balance. From FY1997 through FY2007, the DDA annually experienced negative Cash balances at year-end after the May 1 and June 1 principal and interest payments were issued. The negative Cash and "Reserve for Eligible Obligations," balances as of May 31, 2017 are offset by funds in the "Debt Service Reserve - Series 1994" line items.

Currently the DDA is not expected to exceed its FY2017 appropriation authority and has sufficient cash to support budgeted expenditures.

Please contact me at 616-456-4514 or jwallace@grcity.us if you have any questions.

TOTAL EXPENDITURES	\$ 3,285,648	\$	765,116	\$ 36,925,114	. :	\$ 36,252,380	\$	7,547,350	\$ 4,335,795
EXCESS / (DEFICIT)	\$-	\$	(245,861)	\$-	9	\$ 141,875	\$	-	\$ 999,361

Note 1: Each year-end the City Treasurer accrues large amounts of interest revenues resulting from multiple year investments. These large accruals are then reversed in the next fiscal year, which results in negative interest revenues each month for much the following fiscal year. To indicate actual current year interest revenues, this negative revenue line item is the FY2016 accrual reversal.

## MEMORANDUM

DOWNTOWN DEVELOPMENT AUTHORITY

Agenda Item #4

June 14, 2017 DDA Meeting

DATE: June 8, 2017

TO: Downtown Development Authority

FROM:

Kristopher Larson President & CEO

SUBJECT: FY18 Budget and Priority Plan

6/8 Update:

At its meeting on May 27, 2017, the Grand Rapids City Commission unanimously approved the FY18 DDA budgets as recommended by the DDA Board on May 10, 2017. Included with this document is a combined budget summary which provides the DDA with bottom-line authorization to proceed with its priorities planned for fiscal year beginning July 1, 2017.

Each year, the DDA recommends and adopts a one-year budget and 5-year priority plan to reflect the emergent priorities of the Downtown community for which the DDA can invest. Some of the line items are highly specific as they include exact estimates or previous not-to-exceed budgeted amounts for programs or projects. Examples of these include debt service payments, event budgets, and street enhancement programs completed in partnership with the City of Grand Rapids. Others are less certain and / or require further definition – such as accessibility improvements – which effectively creates an allocated amount from which staff will work with partners to define the investments to be undertaken in the fiscal year.

With GR Forward now an approved amendment to the City's Master Plan, DGRI has continued to work diligently in aligning its budgets with the plan's recommendations. Of the 89 programs, projects, and initiatives proposed in the attached FY18 local tax increment fund (LTI), non-tax increment fund (NTI), and Bond Proceeds Fund (BPF), 95% of the proposed DDA program and project expenditures are directly related to GR Forward (the remainder are indirectly related). There are some carry-forward priorities from previous years, such as pedestrian improvement projects, improved bus shelters for the DASH system, and overpass lighting projects which were not completed or completely billed in FY17.

The budgets also include new projects from GR Forward, including design work for Switchback Park, river trail retrofits, continuing to expand the Downtown tree canopy, advance more winter programming, and integrating more public art. In total, the budgets include 11 projects related to implementing Goal 1 totaling \$1,314,537, 12 projects for Goal 2 (\$4,178,048); 16 projects for Goal 3 (\$2,155,000); 2 programs for Goal 4 (\$125,000); 33 projects for Goal 5 (\$2,778,000); 1 project for Goal 6 (\$250,000), and 14 projects and initiatives that cut across multiple or all goals and include items such as diversity and inclusion programming, GR Forward implementation communications, speaker series events, and administration.

Similar to previous years, in February of 2017, Downtown Grand Rapids Inc. staff began soliciting input from the three Alliances charged with advising DGRI staff on projects and priorities. This 3-month, iterative process culminated in each of the three Alliances tendering recommendations to the three fiduciary Boards of DGRI (DDA, DID, and MNTIFA) regarding their ambitions for the coming fiscal year. This year, the process was also augmented by recommendations that emerged from the DDA TIF and Development Plan update, which identified two new areas for the use of tax increment revenue investment; affordable housing and support for growing the number of minority and women-owned businesses in Downtown Grand Rapids. *Citizens participated in identifying and prioritizing 99% of the program and project investments proposed in the FY18 DDA Budget.* 

Relative to the Alliance model for sorting budget priorities, there are 27 Vibrancy-related projects and programs which total \$1,387,500. Highlights include popular DGRI-produced events such as Snow Days, Movies in the Park, and Relax at Rosa; marketing and inclusion efforts, parks programming, and stakeholder engagement efforts. For the Alliance for Livability, there are 21 projects which total \$2,350,000 with highlights that include the aforementioned affordable housing support, dignified bus shelter improvements, and Switchback Park design. For the Alliance for Investment, there are 38 projects that total \$7,609,585 with highlights that include Veteran's Park improvements, real estate development tools, and transactional commitments associated with the sale of parking areas 4&5 should the theater project break ground in the upcoming fiscal year. There is an additional \$1,192,063 in administrative investments which include office rent and supplies, City costs, staff services, insurance, legal, IT, professional development, and other indirect costs.

The documentation included herein is a reflection of the many voices that participated in the budgeting process, and GR Forward. In addition to the line-item budgets for the LTI, the NTI, the BPF and the debt tax fund, DGRI staff has also provided a budget narrative that provides additional detail on the various priorities that emerged during the process.

Following a recommendation from the DDA Board, DGRI staff will present each of the fiduciary Boards' recommended budgets to the City Commission on June 13, 2017, requesting bottom-line appropriation. After receiving City Commission appropriation, the fiduciary Boards will each adopt their final annual budgets and priority plans, respectively, during their next scheduled meeting(s).

Recommendation: Recommend the FY18 DDA Budget Summary to the Grand Rapids City Commission and request fund appropriation.

### CITY OF GRAND RAPIDS, MICHIGAN Downtown Development Authority

- FROM Mark A. De Clercq, P.E. City Engineer

### SUBJECT: Improvements at Lyons Edge

Improvements at Lyons Edge consist of replacement of the existing circular stepped amphitheater configuration and reconstructing the area with a landscaped public park, north-south river trail connection, a tiered pathway system with connectivity to the Grand River, an integral earthen berm for enhanced flood protection recessed within the park site, lawn and irrigation, tree canopy, a variety of landscaping, and supporting infrastructure. Connectivity to the river will be achieved by lowering the height of the existing concrete floodwall and integrating a network of tiered pathways. Furthermore, an in-river docking system will be constructed for river recreation and temporary watercraft mooring. The site will also feature architectural treatments to the face of the concrete floodwall at and immediately adjacent to the cut in the existing wall for the project improvements. The total estimated project cost is approximately \$4,000,000.

The Improvements at Lyons Edge is supported by several predecessor plans and studies including but not limited to the GRForward Plan, the City of Grand Rapids Parks & Recreations newly drafted Master Plan, the recently issued Destination Asset Study, other City master plans and philanthropic investment from local partners.

Under previous action, the Downtown Development Authority has retained Bishop Land Design, LLC. (BLD) to complete schematic design renderings and drawings of a much larger project that includes reconstruction of the entire Lyons Street right-of-way from Monroe Avenue to the Grand River. At this time, the City and DGRI are recommending the scope of this project be limited to park, river trail, pathway/river connectivity, and in-river docking/mooring elements from the proposed flood embankment berm into the Grand River.

The design development for Lyons Edge in-river docking elements will be closely coordinated with Grand Rapids Whitewater (GRWW) and the Grand River Revitalization project. Design development of these elements will occur now, which will allow final design and construction efficiencies in a future phase during river diversion for river construction. GRWW's consultant River Restoration Org. (RRO) will perform river hydraulic analysis and tandem design development of in-river features with BLD to necessitate GRWW's permit application to the

Michigan Department of Environmental Quality (MDEQ) through the Office of the City Engineer.

At this time, it is necessary to begin the design development phase in order to refine a more approximate size and scope of the project including site features, materials, products, coordination of in-river work, flood protection, integration with existing conditions, pertinent technical plans and outline specifications, and regulatory permit documentation. There will be a significant emphasis on the human interface and ecology with the river and natural surroundings. BLD will work with project stakeholders and GRWW in order to deliver project outcomes. Deliverables include design development technical plans and outline specifications and an opinion of probable construction cost. The design development phase will enable stakeholders to discern investment participation.

The City Engineer's Office has issued to BLD a request for a proposal in which BLD has responded with a proposal arriving at a reasonable scope and fee. In addition, it is necessary to authorize \$31,140.00 for GRWW's consultant (RRO) to perform design development coordination and inclusion of the Lyons Edge inriver proposed work in their permit to the MDEQ for the Grand River Revitalization project. The total design development phase cost is for a not-to-exceed amount of \$430,000.00 (See attached Summary of Estimated Costs). The DDA share of expenditures is \$370,000.00 and the City of Grand Rapids' share is \$60,000, which is commensurate to the flood protection portion of the design development effort by BLD.

Upon DDA authorization in its share of cost for design development phase services, the City Commission will consider authorizing the City's share and entering into a professional services agreement with BLD at its July 11, 2017 regularly scheduled meeting. At any time there is a reasonable request for an increase in scope and ensuing fee, a request will be presented for consideration at a future DDA meeting.

It is anticipated that the project delivery would utilize a construction manager; therefore, BLD will enter into a professional services agreement customized to that approach.

