

**THE WORLD'S HARDEST HITTING BREAKER** is the capstone of the Atlas Copco Construction Tool roster of demolition hammers, crushers and hand tools. Like the HB7000, with a hitting power of 700 tons per blow, at a rate of up to 450 times per minute, every breaker in our line is designed to perform like a thoroughbred, with the spirit of a mustang.

Atlas Copco Construction Tools provides you with Maximum Impact that will make a difference in your performance. See for yourself. You'll chew through the toughest parts of your worksite and get on to the next order of business faster than you ever thought possible.

See which model suits your needs best. Call our customer service department today for a distributor in your region. Each of our distributors is supported by our expert sales and service specialists, with the know-how to advise you and the commitment to serve you long after the sale.

**MAXIMUM  
IMPACT**

**Call today.  
You'll be amazed.**
