Hyosung bikes on Indian roads

Further to the announcement of an arrangement between the Korea-based S&T Motors and Garware Motors for the marketing and servicing of two Hyosung bikes to start with, and followed by an assembly facility at Wai near Satara, Garware Motors has commercially launched the Hyosung ST7 and GT650R.

While the assembly operation is claimed to be a month or two away from kick-off, the current crop of bikes that are built units, has already reached the Garware show-rooms.

Prominent among them is the exclusive 'Garware Superbiking' showroom that started functioning in Pune on 21 April, 2011 at Goodluck Chowk, Deccan Gymkhana. While deliveries are slated for mid-June, the first ST7 was recently given to Bollywood actor Arjun Rampal at an event in Mumbai announcing the commercial launch of the bikes in the commercial capital of India. In Mumbai, the ST7 comes