Mark DeClercq City Engineer City of Grand Rapids 300 Monroe Ave NW-5th Floor Grand Rapids, MI 49503

Dear Mark:

We are pleased to submit this response to your request for our proposal for Improvements at Lyon Edge. It has been a pleasure working with you and the other stakeholders, and we are excited to continue the work that we accomplished in the preparation of schematic design last year.

Lyon Square has the potential to become a grand civic space for the City of Grand Rapids that serves a diverse constituency and reinvigorates the river and its relationship to the city. We are eager to continue our efforts to assist the City of Grand Rapids and stakeholders in realizing the vision of Lyon Square as a celebrated riverfront space, a cultural and recreational destination, and a prized urban amenity.

Included in this package are the requested materials, including fee proposal and terms, team resumes and project management plan. If you have any questions, I can be reached by email at <u>sb@bld.partners</u> or by phone at 339.205.5618. Thank you for your consideration.

Sincerely,

Scott F. Bishop President and Principal Bishop Land Design, LLC

Mark DeClercq City Engineer City of Grand Rapids 300 Monroe Ave NW-5th Floor Grand Rapids, MI 49503

Cc: Wileen Kao

Project:	Lyon Square
BLD Project #:	BLD_GRR_02

Dear Mark:

We are pleased to submit this proposal for Professional Services in connection with the further development of the landscape at the Lyon Square Edge. This space is poised to be a critical example of how public and private interests can create a signature open space along the Grand River's edge. This diversity of uses as well as the integration of river access, habitat, program, and improved flood infrastructure will make this place a world-class urban waterfront edge for the people of Grand Rapids.

This agreement is by and between Bishop Land Design, LLC referred to hereafter as BLD, and the City of Grand Rapids, referred to hereafter as the Client.

### SCOPE OF SERVICES

- A. BLD shall provide professional services on the Project referenced above, the extents of which are indicated on the attached drawings in Appendix B entitled "Improvement at Lyon Edge Limit-of-Work". This scope of work has been altered since the RFP was released. BLD's understanding of the project has been revise as follows:
  - 1. The construction budget for this project has been reduced from 6.6 million dollars to 4.0 million dollars.
  - 2. Reductions will come the following change in Scope:
    - a. The elimination of the hydronic heating system from sidewalks and benches
    - b. The elimination of interim ADA access gangway and associated expansion of the cantilever
    - c. The elimination of all scope associated with the Amway Stone Wall
    - d. The asset management plan shall be the responsibility of the Client.
  - 3. Reductions will also come from deferred construction and the removal of such construction cost from the budget of the following elements, until the In-Water phase associated with the Grand Rapids White Water River Revitalization project, although, these elements shall be designed through the Preliminary Design Phase so that permitting can occur concurrently. BLD shall not be responsible for the structural design of this portion work. This work includes:
    - a. All work associated with the on-structure ADA path
    - b. All work associated with the floating dock system that provides access to the new lower walk.
    - c. All work associated with the reconfigured lower walk

1354 Hancock Street STE 309 Quincy, MA (339) 205-5618

- d. The cladding of E-concrete on the existing flood wall
- e. The planters attached to the existing flood wall

The scope of these services shall include:

- 1. Finish grading and surface drainage of pedestrian and vehicular pavements and planting areas.
- 2. Pedestrian and vehicular pavements.
- 3. Handrails, guardrails, floodwalls, landscape walls, steps, railings, related site structural elements not a part of the buildings.
- 4. Fences, decks, terraces and seating devices.
- 5. Site furniture including planters, trash and recycling receptacles, bicycle racks, cigarette urns, and drinking fountains.
- 6. Selection and location of fixtures for site lighting. Site lighting circuitry not included for existing systems or city owned systems outside the limit of work.
- 7. Planting and soil preparation.
- 8. Irrigation.
- 9. Electrical engineering.
- 10. Site graphics to include donor recognition items.
- 11. Sculptural elements and participation in selection of site sculpture.
- 12. Human Ecology.
- B. BLD will retain and direct the services of registered professional consulting engineers for:
  - 1. Structural engineering. Fishbeck, Thompson, Carr & Huber, Inc
  - 2. Lighting design. Illuminart
  - 3. Electrical Engineering. Fishbeck, Thompson, Carr & Huber, Inc.
  - 4. Civil engineering. Fishbeck, Thompson, Carr & Huber, Inc.
  - 5. Geotechnical engineering. Materials Testing Consultants, Inc.
  - 6. Soil science, including lightweight and structural soils specifications. Pine & Swallow Environmental
  - 7. Irrigation design and engineering. Irrigation Consulting, Incorporated
  - 8. Cost estimating. Fennessy Consulting Services
  - 9. Architecture. SKO Design Group
- C. BLD will utilize and direct the services of registered professional consultants under separate contract to the Client for:
  - 1. Site surveying
  - 2. Bathometric surveying
  - 3. Endangered species sampling, reconnaissance, monitoring and replacement
  - 4. Traffic and transportation engineering
  - 5. Environmental engineering
  - 6. Hydrologic engineering
  - 7. Waterfront engineering.
  - 8. Aquatic habitat design
  - 9. Riverine recreational design
  - 10. River revitalization
- D. The Design Team, referred to hereafter as The Team shall consist of the following members: Fennessy Consulting Services, referred to hereafter as FCS Fishbeck, Thompson, Carr & Huber, Inc., referred to hereafter as FTCH

Illuminart, referred to hereafter as ILA Irrigation Consulting, Incorporated, referred to hereafter as IC Materials Testing Consultants, Inc. referred to hereafter as MTC Pine & Swallow Environmental, referred to hereafter PS SKO Design Group, referred to hereafter as SKO

 E. The Stakeholder Members, referred to hereafter as The Stakeholders consist of the following members: Amway Hotel Corporation referred to hereafter as AHC The Windquest Group, referred to hereafter WG The City of Grand Rapids, Including, but not limited to City Park and Recreation Department, City Engineering and other city staff involved in the delivery process, referred to hereafter GR Grand Rapids Downtown Inc., referred to hereafter DGRI Peter Secchia, referred to hereafter PFS SMG and The Grand Rapids-Kent County Convention/Arena Authority, referred to hereafter as CAA

### PROCEDURE

### Preliminary Design | 14 weeks

Upon Client's authorization to commence Preliminary Design, BLD and the Team shall prepare Preliminary Design drawings and a preliminary cost estimate for BLD and the Teams Portion of work. These Preliminary Design plans will define the character and essentials of the project including selection of materials. BLD shall direct and manage The Team. BLD and The Team shall coordinate with the Client to coordinate work included in the scope.

BLD and The Team shall hold a kick of meeting with the Stakeholders to discuss the project and the process, BLD and The Team will also work with City Staff to obtain available information and review existing conditions. In addition, BLD will hold a utility coordination meetings with all public and private utilities in the project scope area to discuss any possible utility work that may be necessary or desired by each utility as a result of the project. BLD shall also guide discussions between The Stakeholders, GR and DGRI to establish program, ownership and maintenance responsibilities.

BLD and all members of The Team shall provide cost input where necessary during cost review and provide comments and clarification to the FCS to clarify items within their specific scope of work. FCS shall also submit cost for review and comment by the Construction Manager (CM) prior to the phases final report.

MTC's scope of service in Preliminary Design will include ongoing geotechnical consultation, meeting attendance as requested, review of applicable concept and design plans, and preparation of a geotechnical report for the project. Modifications to the existing flood protection system are proposed and, as such, MTC will consider up to two stability analysis sections and one will be selected within the area of improvement to evaluate for conformance with respect to the Federal Regulation (44CFR65.10) for flood protection systems.

FTCH will build on the current Schematic design drawings and continue to refine the design. As a core team member, responsible for Civil, Electrical, and Structural (excluding marine engineering) FTCH will attend weekly team meetings and deliverables as outlined herein and supply review costs. They shall also analyze and design, particularly for the different proposed conditions of partial removal of existing floodwall, adequacy of existing conditions adjacent to the cut-out, and any dead and live loads on existing or proposed floodwalls.

## **BLD**BISHOP LAND DESIGN, LLC

ILA shall coordinate aspect of their work with the electrical engineer and shall design lightning plan revisions and refinement and consequent changes to specifications, additional photometric studies of pedestrian paths, budget establishment and review and lighting control design intent.

PS will review the Schematic Design documents and assist with Preliminary Design including preparation of Specifications. PS will mark up soil profiles and details prepared by BLD for use in the Preliminary Design Sets.

IC's work assumes the irrigation system will utilize harvested rain water as the primary source of irrigation water, river water as a secondary source and the local domestic water supply as the last available option. IC will coordinate, but not design, the domestic water mechanical point of connection. IC will also coordinate the electrical points of connections of our system with your office, as well as with other sub-consultants involved in the project.

The design of all interior plumbing, backflow prevention and water meters, if necessary, will be part of the mechanical/electrical/plumbing drawings to be produced by FTCH and will not be included in IC's drawings or in our specifications.

SKO shall be responsible for the coordination and design of interior spaces that will accommodate the mechanical controls for the landscape system. This currently includes: Lighting controllers, Electrical Meters, Electrical boxes and other electrical controls, and irrigation controls.

