

DR-SMD2DIP-FFC-0.5-60 FFC 0.5mm 60 pin to Single pin Converter

User Guide

Use it to connect FFC (Flat Flexible Cable) up to 60 pins with 0.5mm pitch and use the extended single pin ends from the edge of the PCB to connect to your device like microcontroller or any other board.

Product is assembled with FFP 60 pin 0.5mm pitch connector and 3 x 20pins male headers.

Below is the enlarged view

Sample FFC cable (Not included)

Keep the copper side of the cable facing top.

(i.e. Facing to white part of the FFC connector mounted on the board)
