

Take a comprehensive approach to AP success

Get Students **ONboard[™]** for
AP[®] Economics Success
The perfect summer assignment!

What is **ONboard**?

Often used as a summer assignment, *ONboard* provides Advanced Placement[®] course preparation, which helps students develop a foundation of background knowledge and skills they can build upon before class begins.

Designed for maximum flexibility

ONboard for AP Economics is a series of interactive online modules that provide a flexible pathway to preparedness. The combination of videos, animations, and interactive elements accommodates a variety of learning styles and keeps students engaged.

ONboard modules can be assigned by school districts or teachers or completed independently by motivated students before their courses begin.

Expert advisory boards

ONboard for AP Economics was developed through extensive research conducted by a carefully selected team of AP teachers with experience as AP Test Development Committee Members, AP Institute Leaders, College Board Consultants, AP Question Writers, Table Leaders and Readers.