This work may require the addition of a control room or room in the DeVos Place Building or the Amway Hotel Facilities. SKO shall be responsible for coordination and code compliance of such rooms as well as the proper layout and ancillary code compliance of each system as they relate to their own systems and each other. In addition, SKO shall be responsible for the design of the penetrations into the building envelope of the systems and the subsequent water proofing of those penetrations.

FCS shall prepare opinions of probable construction cost at the end of the Preliminary Design stage. Cost opinions are to be presented in standard building component format (Uniformat) with an accompanying Masterformat (CSI) summary page. BLD shall assist the City Engineer's Office in the development of a Source(s) and Use(s) Budget for the project identifying all known project uses and to balance these with the available source(s) of funding that define a holistic preliminary budget.

It is BLD's understanding based on the City's RFP that the Client has selected to utilize a Construction Manager at risk (CM) for project delivery. BLD shall work with the Client to select the CM from a pool of qualified candidates. BLD shall meet twice with the Client and the CM in the design development phase. BLD shall prepare preliminary drawings and layouts for review and comment, including, plans, section, and typical details and preliminary material and equipment selections. BLD shall also assist the City and the Construction Manager, by attending and providing other necessary support regarding the Project at all meetings with governmental and/or regulatory agencies. At the end of the phase, the BLD and The Team shall perform a code review in consultation with one of the City's building officials and thereafter produce and submit a code review report and shall respond in writing to comments.

Services will include the following meetings:

- 2 coordination phone conferences per month with the Client
- 4 meetings and 4 presentations, to the Stakeholders
- 2 meetings with the DEQ
- 2 meetings with the CM and the Client
- 1 meeting with the City of Grand Rapids Design Team

1 coordinating meeting including each major City Department where applicable, including but not limited to Fire, Police, Environmental Services, the Downtown Development Authority, Parks, Planning and Engineering.

Deliverables shall include:

1 submittal of the 60% Documents for review at the end of the Preliminary Design phase that will include technical drawings, outline specifications that call out the Summary of Work for the section, products and materials, and any other relevant specialty items or conditions and a code review report. The Stakeholders and the City shall have two weeks to review the Drawings and Specifications and provide Comments for inclusion in the permit set. BLD and The Team shall submit the Preliminary design set for review to DEQ for first Pre-Permitting meeting. City Engineer's Office and DGRI will be in attendance and City Engineer's Office will coordinate the most appropriate City staff to accompany the MDEQ meetings.

60% Design Opinion of Probable Cost PDFs of Presentations to Stakeholders, Design Team and City Departments Meeting Minutes

### Preliminary Design and Coordination for In-River Work | 12 weeks (Concurrent with Preliminary Design)

BLD shall coordinate with the Client's Consultant for the River Revitalization Project (RR) in the analysis of the schematic design developed by BLD and shall provide Preliminary Design Services for Landscape Architectural related scope only this includes the drawing of layout, materials and grading (finished elevations) plans and sections and will include basic details for finishes for the pile supported walkway, the reconfiguration of the lower walkway and the floating docks and or the vehicular docking mechanisms. The structural and mechanical engineering of these elements shall be the responsibility of RR.

FTCH will supply electrical plans that will be coordinated with lighting plans and details produced by ILA. BLD will supply the landscape architectural design including the layout, material aspects of the wood planters on the west facing wall and the E-concrete cladding., FTCH shall provide the structural design and connection details for the wood planters on the west facing wall, the E-concrete cladding and the interface of the pile supported work to the proposed cantilever BLD shall coordinate with RR to develop preliminary concepts for the river/park interface based on BLDs Schematic Design. After final selections are made BLD shall produce preliminary design documentation for the landscape architectural services. This includes compliance with ADA accessibility.

The following disciplines shall not be provided by RR for this portion of work. Civil Engineering, Marine Engineering, Structural Engineering of pile supported structures and floating docks, Hydrodynamic Engineering, Habitat Engineering, Biologists responsible for the relocation of and or monitoring of endangered species, Cost Estimators, Asset Management Planners, Recreations Planners, Aquatic Vehicle Docking Designers or any other required consultant to complete the work outside of BLD's landscape architectural services outlined above. BLD shall not be responsible for the coordination of consultants for this portion of work. BLD shall coordinate with RR in the production of permit documents for the landscape architectural services only.

Meetings: 3 coordination meetings with RR 1 Meeting with the DEQ

Deliverables: 1 Submittal of 60% Landscape Architecture documents for use in Permitting Meeting Minutes

### **Permitting 10 weeks**

BLD and The Team shall assist Client in filing the appropriate plans, technical drawings, models and documents which are required to secure the necessary permit approvals from the various governmental agencies having jurisdiction over

the project, but Client shall be solely responsible for securing all such approvals. The BLD team shall meet with the City Engineer's Office in advance to discuss all necessary permits required for this project. BLD shall direct and manage The Team. BLD and The Team shall coordinate with the Client to coordinate work included in the scope. BLD and The Team shall prepare working drawings, technical analysis, and technical sections of specifications to conform to applicable codes and regulations of governmental bodies having jurisdiction over the work.

MTC shall provide up to two stability analysis sections within the area of improvement to evaluate for conformance with respect to the Federal Regulation (44CFR65.10) for flood protection systems.

FTCH will provide the necessary drawings and calculations for the permit application for the items for which we have design responsibility, and attend up to two meetings with the MDEQ and City of Grand Rapids to determine the requirements necessary to obtain the permits. FTCH will also prepare the MDEQ/USACE Joint Permit Application (Part 301) for the work in the floodplain, but not the work in the river. We assume the City will pay the permit applications fees.

IC will provide permitting assistance during the project permitting phase. This will include assistance in preparing applications, forms, calculations, drawings, etc., as required by the regulating agencies. IC will not serve as the principal permitting engineer. IC's permitting efforts will be provided in support of other professionals.

Services will include the following meetings:

- 2 meetings with the DEQ
- 2 meeting with the Client and the Stakeholders to Update Progress

Deliverables shall include:

Technical support documents outlined above to support necessary permits Meeting Minutes

It is assumed that documents submissions for all phases will be handled electronically, and that all printing costs associated with interim, coordination, and final documents sets are not included in this agreement and will be the responsibility of others. BLD shall be responsible for setting up and maintaining an FTP site or equivalent file hosting system for the duration of the project to facilitate the transfer and delivery of documents.

### FEES AND TERMS

Services described above shall be provided for the fixed sum, not including direct expenses, of US\$337,446 on an hourly basis in accordance with the terms and conditions outlined in the Professional Service Agreement. Additional information requested in the Client's RFP is listed in Appendix B "Prime and Subconsultant Hourly Rates", Appendix C "Project Team Resumes", and Appendix D "Insurance Coverage" are provided in support of the request for documentation support for this proposal. A breakdown of fees follows and is provided for reference purposes only:

Phase	Fee
Preliminary Design	\$212,195
Preliminary Design for In-Water Work Permitting	\$104,860 \$20,391
In addition, we anticipate direct expenses to be	\$22,500

The following costs shall be reimbursed at cost plus and are not included in the Fee for Professional Services:

A. Costs of copies of drawings, specifications, prints of production work for in office review and mark-up, reports and cost estimates; xerography and photographic reproduction of drawings and other documents

furnished or prepared in connection with the work of this Contract. No receipts for reimbursables under \$25.00 will be submitted.

- B. Costs of commercial carrier and public transportation, lodging, car rental and parking, subsistence and outof-pocket expenses. Private automobile travel at the current Privately Owned Vehicle Mileage Reimbursement Rate as set by the US General Services Administration.
- C. Long distance telephone charges, fax charges.
- D. Photographic services, film processing.
- E. Costs of models, special renderings, promotional photography, special process printing, special equipment, special printed reports or publications, maps and documents.
- F. Fees for additional special consultants retained with approval of Client.

We would be pleased to answer questions you may have or to clarify various points above. If this proposal meets with your approval, please sign below (on the following page) and return one copy for our files. Work will commence with a written authorization to proceed. We look forward to working with you.

Sincerely,

Scott F. Bishop President and Principal Bishop Land Design

# MASSOUD BAGHERI, DESIGNER

Massoud Bagheri is a designer at Bishop Land Design (BLD). He is a graduate from Northeastern University in Boston, Massachusetts for Master of Design in Sustainable Urban Environments. Massoud also holds a BSc in Architectural Engineering from the Azad University of South Tehran (IAU).

Through his career, Massoud has worked on different projects from residential renovations to commercial developments. Being interested in the interdiciplinary field of urban design and planning, he moved to the States to expand his educational and professional horizons while studying and practicing resilience and sustainablity through design for urban landscapes.

Massoud joined the team at BLD after finishing school at NEU and is currently working on multiple projects from research to design.

# Resume

### Seamus Fennessy, BSc MRICS Principal/Owner

*Mr.* Fennessy is a qualified and professionally trained Quantity Surveyor, having achieved his Bachelor Degree in 1991 and his professional qualification to the Royal Institution of Chartered Surveyors in 1992

Seamus is the founder of the firm and remains an active account manager. He has over 28 years of experience in the construction industry working as a cost planner, cost consultant and quantity surveyor in the United States and Overseas.

Seamus has gained the necessary experience and skills to effectively manage the construction costs of projects through his role as cost consultant and quantity surveyor on hundreds of projects in the USA, England, and Ireland and throughout the world.

Since arriving in the United States in 1993, Seamus has established construction budgets, prepared cost plans, compiled design stage estimates, assisted in contract price negotiations, provided both formal and informal value engineering, prepared life cycle cost analyses, prepared bid analyses, reviewed change orders and participated in litigation and arbitration cases on many facility types.

