

Law & Ethics for Health Professions, 8e

Karen Judson and Carlene Harrison

©2019

ISBN: 1259844714

Detailed List of New Features

All statistics and court cases have been updated, as well as content relevant to laws passed since the seventh edition.

The interior design and layout have been refreshed to make it easier for students to navigate through the content.

McGraw-Hill Connect® Law & Ethics has been updated to reflect updates in the chapters and feedback from customers. Additional Case Studies are included in Connect, as well as Video Case Scenarios, to allow students to apply important skills learned from the text. Both the Case Studies and the Video Cases include related questions with immediate feedback for the students.

Chapter by Chapter Changes

Numerous updates have been made in the eighth edition to enrich the user's experience with the product:

Chapter 3- "Working in Health Care," has been updated to reflect the changing configuration of health care management. Additionally, the types of accreditation in health care are explained in more detail.

Chapter 7- "Medical Records, Informed Consent, and Health Information Technology" provides more coverage of meaningful use, social media, and telemedicine.

Chapter 8- "Privacy, Security, and Fraud," includes coverage of not only privacy of the health care record but also more detail on the security requirements for health care records. There is now information about security breaches, as well as information about the increasing cost of fraud in health care.

Chapter 10- "Workplace Legalities," updates appropriate Centers for Disease Control and Occupational Safety and Health Administration regulations, as well as best practices in hiring employees.

Chapter 12- “Death and Dying,” provides information about careers in palliative care, as well as updated information about “Death with Dignity” legislation in the states.

Chapter 13- “Health Care Trends and Forecasts,” has been updated to evaluate the current status of health care stakeholders in the United States and to inform students of today’s trends in health care that may affect our health care in the future.