While working in the UK, Seamus performed all aspects of the role of a quantity surveyor, which in addition to cost consulting services included quantity surveys/measurements, fire insurance evaluations and project cost reporting activities on all building systems, including mechanical, electrical and plumbing systems.

Throughout Seamus's twenty eight years of experience he has provided estimating services on projects ranging in construction cost from \$30,000 to over \$1 billion.

#### Education:

Bachelors of Science – Quantity Surveying, Greenwich University, London, England Professional Associate of the Royal Institution of Chartered Surveyors, London, England

<u>Membership:</u> Royal Institution of Chartered Surveyors

#### Experience:

Dozens of outdoor space projects Multiple projects with Bishop Land Design Multiple Michigan projects Current experience working in Grand Rapids Billions of dollars of construction work estimated.

# Anthony Mourand, PE

Tony is a senior civil engineer, and senior designer in the land development group.

Acting as a client services manager for a number of ongoing clients such as Steelcase, Franklin Partners, Bradford White, and Michigan Technological University. Tony has been project manager on a large variety of land development projects with industrial, commercial, and private development clients.

Tony has worked on many different projects along the Grand River as well as other riverfront projects for the City of Grand Rapids, State of Michigan and other local municipalities.

# **RELEVANT EXPERIENCE**

J.W. Marriott Hotel Grand Rapids, Michigan

Project manager for civil and site design including adjacent roadways, all utility work, and Riverfront work for the J.W. Marriott Hotel and adjacent parking structure.

#### Cascade Charter Township, Michigan Tassell Park

Project manager for development of a 5-acre urban park along the Thornapple River including public rest room, pavilion, picnic shelters, water jet water park, river boardwalk, dock, and parking lot.

#### Old 28th Street Streetscape

Project manager for Phase II of the DDA streetscape project involving narrowing a 5-lane road to a 2-lane boulevard section, new sidewalks, street lighting, and landscaping.

#### State of Michigan Department of Natural Resources, Department of Technology Management and Budget Grand Haven State Park Newaygo State Park Lincoln Lake

Camp Lake
Project manager for mar

Project manager for many state park improvement projects including new parking lots, parking lot revisions, and boat launches.

#### City of Grand Rapids, Michigan Floodwall Improvements

Project manager for a \$14 million, 5-year project, spread out over 11 construction contracts, involving repairs to existing concrete walls, construction of new walls and embankments, rework of embankments in 6<sup>th</sup> Street Park, Canal Park, Ah Nab Awen Park, and Riverside Park, new large diameter storm sewers, and storm water pumping stations serving 120 acres of City property currently below the Grand River flood stage.

#### City of Grand Rapids, Michigan Canal Avenue Park

Project manager for rework of sidewalks and retaining walls in Canal Park after previous construction had prematurely failed. Also designed replacement rubber safety floor for Children's Play area after previous system failed.

## Michigan Technological University

Houghton, Michigan

Site designer for the Great Lakes Research Center, a new 50,000-sf, 4½-level research laboratory facility, which also includes a boat storage and docking facility and marina along the Portage Canal and Lake Superior.

#### Education

MS in Structural Engineering, Michigan Technological University

BS in Structural Engineering, Michigan Technological University

#### **Years of Experience**

18 with FTCH 14 with other firms 32 years total

#### **Chemistry Building**

Lead structural engineer for this 30,000-sf, 5-story expansion project. The primary structure consisted of cast-in-place concrete slab, beams, columns, and shear walls.

#### Clarksville Horticulture Experiment Station

Lead structural engineer for a 1,900-sf office expansion and renovation project.

University of Notre Dame Notre Dame, Indiana

Cooling tower and revisions to condenser water system. Performed structural engineering design of three exterior pipe bridges supporting cooling water piping from the University's power plant. The pipe bridges provided clear heights enabling truck traffic below them.

# Thomas Marcusse, LEED AP

Tom has served as project manager and lead engineer on numerous power and signal, fire alarm systems, and lighting projects.

#### THEATRES/ARENAS Red Bull Arena

Harrison, New Jersey

Lead electrical engineer for the new 20,000-seat multipurpose outdoor stadium. The stadium hosts the Red Bull MLS team, is used for several amateur sporting events, and an entertainment venue. Field lighting was designed to MLS, ESPN broadcast standards. The facility includes restaurants, club spaces, training facilities, broadcast facilities, and administrative areas.

Van Andel Arena Grand Rapids, Michigan

Electrical engineer for this 12,000-seat, multipurpose, indoor venue. Facility highlights include Olympic-sized ice rink and full electrical facilities for extensive in-house and traveling productions. The facility includes ice making capability, a smoke management system, and extensive sound, video, and security systems. It also features extensive, flexible power and lighting systems to support various uses.

# A/E BUILDINGS

#### Educational Purdue University

Krannert Hall West Lafayette, Indiana

Electrical design for remodel of seventh floor agricultural economics department.

#### The Ohio State University OARDC Greenhouse Renovation Wooster, Ohio

Electrical design for renovation of a 4-wing academic greenhouse facility.

Hope College VanderWerf Hall Engineering School Holland, Michigan

Electrical design of 3-story building addition for an expanded engineering program.

Michigan State University East Lansing, Michigan

#### **Broad College of Business**

95,000-sf Graduate Pavilion with classrooms, teaching labs, program offices, career management offices, and interaction, event, and amenity spaces.

#### West Circle Steam Tunnel

Electrical tunnel, site, and utility associated with extensive tunnel system replacement and upgrade.

#### **Old College Field**

Electrical design for campus softball, baseball, soccer, and concessions and ticket building. Designed electrical services and underground communications cabling network from each venue to broadcast van uplink cabinet for satellite uplink for television and radio broadcast.

#### National Superconducting Cyclotron Laboratory Phase 2 Office Addition

Electrical designer for a new office building to support upcoming expansions to become the Facility

#### Registrations and Certifications

LEED Accredited Professional

#### Education

AS in Electrical Power Technology, Ferris State University

AS in Electrical Technology, Lansing Community College

#### Years of Experience

4 with FTCH 39 with other firms 43 years total

for Rare Isotope Beams. Electrical engineering included consolidation and replacement of the existing Cyclotron and office 13.2kV services to the new switchgear line-up provided in the new office construction. Responsibilities included design of all electrical systems including power, lighting, fire alarm, and other support systems.

#### Old College Field Phase VII Renovations

Electrical designer for extensive underground network of power and data distribution to the various venues in the Old College Field area of campus.

#### Secchia Center

College of Human Medicine East Lansing, Michigan

Lead electrical designer for a new, LEED Gold, 7-story, high-rise facility.

# Central Michigan University New Medical School

Mt. Pleasant, Michigan

Electrical engineer for a new 60,000-sf Health Professions Building. Achieved LEED Silver.

# Robert M. White, IALD, LC, IESNA Principal

Robert has been creating innovative lighting design solutions for over 25 years. His extraordinary range of experience is built upon creative design flare, technical expertise and a collaborative spirit.

Robert has received the Edwin F Guth Memorial Awards for Excellence for the Qatar National Convention Centre interior lighting and the Detroit McNamara airport Terminal. He also received the Control Innovation Award for the Qatar National Convention Centre. He has received over 40 other individual awards of recognition and his work has been featured in a variety of industry publications including; Lighting Dimensions, Mondo, LD&A, Architectural Lighting, Metropolis, Illuminator (Russia), and Interior Design, and has recently been featured in Illumni online magazine.

Robert also serves as guest lecturer for Lawrence Technological University.

# Brienne E. Willcock, Hon. AIA, MIES, LC Designer

Brienne's background in Fine Art and Interior Design lends a unique combination of technical skill in both 2d and 3d design to projects. She is an integral part of each phase of the design process from initial client interaction to final site focus.

In addition to lighting design, Brienne excels in computer aided design, graphic design, photo editing, BIM modeling, 3D rendering, and photometric calculations.

Brienne often serves as project manager for in-depth investigation of LED product research, comparative analysis of products, and evaluation of performance data. Her efforts have led her to participate in the US Department of Energy's CALIPER (Commercially Available LED Product Evaluation and Reporting) Program. She has been invited to speak about specification integrity and economics of LED at multiple events including LightFair.

# Tara M. Parks, LC Designer

Tara is a lighting designer wide breadth with а of expertise; covering interior and exterior lighting design for retail, hospitality, commercial, residential. and specialty installations. Her 22 year career as a lighting designer, along with her creative instincts and drive to design spaces that enhance the visual environment for all users brings a unique perspective to each project she works on.

Tara holds an Honors Bachelor of Arts in Interior Design from Michigan State University and received her Lighting Certification from the National Council for the Qualification of Lighting Professionals in 2000. She was a member of the NCQLP Test Committee for 7 years, serving as Vice Chair from 2003-2007. She has taught lighting design at a variety of Detroit area colleges and universities and is a past member of the Plymouth, MI Planning Commission.

# Elizabeth Williams Designer

Liz has a background in Theatrical and Video Lighting Design which enriches her visualization, communication and documentation skills as a lighting designer. She assists the designers of Illuminart in a variety of tasks from start to finish for virtually every project at Illuminart. In addition to lighting design she excels in computer drafting, stage technician work, theatrical lighting controls, live camera work and photometric calculations. At Illuminart, Elizabeth facilitates scheduling, communication, document handling, and research for the principal designers. Two of her strongest skills are visualization and luminaire focusing. She also provides insider knowledge and hands-on experience for projects that have theatrical lighting components.

# TODD D. MUNGER, P.E.

# **EXPERIENCE:**

Senior Project Engineer	2014 - Present
Project Engineer	2012 - 2014
Assistant Project Engineer	2010 - 2012
Senior Staff Engineer	2009 - 2010
Staff Engineer	2007 - 2009

Responsibilities include the field direction of soil sampling programs and site characterization studies, preparation of geotechnical reports with bearing capacity, settlement and deep foundation calculations, and pavement evaluation and design. Responsible for design of earth retention systems, monitoring temporary earth retention systems, slope inclinometer field measurements and performing construction/demolition vibration monitoring. Responsible for geophysical surveys utilizing Ground Penetrating Radar (GPR) equipment to locate underground objects such as utilities, USTs, reinforcement and voids as well as managing geophysical projects and preparing reports.

Years with Other Companies: 1

## **PROJECT PARTICIPATION:**

#### **Geotechnical**

M-231, I-96 over US-23, Cascade Rd. over I-96, M-222 over US-131, 36<sup>th</sup> St. over US-131 and US-23/I-96 Interchange, M-25 over Mill Creek, US-131 and 3-Mile Road

Project Engineer responsible for AASHTO LRFD analysis and design of proposed earth retention and foundation systems including MSE pile supported integral abutments, pile supported concrete retaining wall abutments and shallow foundation and pile supported bridge piers. Analysis included strength limit state considerations (sliding, bearing, eccentricity) as well as service limit state considerations (settlement and global stability) in addition to extreme limit states associated with vehicle collisions. Pile design included an evaluation of skin friction and end bearing resistance using static pile capacity methods, computation of downdrag loads upon piles and the required nominal pile driving resistance associated with the factored loads and the preferred field pile capacity verification method. Sault Ste. Marie Meijer

Project engineer responsible for geotechnical study oversite, assignment of laboratory testing, slope stability analyses, consolidation settlement analyses as well as foundation, utility and pavement support recommendations. Wick drains and electronic monitoring were utilized to accelerate and monitor consolidation settlement of the site prior to building construction. Stone column support of building foundations was recommended to limit settlement to below total and differential criteria.

# **STEVEN M. ELLIOTT, P.E.**

# **EXPERIENCE:**

#### **President** 1993 - Present

Management of key geotechnical and materials engineering projects and responsible for various operating Divisions of MTC, including Engineering and Construction Technology. Review of quality assurance programs, staffing and client and public relations. Participate on MTC's Board of Directors in establishment of corporate goals, direction and policies. Participation in leadership in various technical and professional associations and committees.

#### Geotechnical Department Manager, General Manager, Vice President, Manager of Construction Technology Division. 1985 – 1993

Project management, technical review of geotechnical and materials engineering projects, review of Department quality assurance programs, staffing and client and public relations. Participate on MTC's Board of Directors in establishment of corporate goals, direction and policies.

#### *Sr. Staff Engineer.* 1983-1985

Geotechnical engineering evaluations for various projects in the New York City Metropolitan area for Woodward Clyde Consultants, Wayne, NJ.

#### Southeast Michigan Branch Manager. 1980 – 1981

Management of geotechnical and construction testing projects, development of staff and clients in southeast Michigan.

#### Engineering Technician. 1972-1980

Performance of laboratory and field tests on projects related to subgrade, engineered fill, aggregates, concrete, HMA mixtures, fireproofing and roofing. Certifications in radiation safety, concrete field technician, bituminous plant and street technician and aggregate technician.

#### **PROJECT PARTICIPATION:**

Convention Center, a \$225 million project in west Michigan, including void-filling compaction grouting, mini-piles, end-bearing and deep skin-friction drilled shafts, riverwall stability analyses, environmental issues and groundwater evaluation.

Combined Sewer Separation project, including over 80 contracts in mostly urban areas, river crossing with subaqueous pump station connection and two pump stations.

Nuclear dry fuel storage casks, pads and grouting projects, including QC for important to safety conditions.

Landscape Science/Engineering

Principals: John C. Swallow, PhD, LSP / Robert N. Pine, PE

#### Robert N. Pine, FASLA, PE Director of Environmental Planning and Engineering

- Principal and founder of the firm Pine & Swallow Environmental
- Professional practice since 1972 in the areas of environmental and soil engineering, land reclamation, drainage and horticulture
- MLA, Harvard Graduate School of Design
- M.S., Geotechnical Engineering, Cornell University
- B.S., Civil Engineering, Cornell University

#### **Professional Experience in Soil Science and Engineering**

Mr. Pine has utilized his combined background in geotechnical engineering, civil engineering and landscape architecture for land reclamation, site engineering and landscape development projects throughout the northeast and worldwide. His work ranges from initial site investigations to detailed design of hydro-geologic systems, including design and restoration of wetlands and water features, soil design, construction specifications and construction observation. His ability to evaluate and interpret soils and soil data allow him to design sustainable ways to make soils more productive.

Mr. Pine developed new standards for soils in the built environment ranging from high production soils, typical turf areas and planting beds to biotreatment, high use turf, overstructure plantings, wetlands and stream systems. He developed precise specifications that allow horticulturally appropriate, structurally stable soils to be placed under and support pavements, economically and reliably. Mr. Pine also developed strategies to modify in-place soils that have inappropriate characteristics or that are excessively compact to improve planting environments. His knowledge of hydrogeology allowed him to develop improved analysis and reduced-cost strategies for subsurface drainage: for high use areas such as sports fields; for general planting conditions; and for isolated plantings. He also developed quality control procedures to ensure compliance in blending, installing and maintaining landscape soils, drainage and plantings.

Mr. Pine's understanding of both the physical behavior and the horticultural properties of soils has allowed him to advance the profession's knowledge of soil science, with particular emphasis on manufactured soils and structural soil. He has been an education session presenter at several ASLA Annual Meetings since 2009.

#### John C. Swallow, Ph.D., LSP, PG Director of Environmental Science

- Principal and founder of the firm Pine & Swallow Environmental
- Professional practice since 1974 in the areas of environmental science, soil science, land reclamation and horticulture
- SITES Technical Core and Soils Committee since 2009
- Licensed Site Professional (LSP)
- · Owned and operated a commercial nursery for 19 years
- · Ph.D., Massachusetts Institute of Technology, Organic Chemistry
- A.B., Colgate University, Chemistry

#### **Professional Experience in Soils and Horticulture**

Dr. Swallow's professional soils and horticulture practice spans four decades and has emphasized service in the areas of soil chemistry, analysis of environmental conditions for plant growth, urban tree planting techniques, and site rehabilitation at worldwide locations. Dr. Swallow was a presenter on soils in the built-landscape at the 2009, 2011, 2012 and 2013 ASLA National Conferences and lectures at the Harvard Graduate School of Design. He has served on the Sustainable Sites Initiative (SITES) Technical Core and Soils Committees for many years and now serves on the GBCI SITES AP Task Force.

Specializing in assessment of soil and water resources, Dr. Swallow has developed unique sampling and analytical methods to maximize the reuse of project soil and water assets. Manufactured soil blends incorporating onsite earth materials are designed to meet project requirements. He designs storm water management systems incorporating bio-swales, water harvesting and infiltration surfaces. Dr. Swallow has had extensive experience with urban and rooftop planting environments and has been involved with P&S's development of a structural soil for sustainable horticultural developments.

Dr. Swallow's horticultural projects range from initial site investigations to detailed design of soil-water-horticultural systems, construction specifications and construction observation. He also directs P&S's soil, air and water analytical laboratories, which are available for project site assessment and construction monitoring.

Additionally, Dr. Swallow is a Licensed Site Professional and has managed many soil and groundwater investigations and remedial design implementations.

#### Michael A. Agonis Project Manager Environmental Scientist

- Project manager and environmental/soil scientist at Pine & Swallow Environmental since 1993
- Skilled in soil analyses and turf management
- Specialized experience in field data collection and construction monitoring
- · Extensive experience in soils and planting materials testing
- B.S., Fitchburg State College

#### **Professional Experience in Site Investigations**

Mr. Agonis has experience in soils classification, infiltration testing, and field screening of soil samples in test pit and horticultural excavations. He is normally a project manager for P&S's site investigations. Mr. Agonis has familiarity with state building codes and has significant experience in strength of materials and materials testing. Mr. Agonis also has experience in waste regeneration and composting operations to improve soil texture, organic content, and moisture holding capabilities. His leadership, technical, and problem solving skills are an integral part of P&S's site assessment services.

Mr. Agonis' projects as project manager include renovation to an 18-acre athletic field facility where differing fill soils and groundwater posed unique challenges. He has also been a project manager for a public school project where settlement had caused a schoolyard to become unsafe for children. Mr. Agonis coordinated the investigation and recommended solutions to the problems, including drainage, and tree plantings. Mr. Agonis directs field soil investigations where test pits are excavated, percolation tests performed, and soil samples collected to determine the characteristics of existing soil conditions. Responsibilities include laboratory data interpretation and reporting, as well as Specification writing and problem solving.

Mr. Agonis has also ensured the success of P&S's projects by monitoring the adherence to construction specifications, and educating contractors to the unique construction requirements of high use turf areas. Mr. Agonis' understanding of the environmental relationship of soil, drainage, groundwater and land use has contributed to P&S's success on numerous projects.

Grand Rapids Whitewater Attn: Chris Muller Chip Richards 502 Second Street NW, Suite 300 Grand Rapids, MI 49504 (616) 881-2888 Fax – 202-747-7714 chris@mretail.com chip@grandrapidswhitewater.org

## **RE: Proposal for Lyons Square River Access design**

Dear Chip and Chris,

Our team (GRWW and RRO) has developed the vision of this transformation starting from the river. The interface between land and water is a critical one. Proposed in-stream modifications will completely change the current nature of the Grand River as it runs through the heart Grand Rapids. With an increase in habitat connectivity, fish holding areas, and diverse currents and bed materials, we foresee the Grand River being a destination drift fishing location. The economic impact study of the Grand River Revitalization Project, conducted by Anderson Economic Group, shows an estimated and conservative increase of 13,000 fishing user days in Grand Rapids. With this in mind, we propose to design access to the river at Lyons Square for both passive and active river users. It is important for this location to readily accommodate drift and wade fishing access, both private and guided. The location is also critical access point due to the expanse of floodwall on the east bank.

The following scope of services details the effort involved to design access to the river from Lyons Square below the ordinary high water mark (OHWM). The Grand River Revitalization project is currently on track to submit a DEQ permit by the end of 2016. This tight schedule will require swift work on this scope of services. We would develop illustrative renderings to express the vision of the team more clearly. We would retain W.F. Baird & associates Ltd. (Baird) for dock and gangway design, and consult with FTCH on flood protection improvements and structural soundness of the design. The end result of this proposal is to have river access at Lyons Square included in the DEQ permit submittal. Following the detailed explanation of each task is an hourly cost breakdown in Table 1.

Kind Regards,

asou

Jason Carey, P.E. Principal, RiverRestoration.org Jason.Carey@RiverRestoration.org

# **Task 1 River Revitalization Vision Communication**

RiverRestoration designs river access points from the river out, so they will function with the dynamic nature of the river environment. We will provide illustrative renderings of proposed access at Lyons Square working from the proposed river work to the OHWM. The renderings will communicate the envisioned river circulation at this site. We will explore 3 alternatives for access at the Lyons Square location.

Deliverables: Illustrative schematic designs of the 3 alternatives.

Assumptions: RiverRestoration will not provide existing conditions, detailed designs such as materials, construction details, or specifications in Task 1.

# Task 2 Hydraulic Evaluation and Design

We propose to slightly rework the in-channel grading to ensure consistent velocities and an appropriate slackwater eddy for dock/gangways and boat/river access. We would hydraulically evaluate the site using 2 and 3-D modeling. We will base hydraulic analysis on surveyed water surface elevations and observed high water marks. Hydraulics are a key part of design and it is imperative to project success. Floodplain analyses will also be performed to compare 100 year water surface elevations calculated from existing and proposed conditions and to provide needed flood protection improvements. We will provide the dock designer with water velocities (existing and proposed), water surface elevations, sediment transport, scour potential, bathymetric and topographic survey, ice thickness and debris size data, habitat information, as-built drawings of existing site, and size and types of vessels using the dock. Geotechnical data may be required by the dock designer and a separate scope of work will be requested from Materials Testing Consultants, Inc.

Deliverables: In-channel grading adjusted to create proposed river conditions conducive to floating docks/gangways and boat access.

Assumptions: FTCH will provide detailed survey and as-built drawings of the existing condition of the floodwall and overbank at Lyons square.

## Task 3 Dock Design

See attached scope of services from Baird.

## Task 4 Bishop Land Design Coordination

Task 4 assumes two design coordination meetings with Bishop Land Design to ensure the proposed structures above the OHWM. The goal of these meetings is to maintain consistency in accessibility, materials, and overall aesthetic quality. Meetings will be held at 30% and 90% design. This task includes two hours of preparation time for each meeting.

Deliverables: Meeting minutes including directives and action items as a result of the first meeting. Meeting minutes including agreement from all designers on designs for river access at Lyons Square.

Assumptions: If all consultants are not in agreement at the end of the second meeting another coordination meeting will be planned. Costs for additional coordination meetings are not included in this proposal. Meetings can be held via video conference. Travel costs are not included in this proposal.

## **Task 5 Permit Coordination**

We will incorporate the quantities associated with river/boat access at Lyons Square into the river restoration DEQ permit.

Deliverables: Inclusion of Lyons Square design into the Habitat Conservation Plan and DEQ permit application for entire river revitalization project.

Assumptions: None

# SUBJECT: Obsolete Property Rehabilitation Exemption Request for IA840, LLC at 840 Ottawa Avenue NW

An application for the establishment of an Obsolete Property Rehabilitation District and a 10-year Obsolete Property Rehabilitation Exemption Certificate for the property located at 840 Ottawa Avenue NW (the "Property") has been filed by IA840, LLC, which is an entity affiliated with Integrated Architecture (the "Developer"). The Developer has an option to purchase the Property, which is located in both the Downtown Development Authority and the Monroe North Tax Increment Finance Authority's development areas. According to City Commission policy, staff is seeking the recommendation of both tax increment finance authorities' boards prior to City Commission consideration of the application.

The Developer is a full service architecture firm offering services in sustainable architecture, planning, engineering, and interior and landscape design with offices currently located in the City of Kentwood. The Property currently includes a 13,600 square foot building which was constructed in 1920, as well as approximately 10,000 square feet of parking area. The building was most recently used as a printing facility, but has been largely vacant for the past 10 years.

The plan for redevelopment includes the rehabilitation of the 13,600 square foot building to create office, research, conference and open work spaces. A small addition will be added to the southwest corner of the existing building largely to accommodate accessibility for the building. The parking area will be improved and will include the necessary green space and storm water infrastructure required by City Codes.

The City Assessor has inspected the building and has determined that it meets the definition of "functionally obsolete" as defined by Public Act 146 of 2000 due to inadequate and obsolete heating, plumbing, electrical and mechanical systems, design deficiencies, and windows, doors, roof and interior finishes at the end of the useful economic life. The Assessor's determination qualifies the Property for the establishment of an Obsolete Property Rehabilitation District.

The rehabilitation of the building will facilitate the relocation of Integrated Architecture to the Property, along with 50 full time and two part-time employees. Current wages range from \$15/hr for part-time employees to the equivalent of \$58/hr for management

employees. The average wage for all 52 employees is \$42.39 and benefits are provided for full-time employees. In addition to the existing employees, Integrated Architecture intends to hire 8 new employees over the next two years including architects, designers and administrative roles. Wages for the new positions are estimated to range from \$23/hr to \$46/hr. The estimated investment in the project is slightly over \$2 million, with hard construction costs of approximately \$1.5 million.

The Property is located in the Monroe North Business Association area, the Neighbors of Belknap Lookout Neighborhood, as well as the tax capture districts of the SmartZone<sup>sm</sup> Local Development Finance Authority (LDFA), the Monroe North Tax Increment Finance Authority (Monroe North TIFA) and the Downtown Development Authority (DDA). The Developer has plans to review the project with each of these organizations prior to the request being considered by the City Commission, and recommendations from each of the individual tax capture authority boards is required prior to City Commission consideration.

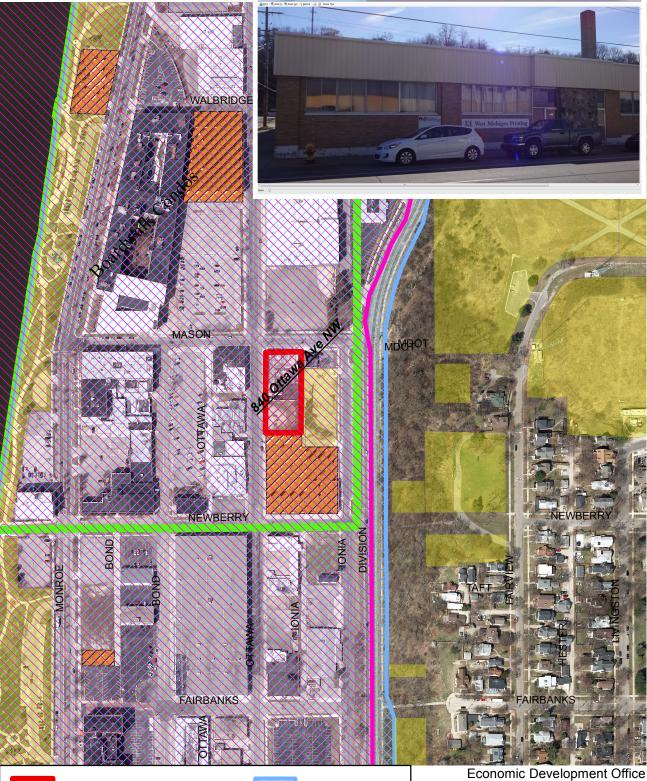

According to their respective enabling legislation, neither TIFAs nor DDAs may capture taxes levied on the Obsolete Property Rehabilitation Act Tax roll; however, LDFAs may capture such taxes. Consequently, the Monroe North TIFA may experience a slight decline in captured assessed value, the Smartzone<sup>sm</sup> would likely experience a slight increase in total captured assessed value. The DDA expanded to the North Monroe area in 2016, and would therefore experience very little impact on captured assessed values.

The project is permitted in the zone district and is in accordance with the City's Master Plan. There are no environmental concerns at the Property and the applicant is current on all of its tax liabilities to the City. The project is currently being presented to the stakeholder groups listed above, and, if met with approval, would proceed to the City Commission in July.

June 5, 2017

Jono Klooster City of Grand Rapids Economic Development 300 Monroe Ave NW Grand Rapids, MI 49503

Dear Mr. Klooster,

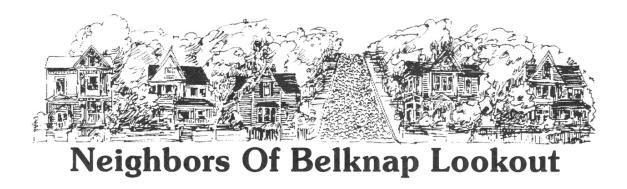

This letter is sent in support of Integrated Architecture's project to relocate their offices to 840 Ottawa, NW.

The project was introduced to Monroe North Business Association on May 12, 2017 when Scott Vyn, Director of Design with Integrated Architecture, attended our meeting, reviewed project details and renderings, and answered questions from those in attendance. A motion was made, supported, and unanimously approved by a quorum of members.

Monroe North Business Association is pleased to support this project and the anticipated revitalization it will bring to the property and neighborhood.

Sincerely,

Diedre L. Deering President, Monroe North Business Association

May 10, 2017

Dear Ms. Wood and Members of the Economic Development Corporation,

This letter is written in support of the financial incentives requested by Integrated Architecture to renovate and expand the building at 840 Ottawa for their company's offices. The NOBL board and some members of the Development Committee viewed the company's internally developed site plans (dated May 4, 2017) on May 9, 2017. The design featured a restored façade and new two-story entry for barrier free access. We particularly look forward to seeing the curb bump out with street trees and/or other greenery along Ottawa which will be made possible financially by the incentives facilitated by the EDC. In addition, we are hopeful that they will bury the external electrical wires as part of the project, but understand the most likely changes to the project would be to reduce the number of optional features should costs prove higher than expected.

We are excited to welcome Integrated Architecture's employees to the neighborhood.

Sincerely,

Neighbors of Belknap Lookout

# MEMORANDUM

DOWNTOWN DEVELOPMENT AUTHORITY

DATE:	June 9, 2017
TO:	Downtown Development Authority
FROM:	Tim Kelly, AICP Vice President

Agenda Item #7 June 14, 2017 DDA Meeting

#### SUBJECT: Development Area Liquor License Request – 118 Fulton Street

The City Commission policy establishing procedures for the review and approval of development area liquor licenses requires the City Clerk to forward any such requests in the DDA district to the DDA Board for review and recommendation. In evaluating a proposal, the DDA Board may consider how the issuance of a license would promote economic growth in a manner consistent with adopted goals, plans or policies of the district.

118 Fulton Operating, LLC is requesting DDA Board consent to the issuance of a new Class C development area liquor license for a proposed restaurant in the former Brian's Books location at 118 East Fulton Street. The restaurant and bar will feature fine dining Mexican cuisine with fresh ingredients and creative dishes. Upon completion, it is anticipated the restaurant will employ multiple full and part-time employees.

Staff has reviewed the applicant's request and is recommending approval of the application. If approved by the DDA Board, the request will proceed to the City Commission for consideration.

#### Recommendation:

Approve the resolution for the issuance of a development area liquor license for 118 Fulton Operating, LLC for the proposed restaurant at 118 Fulton Street.

Part 3 - Licenses Permits and Permissions			

#### Part 3 - Licenses, Permits, and Permissions

<u>Off Premises Licenses</u> - Applicants for off premises licenses, permits, and permissions (e.g. convenience, grocery, specialty food stores, etc.) must complete the attached Schedule A and return it with this application. Transfer the fee calculations from the Schedule A to Part 4 below.

On Premises Licenses - Applicants for on premises licenses, permits, and permissions (e.g. restaurants, hotels, bars, etc.) must complete the attached Schedule A and return it with this application. Transfer the fee calculations from the Schedule A to Part 4 below.

### Part 4 - Inspection, License, and Permit Fees - Make checks payable to State of Michigan

<u>Inspection Fees</u> - Pursuant to MCL 436.1529(4) a nonrefundable inspection fee of \$70.00 shall be paid to the Commission by an applicant or licensee at the time of filing of a request for a new license or permit, a request to transfer ownership or location of a license, a request to increase or decrease the size of the licensed premises, or a request to add a bar. Requests for a new permit in conjunction with a request for a new license or transfer of an existing license do not require an additional inspection fee.

License and Permit Fees - Pursuant to MCL 436.1525(1), license and permit fees shall be paid to the Commission for a request for a new license or permit or to transfer ownership or location of an existing license.

# Be advised that the information contained in this application will only be used for this request. This section will need to be completed for each subsequent request you make with this office.

Notice: When purchasing a license, a buyer can be held liable for tax debts incurred by the previous owner. Prior to committing to the purchase of any license or establishment, the buyer should request a tax clearance certificate from the seller that indicates that all taxes have been paid up to the date of issuance. Obtaining sound professional assistance from an attorney or accountant can be helpful to identify and avoid any pitfalls and hidden liabilities when buying even a portion of a business. Sellers can make a request for the tax clearance certificate through the Michigan Department of Treasury.

Under administrative rule R 436,1003, the licensee shall comply with all state and local building, plumbing, zoning, sanitation, and health laws, rules, and ordinances as determined by the state and local law enforcements officials who have jurisdiction over the licensee. Approval of this application by the Michigan Liquor Control Commission does not waive any of these requirements. The licensee must obtain all other required state and local licenses, permits, and approvals for this business before using this license for the sale of alcoholic liquor on the licensed premises.

I certify that the information contained in this form is true and accurate to the best of my knowledge and belief. I agree to comply with all requirements of the Michigan Liquor Control Code and Administrative Rules. I also understand that providing **false** or **fraudulent** information is a violation of the Liquor Control Code pursuant to MCL 436.2003.

The person signing this form has demonstrated that they have authorization to do so and have attached appropriate documentation as proof.

Julia Dale, Director Corporations, Securities & Commercial Licensing Bureau

#### ARTICLES OF ORGANIZATION

#### OF

#### 118 FULTON OPERATING, LLC

In order to form a Michigan limited liability company pursuant to the provisions of Act 23. Public Acts of 1993, the undersigned executes the following Articles:

#### ARTICLE I

The name of the limited liability company is 118 Fulton Operating, LLC

#### ARTICLE II

The purpose or purposes for which the limited liability company is formed is to engage in any activity within the purposes for which a limited liability company may be formed under the Limited Liability Company Act of Michigan.

#### ARTICLE III

The business of the limited liability company shall be managed by and under the authority of one or more managers.

#### <u>ARTICLE IV</u>

The address of the initial registered office, which is the same as the mailing address, is 124 E. Fulton Street. Suite 300, Grand Rapids, Michigan 49503. The name of the initial resident agent at the registered office is Lisa Gavranovic.

Signed this <u><u>I</u><u></u> day of June, 2016.</u>

ับมก

David T. Caldon Organizer

06/17/2016 9:45AM (GMT-04:00)

#### OPERATING AGREEMENT

#### FOR

#### 118 FULTON OPERATING, LLC

### A Michigan Limited Liability Company

THIS OPERATING AGREEMENT (the "Agreement") is made and entered into effective as of June 16, 2016, by and between CDKI HOLDINGS, LLC, a Michigan limited liability company (the "Sole Member"), and 118 FULTON OPERATING, LLC, a Michigan limited liability company (the "Company"), who agree as follows:

1. <u>Formation: Name: Purpose</u>. The Company has been formed pursuant to the provisions of the Michigan Limited Liability Company Act, as amended ("Act") by the execution and filing of its Articles of Organization (as the same may be amended, the "Articles") with the Michigan Department of Licensing and Regulatory Affairs ("Department"). The Company shall be permitted to carry out all activities permitted under the Act.

2. <u>Offices</u>. The principal office and any additional office of the Company will be at such place or places inside or outside the State of Michigan as the Sole Member may designate from time to time. The initial registered office of the Company and its resident agent are as set forth in the Articles and as may be changed from time to time in accordance with the provisions of the Act.

3. <u>Member</u>. The Company was formed as a limited liability company with one member. If the Company adds any additional members, the rights of the additional members will be governed by the Act until such time as an amendment is made to this Agreement.

#### 4. General Management of Company.

(a) Except for those matters which pursuant to this Agreement are to be decided by the Members, the business and affairs of the Company shall be managed by one or more Managers. Until increased or decreased by consent of the Members, the Company shall have one Manager, who is Susan J. Krupp. A Manager is not required to be a Member, but must be affiliated, by employment or ownership, with a Member. The compensation and benefits, if any, for a Manager shall be approved by the Members. Except as otherwise provided by this Agreement, the Manager has the authority to make all decisions and to take all actions concerning the Company's business and affairs.

(b) <u>Removal and Replacement of Managers</u>. A Manager may be removed as a Manager only upon her resignation or for cause. A Manager shall be deemed to resign as a Manager upon her death, disability, or resignation. The removal of a Manager for cause requires the consent of the Members. The removal of a Manager for cause shall be at a meeting called expressly for that purpose. A Manager to be removed for cause shall have reasonable advance notice of the allegations against her and an opportunity to be heard at such meeting. Upon the resignation of the Manager for any reason, the Members shall appoint a successor Manager. The resignation of a Manager who is also a Member or affiliated with a Member shall not affect such Member's continued ownership of the Member's Units except as otherwise provided by this Agreement.

(c) <u>General Powers of Manager</u>. Except as otherwise provided by this Agreement, the Articles, or the Act, the Manager has the authority to make all decisions and to take all necessary or appropriate actions with respect to the Company's business and affairs. If there is more than one Manager, the consent of a majority of the Managers is necessary to approve any particular action with respect to the Company's business and affairs over which the Managers have authority to act.

(d) <u>Limitations on Powers of Manager</u>. Notwithstanding anything to the contrary contained in this Agreement, a Manager, except with the prior consent of the Members as provided herein, shall not, in her capacity as a Manager, take any act, expend any sum, make any decision, incur any obligation, or exercise any power on behalf of the Company with respect to any of the specific actions set forth in <u>Section 7</u>, nor shall the Manager commit any act that would contravene any provision of this Agreement, the Articles, or the Act.

(e) <u>Standard of Care: Liability</u>. A Manager shall discharge her duties in the management of the Company's business and affairs in good faith, with the care an ordinarily prudent person in a similar position would exercise under similar circumstances, and in a manner she reasonably believes to be in the best interests of the Company. A Manager shall not be liable for any monetary damages to the Company or to any Member for any breach of any such management duties except for receiving a financial benefit to which the Manager is not entitled; voting for or assenting to a distribution to Members in violation of this Agreement or the Act; or committing a knowing violation of law.

(f) <u>Meetings and Consent in the Event of more than One Manager</u>. The Managers may conduct their business at meetings held at the time and place as determined by the Managers. A quorum is necessary to conduct business at a meeting of the Managers. The presence of a majority of the Mangers constitutes a quorum. Any action required or permitted to be taken by the Managers may be taken without a meeting, without prior notice, and without a vote if written consents, setting forth the action so taken, are signed by the Mangers having not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting at which all Managers entitled to vote on the action were present and voted. Every written consent shall bear the date and signature of each Manager who so consents. Prompt notice of the taking of action without a meeting by less than unanimous written consent shall be given to all Managers who have not consented in writing to such action.

(g) <u>Reimbursement</u>. The Company shall reimburse a Manager for all legitimate expenses of the Company incurred or paid for by a Manager on behalf of the Company.

(h) <u>Employment by the Company</u>. The Company may employ one or more persons as the Manager deems necessary to perform the operations of the Company, and such persons may also be Members of the Company.

#### 5. Capital Contributions; Accounting.

(a) <u>Capital Contributions</u>. The Sole Member has agreed to contribute to the Company those assets as may be acceptable to both the Sole Member and the Company for the startup of its business as the initial capital contribution to the Company. The Sole Member may contribute additional capital to the Company as the Sole Member and the Company may agree, but the Sole Member is not required to contribute any additional capital to the Company. Any funds contributed or advanced to the Company by the Sole Member that are not designated as capital contributions will be loans to the Company payable by the Company to the Sole Member on demand together with interest at the annual prime rate of interest of the financial institution where the Company maintains its primary depository account (or at such other rate as the Company and Sole Member will not be paid interest on any capital contribution. The Company will reimburse the Sole Member for all expenses of the activities of the Company reasonably incurred and paid for by the Sole Member on behalf of the Company.

(b) <u>Federal Tax Election</u>. Until otherwise specified by the Sole Member, the operations of the Company will be treated for federal tax purposes as the operations of the Sole Member. In the event the Sole Member makes any other tax election on behalf of the Company, any action of the Sole Member or any officer of the Company that adversely affects such election will be null and void and shall have no effect.

(c) <u>Fiscal Year</u>. The fiscal year of the Company will be the calendar year, unless otherwise specified by the Sole Member.

6. <u>Assignments of Interest in the Company</u>. The Sole Member may voluntarily sell, assign, pledge, or otherwise transfer or encumber (collectively "**transfer**") all or part of the Sole Member's interest in the Company by written instrument signed by the transferring member and the transferee. A member's interest shall not be subject to any involuntary transfer of any kind, including, but not limited to, transfers resulting from bankruptcy, creditor attachment or insolvency.

7. <u>Dissolution</u>. If the Company is dissolved as provided in this Agreement, upon the winding up of the Company, the assets will be distributed as provided in the Act and this Agreement.

8. <u>Additional Members</u>. The Company may admit one or more additional members upon such terms and conditions, and for such capital contributions, as may be determined by the Company and the Sole Member.

9. <u>Distributions</u>. Distributions of cash or other assets of the Company will be made at such times and in such amounts as the Sole Member may determine; provided, however, that a distribution will not be made if such a distribution would violate the Act.

10. <u>Limitation on Liability</u>. The debts, obligations and liabilities of the Company, whether arising in contract, tort or otherwise, shall be solely the debts, obligations and liabilities

of the Company, and no member of the Company shall be obligated personally for any such debt, obligation or liability of the Company solely by reason of being a member.

11. Indemnification. The monetary liability of any current or former member or officer of the Company for breach of any duty established under the Act is limited to the fullest extent permitted by the Act. The Company will indemnify and hold harmless each current or former member or officer of the Company from and against any and all losses, expenses, claims, and demands sustained by reason of any acts or omissions or alleged acts or omissions of any member or officer, including judgments, settlements, penalties, fines, or expenses incurred in a proceeding to which the current or former member or officer of the Company is a party or threatened to be made a party because the person is or was a member or officer of the Company, to the fullest extent permitted by law or contract and not subject to any restriction by this Agreement.

12. <u>Amendment</u>. This Agreement may be amended only in writing signed by the Sole Member and the Company specifically stating that this Agreement is amended.

Purchase of your Class C liquor license

John & Deylelmin John J. Doyle

124 Fulton Street Suite 300 Grand Rapids MI 49503

10.17.2016

Capital Improvements:

CDKI Restaurant Group will invest \$75,000 in 118 Fulton Street, Grand Rapids, MI 49503 through the addition of a new kitchen build out and the equipment for the kitchen.

Sincerely,

tion gauranovic

Lisa Gavranovic Director of Business Development

124 Fulton Street Suite 300 Grand Rapids MI 49503

10.17.2016

**Business Statement:** 

CDKI Restaurant Group is excited to introduce a new restaurant and bar featuring casual fine dining Mexican cuisine. The menu will feature fresh ingredients and creative dishes. The restaurant will offer full and part time jobs to the community. We feel that remodeling the current building into a restaurant is a great addition to the neighborhood. We are excited to join the activity and growth in downtown Grand Rapids.

Sincerely,

tion gaunanovic

Lisa Gavranovic Director of Business Development

### DOWNTOWN DEVELOPMENT AUTHORITY OF THE CITY OF GRAND RAPIDS

### RESOLUTION SUPPORTING ISSUANCE OF A LIQUOR LICENSE FOR A BUSINESS LOCATED IN A DOWNTOWN DEVELOPMENT DISTRICT

Board member\_\_\_\_, supported by Board member \_\_\_\_\_, moved the adoption of the following resolution:

WHEREAS, the Downtown Development Authority of the City of Grand Rapids (the "DDA") was created by the City Commission on October 16, 1979, and operates pursuant to the authority of Act 197 of 1975, and

WHEREAS, the State of Michigan has provided for the issuance of additional licenses within the DDA district, as authorized by Public Act 501 of 2006, being MCL 436.1521a, (the "Act"), and

WHEREAS, 118 Fulton Operating, LLC, a Michigan Limited Liability Corporation, located at 124 E. Fulton Street, Suite 300 Grand Rapids, Michigan, 49503; has applied to the City for approval of a license under the Act, and is located within the DDA district, and

WHEREAS, 118 Fulton Operating, LLC, in its application, has indicated its intention to operate fine dining Mexican cuisine with fresh ingredients and creative dishes, and

WHEREAS, the application has been forwarded to the DDA for review and consideration.

WHEREAS, that the DDA finds that the issuance of a liquor license to 118 Fulton Operating, LLC as proposed would promote economic growth by:

- 1. operating in a manner that would be consistent with adopted goals, policies and plans of the district, particularly by promoting the competitiveness and vitality of downtown Grand Rapids as a destination for dining, arts and tourism.
- 2. facilitate private investment and promote economic growth in the purchased space at 118 Fulton Street.
- 3. supporting the creation of several full and part-time jobs in the district.

NOW, THEREFORE, BE IT RESOLVED, that the Downtown Development Authority of the City of Grand Rapids recommends issuance of a Class C Liquor License to 118 Fulton Operating, LLC at 118 Fulton Street above all others.

### **RESOLUTION DECLARED ADOPTED.**

Dated: June 14, 2017

Kristopher Larson Executive Director

### CERTIFICATION

I, the undersigned duly qualified and Secretary of the Downtown Development Authority of the City of Grand Rapids (the "DDA"), do hereby certify that the foregoing is a true and complete copy of a resolution adopted by the Board of Directors of the DDA at a regular meeting held on June 14, 2017, and that public notice of said meeting was given pursuant to, and in compliance with, Act 267 of the Public Acts of Michigan of 1976, as amended.
